

tion is broken, and whatever may be the result, there is every probability of a blood war between Canada and England. With frontier extending many hundreds of miles along the Northern States, together with the feeling of friendship and interest that has been created by intercourse, Canada will be unconquerable. Her population like her climate, is hardy; her strong holds are almost impregnable. Her mountains, her fastnesses, and her rivers, while they would afford protection to her own population would prove the graves of thousands of her foreign enemies.

From the Easton Whig.  
**The Crane Iron Works.**  
The Easton Argus and other Democratic papers made a vain attempt to create political capital by saying that the price of labor had been reduced since the Whigs have gained the ascendency. When the Argus was called to account for the assertion by the Whig press, said such a state of things may not "sound well in their ears, but 'twas nevertheless so, and we can prove it." Would our neighbor undertake to prove it after reading the following statement of facts, signed by the workmen in the employ of the "Crane Iron Company," themselves.

To the Editor of the Whig and Journal:—  
We the undersigned, to our surprise, saw an article this week in the *Allentown Democrat*, and to have been copied from the *Easton Argus*, stating that our wages had been reduced to SIXTY CENTS PER DAY! We have for years noticed that it is the practice of these mean, petty, loco-foco prints to meddle between us and our employers, but we could not believe that they would assert such base falsehoods. The Lehigh Crane Iron Company paid us our last winter the same price we were receiving before the last election, and in the present month they advanced our wages ten per cent, solicited by any workman, to our knowledge, and we do not know of any man, in the employ of this Company, working for SIXTY CENTS PER DAY, neither before or after the election.

- Some of us have worked for the said Company from the commencement of their works, and the majority of us for several years, and we find we are treated by them as well as those of any other establishment of the kind, and we believe we can manage our matters with our employers better than the editors of the *Argus* and the *Democrat* can do for us. We also are of the opinion that if the late Administration had not turned the country the way they did, we should not have had times as bad as they now been.

**The New School Law.**  
The West Chester Village Record of yesterday, in stating some of the principle features of the amendment to the School laws, says the directors are empowered to levy a tax sufficient to keep the schools open not more than ten months in each year. The Schools are required to be kept open at least four months in each year. The Treasurer of the school fund is made the Collector of School taxes. The Collector is to fix a time and place, when and where he will receive the School taxes, and is to receive two per cent for collecting. If it is not paid at the time designated, the collector is to collect it. Sub-districts are not interfered with—where the committee of a sub-district and the directors disagree in the employment of a teacher, the people of the sub-district have the right to elect a teacher, who, however, has been first examined by the directors. All moneys subject to taxation for State and county purpose, are made subject to School tax. The State appropriation of two hundred thousand dollars is continued; but it is not made in the basis of taxation. The people do not vote on the question of taxation. The Superintendent is required to furnish to each School a copy of the new map of the State, Pennsylvania, which by agreement with the publishers are furnished at \$3 each.

**Origin of Fog.**  
The very common but mistaken idea, that the fog which we see of an evening hanging over low meadows, and by the sides of streams, arises naturally from our first observing it in low places, and, as the cool of the evening advances, remarking that it ascends to higher land; the fact is, however, not that the damp is ascending, but that from the coldness of those situations they are the first places which condense the before invisible vapor, and as the cold of the evening advances, the condensation takes place at a higher level. A large portion of the vapor ascends to the upper region of the atmosphere, where it cools and becomes visible to us in the form of clouds; and increasing in density by cooling, they gradually descend nearer the earth, until at last, becoming too condensed by the loss of heat, they fall in rain, to be again returned in endless succession.

**A MEAN MAN.**—We have heard of mean men in our day, but a correspondent of the *St. Louis Reveille* mentions one, to whom was yielded the palm:—"Talk about mean men! Why, there's that Bill Thompson, he's the meanest man I have ever heard of. Bill was a constable there. Why don't you think, he had an execution against me for a little matter of groceries, and he came out and levelled on my old 'oman's ducks, and he wanted me to drive 'em up and ketch 'em for him, and I told him to ketch 'em himself; and he chased 'em round and round the house, and every time he's ketch a duck, he'd set down and wring its head off, and charge mileage!"

**The Right Way.**—In a time of much religious excitement, and consequent discussion, an honest old Dutch farmer of the Mohawk, was asked his opinion as to which denomination of Christians were in the right way to Heaven. "Well, den," said he, "ven we ride our wheat to Albany, some say dis is the best road, and some say dat is de pest; but it don't make much difference which road we take; for when we get dare, dey never ask us which way we come—and it is none of deir business, if our wheat is good!"

**PEN AND INK SUPERSEDED BY MACHINERY.**  
—M. Oliver T. Eddy, of Baltimore, Md., has invented a machine, somewhat resembling a very small piano, by touching the springs of which, printed letters are instantly produced upon paper placed for the purpose. There is a key for each letter of the alphabet, the marks of punctuation, figures, &c., and on the depression of a key with the finger, a corresponding letter is printed on the paper. It may be useful as a medium of communication for the blind. The instrument will print with almost the perfection of an ordinary printing press, a single copy of any document, and with about the same rapidity as the document can be transcribed by a good penman—the copying done by the machine, being of course more plain and more easily read.

**A Portrait.**  
The last "*Lancasterian*" draws the following flattering portrait of its own political friends in the course of some remarks about the Legislature which has just adjourned. The truthfulness of the portrait will be at once acknowledged:—"The democratic party requires purgation. There is too much rottenness and corruption within it. It has blinked at deviations from political rectitude so long that many seem to think these deviations essentialities. There is no security from contamination other than by lopping off the deceased members and let that be done soon and speedily."

**MARRIED.**  
At the residence of Col. Jefferson Davis, in Mississippi, Hon. Richard Broadhead, late member of Congress from this district, to Miss Mary Jane Bradford, of the former State.

**CLICKENER'S SUGAR-COATED PURGATIVE PILLS** are every where all the rage. And wherefore not! For all other medical compounds make you worse before they make you better, while Clickener's Pills give pleasure from the first instance, and cure you entirely without giving him to suppose that he has been taking medicine at all. Had Byron been living he would have called Clickener's Sugar-coated Purgative Pills the Poetry of Medicine, for heretofore medicine, in almost all its forms, was nearly as disgusting as it was beneficial, but now the evil is most effectually removed, for Clickener's Sugar-coated Pills have no taste whatever of medicine, produce none of the nausea and griping attendant on the operation of other medicine, and their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has been discovered.

**FRED A. ROSE, Administrator.**  
Milford, March 8, 1849.—6t.

**Prof. Barry's Wonderful Tri-copherous,** or Medicated Compound, cures baldness, prevents gray hair, and eradicates scurf and dandruff. This article differs from all other advertised nostrums of the day. Its manufacture is based upon a thorough physiological knowledge of the hair and its connection with the skin, as well as a knowledge of the various diseases which effect both. This celebrated Compound, in addition to its usefulness as a preserver and beautifier of the hair, is unequalled by any other article as an external application for bruises, sprains, erysipelas, swellings, ringworm, scald head, inflamed skin, prickly heat, scrofula, tetter, pimples, sore throat, tender feet, salt rheum, rough hands, headache, chapped skin, chilblains, internal pains, rheumatism, &c. &c.; and the pain occasioned by the sting of insects is immediately relieved by its application; and as a ready and effective resource for all cutaneous diseases of the skin, it merits a place among the household treasures of every family. Sold in large bottles, price 25 cents, at the principle office, 139 Broadway; and by all the druggists in the United States.

**B. A. FAHNESTOCK'S VERMIFUGE.**  
A SURE REMEDY FOR WORMS.  
The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend and prescribe it in their practice.  
The retail price is 25 cents per vial, which brings it within the means of all.  
Brooklyn, L. I. January 16, 1847.  
I do certify that I gave one bottle of B. A. Fahnestock's Vermifuge to my child, and in seven hours it passed 23 large worms. Any person doubting this may apply for further information at my residence corner of York and Jackson streets. **JAMES McCAFFREY,** Poughkeepsie, N. Y. March 2, 1844.  
I certify, that I took two vials of B. A. Fahnestock's Vermifuge, which I found to be the greatest cure for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Fahnestock's Vermifuge. I therefore recommend it. **MARTHA CLIFT.**  
The public is cautioned against counterfeit and spurious articles, and to put no confidence in statements that "Kohlmstock's" and "S. Fahnestock's" Vermifuge are the same or as good as the only genuine article, which is B. A. FAHNESTOCK'S VERMIFUGE.
