Goldometer or Gold Seeker's Guide! Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold mines became known to the residentslof California generally.

History of the Discovery. Signor D'Alvear went out to California nearly

wo years ago, in consequence of certain information which he had received of the geological character of that country, with the firm belief that vast mines of precious metals would be revealed there, upon careful investigation. He was encouraged to this enterprise, also, by his confidence in the powers of a certain Magnetic instrument which he had invented, called the 'Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific calculations proved to be founded in truth and profound wisdom, and his new instrument, the " Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacramento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians. Disgusing his object under the pretence of purely scientific recearch, he obtained

ASTOR HOUSE, NEW YORK, Dec. 21, 1848. The undersigned, having this day witnessed the practicle operation of Signor Jose De Alyear's newly invented magnetic instrument, the GOLDOMETER, feel entirely satisfied that it possesses the extraordinary power of detecting Secret Art of finding Mines of Gold, Silver, Mineral ores hidden beneath the surface of the earth, and have no doubt that it will prove an invaluable aid in the discovery of the Mineral The first discovery of Gold in California was resources of the United States and the world.

Los Angelos, California, August, 1848 This may certify that the undersigned is fully. convinced that Signor Jose De Alvear was the first discoverer of the Gold deposites of California, and that this discovery was made by the bringing with him a very large quantity of Gold aid of a Magnetic instrument called the GolD-OMETER, which I have seen successfully applied to the discovery of veins of Gold are, in places where no indications of that substance appeared upon the surface of the earth.

No Agents.

In consequence of the difficulty of finding faithful agents, and of preventing frauds, where articles of this nature are sent out for general sale, Signor D'Alvear has determined to sell none of his works or instruments unless ordered by letters sent directly to him, when the desired publication, or instrument, will be forwarded under his signature and seal, so that all doubt as to its genuineness may be removed. CF BEWARE OF ALL IMITATIONS of this Instrument which may hereafter appear, as the secret of imparting the Gold Detecting power is known to no person whatever, except the original inventor.

IF The GOLDOMETER, and GOLD-SEEKERS GUIDE, will both be sent by mail, closely enveloped and sealed, and therefore, not subject to inspection by Postmasters, for the sum of THREE DOLLARS, sent post paid to SIGNOR JOSE DE ALVEAR, Box 2713, New York City. The Instrument in very light, and the Guide is printed on thin paper-so that the charge by mail, or express, will be very small to any part of the United States. The price of the GOLD SEE-KERS GUIDE alone, is ONE DOLLAR, sent as above. Address,

SIGNOR JOSE DE ALVEAR.
