On motion of Mr. J., the Senate went into Executive session, and unanimously confirmed the nomination.

HOUSE.—Mr. Bloom called up the bill to extend the charter of the Farmers' Bank of Bucks county, which passed Committee of the Whole, and debated on second reading till 1 o'clock.

The Governor sent in a message that he had allowed the bill to repeal the charter of the Ohio and Erie Railroad Company to become a law without his signature.

Afternoon Session.—The bill in relation to the Farmers' Bank of Bucks county was passed.

HARRISBURG, March 10, 1849.

SENATE.—Among the petitions offered this morning was one from citizens of Allegheny county, praying that their own store-keepers should be protected by the passage of a law prohibiting the sale of merchandise by persons not residents of the place wherein it is offered for sale.

A remonstrance was also presented from citizens of Schuylkill county, against granting to the Reading Railroad Company a further extension of the time to construct their road into the town of Pottsville.

A remonstrance was presented from the citizens of seventh ward, Spring Garden, against changing the place for holding their elections.

Mr. Crabb, in place, read a bill extending the jurisdiction of the Aldermen of the city and county of Philadelphia.

The Senate then occupied the rest of the session in the consideration of the bill to avoid the inclined plane.

HOUSE.—A remonstrance from the commissioners of Spring Garden, was presented by the Speaker, against the proposed route for the railroad to avoid the inclined plane.

The bill relative to sales by persons in a fiduciary, was taken up and passed.

The consideration of the bill for the completion of the North Branch Canal was resumed.

Mr. Ball submitted his amendment which appropriates \$2,000,000 from the treasury for the completion of the work, which is to be borrowed from the banks of the State in three annual installments, each giving ten per cent, on the amount of its capital stock; in return for this loan the banks to have the privilege to issue small notes, countersigned and registered by the Auditor General, and to receive certificates of loan to run twelve years with 2 per cent interest. The entire revenue of the work to be appropriated to the payment of interest and the repayment of the loan, and the remainder, if any there be, appropriated to a sinking fund for the extinguishment of the State indebtedness. In case the Banks decline to issue small notes, then the tax to be increased to 6 per cent, on all dividends of 6 per cent, and increasing one per cent, on every per cent of interest, so that the tax should be 12 per cent, on all dividends exceeding 8 per cent. Bank applying for a recharter to pay 50 per cent, on their increased capital, to be applied to paying the loan or to the sinking fund, and to receive a certificate of stock bearing 2 per cent, interest during the first three years, afterwards 3 per cent, and during the third three years 4 per cent.

The amendment occasioned a long debate, after which it was finally carried—yeas 48, nays 42.

A debate followed upon the first section of the bill, Mr. Roberts making a speech in opposition.

The previous question was demanded by Mr. Little, when the section was lost—yeas 41, nays 45.

The use of Quinine at the west.

A medical correspondent of the Surgical Journal, writing from the West, says: The immense quantities of quinine sold here would astonish an Eastern dealer in drugs. Five hundred ounces by one druggist in a small village are often disposed of in a few days, and in the larger towns fifteen hundred or two thousand ounces are no uncommon sale by one house in from twelve to thirty weeks. In speaking of the fever, or fever and ague, as it is called, for which this medicine is used, the same writer says, that though generally prevalent, and in some seasons almost universal, (as in 1828, when every person, man, woman and child, were down with it,) yet the mortality, as compared with fevers at the East, is as one to fifty. When a man is seized with the chill, the physician prescribes sixty grains of quinine in six equal doses, and if he is very restless adds one eighth of a grain of morphia to one of the powder, perhaps the first, and generally in twenty-four hours, the patient is well. But without this invaluable medicine, the patient is often down for weeks and even months.

From the Boston Traveller

The Case of Return to Reason, after Forty Years Insanity.

We stated the other day, in general terms, the case of a man in the Newton Poor House, who after an insanity of about forty years (thirty of which he was chained,) had recovered his reason. The name of the unfortunate man is Elisha Robbins, formerly a shoemaker by trade. He was born about the year 1786, and is therefore nearly 64 years of age. He was 24 years old when first seized with insanity. At that time he had just lost his wife, he had two children then living. Soon after his seizure he was so violent that it became necessary to chain him down, without clothes save a shirt, and with only straw to sleep upon. The course was rendered absolutely necessary by his habits, which were no better than those of the beasts of the field.

At one time the paupers were farmed out by the town to the lowest bidders. Among others was Robbins, who was chained in a barn by his keeper, where he was found one day with his feet frozen so as to render their amputation necessary. He was forthwith removed, and since that time has had every comfort compatible with his situation—his room being always kept warm. About a year ago, Robbins first began to exhibit signs of returning reason. It was observed that he paid more attention to personal cleanliness. He was encouraged, and shortly appeared after the laps of nearly a century—in the clothing of a man. Soon after he was allowed to wander about the building, and at times he would turn to and help in light work, such as husking corn, &c.

Finally, he began to talk of persons and places familiar in his youthful days, before reason was clouded; but beyond that period all to him was blank. He described with perfect accuracy places with which he was conversant in his earlier days; spoke of the companions of that period; one in particular whom he denominated a "gal," though if now living she has attained to over three score years. He has been tried in various ways as to the verity of his memory; but it always stops at the commencement of his insanity. One day the marriage of an acquaintance, which took place in his early days of reason, was mentioned, and the name of the bride intentionally misstated. He instantly corrected the error, and gave the right name. When asked in what year he was born he replies, "About 1786"—but still insists that he is but twenty-four years of age. At the last accounts he continued to improve, and it was hoped that reason was again finally seated upon her throne.

Condition of California.

The Albany Argus of yesterday publishes a letter from Col. Stevenson dated Monterey, Oct. 23, 1848, from which we take the following:

"This country is in a deplorable condition, without either civil or military law or government. At this moment there is not in this town—the late capital—either Governor, Alcalde, Adjutant General, or any other person clothed with authority, except Captain Burton, late Lieutenant Colonel, (commanding the post) and some twenty regular soldiers. All the others have deserted. Of the company of Dragoons, C of 1st regiment, but about twenty remain, and they are divided into two detachments, 500 miles apart. All the recruits that lately came out here deserted, and I have no doubt that the whole military force of the country will in a short time consist of the officers of the artillery and dragoon company, and even they have strong inducements to desert—if not to dig for gold, at least to find some place where a common round jacket may be purchased for less than fifty dollars, and where very indifferent board will not cost four dollars per day. In short, I regret to say that there is neither law, order, nor any kind of Government, civil or military, in the country. It is simple anarchy, and the power of the strongest. The wild Indians infest even the most public highways, and shoot down with their arrows the unarmed traveler, merely for his clothes. They enter the ranches and compel their inmates to entertain them with the best they have, and then drive off their horses. How long this lawless condition of things is to continue no one can tell. An effort should be made to organize some kind of Government, not only for the protection of the inhabitants, but for the occupation of the country. In soil, climate and production, and especially in its gold and silver mines, it is worthy of the protecting hand of the home Government. And if it were not, common humanity and justice demand it.—Every day develops increased wealth in the gold regions, and the necessity of establishing some standard of rule of value, either in ingots or coin.

A Pedler in Chicago, a few days since, fell in a fit, in the street. Attached to his clothes was a card upon which was written, "If I fall in a fit, light my pipe—it is the only thing that will relieve me." This was done and the man was relieved in the manner prescribed. So says the Chicago Tribune.

On Dit.—It is reported that Mr. Buchanan's friends are already moving with a view to make him a candidate for Governor of Pennsylvania, at the next gubernatorial election. He will have to encounter a determined opposition in his own party—more determined than any other man who could be brought forward.

EXTRAORDINARY.—The Lewisburg (Va) Chronicle says:—

"Four brothers and two sisters, all descendants of the same parents, have been married to four sisters and two brothers, all the descendants of the same parents, have been married to four sisters and two brothers, all the descendants of one father and mother, all of Kanawha county, Va."

The market is rather heavy, and Flour is held at \$4, 87 1-2 per bbl. for common brand, without sales, some small lots have been taken for city use at \$5, and extra brands at \$5.50. Rye Flour is held at \$3 12 1-2 per bbl. and Corn Meal at \$2.50. Mr. Henry Collins, the celebrated Gretna Green Blacksmith, who married so many runaway couples, died recently at Lambboth Till, Scotland, aged 70. In twenty-three years he celebrated 7000 marriages, and left a considerable fortune, the avails of the matrimonial fees.

Gen. Taylor has invited Gen. Scott to return to Washington and make that place his headquarters.

JEALOUSY AMONG THE LADIES.—The ladies are all jealous of Clickener's Sugar-coated Purgative Pills, for heretofore they (the ladies) flattered themselves that they were the only medicine in nature which was at the same time sweet to the lips and reviving to the heart. In fact it is a luxury to be sick now-a-days, the pleasure is so great of being made whole again by Clickener's Sugar-coated Purgative Pills, they being adapted to all Constitutions, and their operations unattended with nausea, pain or gripe. For sale at the Republican Office, by T. Schoch, the only authorized agent for Stroudsburg.

DIED.

Silence

That dreadful cough! The Lungs are in danger! The work of the destroyer hath begun. The cough of consumption hath in it a sound of Death!

Are you a mother? Your darling child, your idol and earthly joy, is now perhaps, confined to her chamber by a dangerous cold, her pale cheeks, her thin shrunk fingers, tell the hold disease has already gained upon her, the sound of her sepulchral cough pierces your soul.

Young man, when just about to enter life, disease sends a hear-crushing blight over the fair prospects of the future, your hectic cough and feeble limbs tell of your loss of hope, but you need not despair. There is a balm which will heal the wounded lungs, it is SHERMAN'S ALL-HEALING BALSAM.

Mrs. Attree, the wife of Wm. H. Attree, Esq., was given up by Dr. Sewall of Washington, Drs. Roe and McClellan of Philadelphia, Dr. Roe and Dr. Mott of New York. Her friends all thought she must die. She had every appearance of being in consumption, and was so pronounced by her physicians—Sherman's Balsam was given and it cured her.

Mrs. Garrabrantz, of Bull's Ferry, was also cured of consumption by this Balsam when all other remedies failed to give relief—she was reduced to a skeleton. Dr. A. C. Castle, Dentist, 281 Broadway, has witnessed its effects in several cases where no other medicine afforded relief—but the Balsam operated like a charm. Dr. C. also witnessed its wonderful effects in curing Asthma, which it never fails of doing. Spitting Blood, alarming as it may be, is effectually cured by this Balsam. It heals the ruptured or wounded blood vessels, and makes the lungs sound again.

Rev. Henry Jones, 108 Eighth avenue, was cured of cough and catarrhal affection of 50 years standing. The first dose gave him more relief than all the other medicine he had ever taken. Dr. L. J. Beals, 19 Delancy-street, gave it to a sister-in-law who was laboring under Consumption, and to another sorely afflicted with the Asthma. In both cases its effects were immediate, soon restoring them to comfortable health.

Mrs. Lechreia Wells, 95 Christie-st. suffered from Asthma 42 years. Sherman's Balsam relieved her at once, and she is comparatively well, being enabled to subdue every attack by a timely use of this medicine. This indeed is the great remedy for Coughs, Colds, Spitting Blood, Liver Complaints, and all the affections of the throat, and even Asthma and Consumption.
