The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend and prescribe it in their practice.

The retail price is 25 cents per vial, which brings it within the means of all.

CAUTION EXTRA

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on rail roads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness, his family coat of arms, and his signature across the coat of arms.

Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has long seen known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARIL-L.A." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known ts value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalcuable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this

GRAND AND UNEQUALLED PREPARATION

s manufactured on the largest scale, and is called for through out the length and breadth of the land, especially as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scien-

tific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brough, nto requisition in the manufacture of the Old Dr's Sarsapar.lla. The Sarsaparilia root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process known only to those experienced in its manufacture. Moreover, these voletile principles, which fly off in vapor, or as an exhala-tion under heat, are the very essential medical properties of the

Any person can boil or stew the root till they get a dark colored from any thing else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SAR SAPARILLA EXTRACT or SYRUP." But such is not the GENUINE OLD DR. JACOB TOWNSEND'S

SARSAPARILLA. This is so prepared, that all the inert properties of the Sar saparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valu able and healing properties. Prepared in this way, it is made the most powerful agent in the Cure of innumerable diseases.

In its favor by men, women, and children. We find it doing CONSUMPTION, DYSPEPSIA, and LIVER COM-PLAINT, and in RHEUMATISM, SCROFULA, PILES, COSTIVENESS, all CUTANEOUS ERUPTIONS, PIM-IMPURITY OF THE BLOOD.

Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Colds and Coughs; and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs, throat, and every other part. But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS. It works wonders in cases of Fluor Albus or Whites. Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregular ity of the menstrual periods, and the like; and is as effectual curing all the forms of Kidney Diseases. By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus

Nervous diseases and debility, and thus prevents or relieves a great variety of other maladies, as Spinal irritation, Neuralgia, St. Vitus' Dance, Swooning, Epileptic Fits, Convulsions, &c. It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equally all over the body, and the insensible perspiration; relaxes all strictures and tightness, removes all obstructions, and

invigorates the entire nervous system. Is not this then The medicine you pre-eminently need? But can any of these things be said of S. P. Townsend's infe-

What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Ery sipelas, White Swellings, Fever Sores, and all ulcerations in ternal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict
