

JEFFERSONIAN REPUBLICAN

Thursday, September 13, 1849.

FOR CANAL COMMISSIONER, HENRY M. FULLER. OF LUZERNE COUNTY.

Fruits of Whig Legislation.

The Lancaster Tribune in the course of an article upon the result of the late election, in which we elected a Whig Governor, says that as a consequence, the public works have been kept in excellent repair, more than a million of dollars have been expended in paying debts contracted by the Locofocos years ago on the public works, the credit of the State has been entirely redeemed by the payment of the interest of the public debt in specie; upwards of two hundred thousand dollars of the debt has been paid by the sinking fund, and there is a balance now in the Treasury of \$164,-000! Pennsylvanians, do not these simple facts speak volumes! Tax payers, can you any longer doubt as to your duty to yourselves and to the Commonwealth? Do not these things urge us to maintain the proud position we have assumed ?

Thirteen Handred Thousand Dollars.

It is important for the tax-payers to know that the appropriation demanded by the Loco-foco Canal Commissioners for the public works the present year exceeds ONE MILLION THREE HUNDRED THOUSAND DOLLARS!!! For the truth of this we refer to the act of appropriation published in the pamphlet laws.

Here is sufficient evidence of the extravagance, PRODIDALITY and FRAUDS admitted by the locofocos to be perpetrated on the public works, by which hundreds of thousands of dollars are annually taken from the pockets of the toiling tax-payers, to pamper party favorites and dishonest dem-

Rebellion.

The Tioga Banner, one of the organs of the Free Soil party in the North, refuses to support John A. Gamble for Canal Commissioner, and in reply to the Potter Pioneer, which inquires the reason, says it does not yet know that Mr. Gamble is a "Democrat." The Bradford Reporter is also giving Mr. Gamble the cold shoulder; and in fact nearly all opposed to the Buchanan and Cameron combination, though coming gradually into the traces, do it with a very bad grace.

The Vermont Election.

The returns, says the Tribune, of the election in this state, show that the State has met all the anticipations which have been formed concerning her. There is every reason to suppose that a Whig Governor has been chosen by the people. Prof. Meacham is returned to Congress by an overwhelming majority, and the Whig strength in the Legislature is increased. It is a regular Green Mountain triumph. All hail, Vermont!

-We rejoice the more at this victory because it is a decided expression of the people of the State on the great question of Free Soil, and against a coalition which sought to use the Free Soil sentiment of the State for its own purposes. Their shuffling intrigues could not pass with the intelligence and straight-forwardness of the Vermont electors. They were not to be humbugged out of the certainty that the Whig Party ever has been and still is the great barrier to the Extension of Slavery. They have cast their votes accordingly. It is for others to follow their example if they would secure the great object at stake, Free Institutions for Soil now Free.

Mr. Clay has gone home. He left New York on Tuesday and passed up the North River. He stopped on his way, at Kinderhook, to see his old gus. personal friend Martin Van Buren.

" HIGH FLOWN." ... It is said that a young man who knows dictionary by heart, made use of a beautiful expression while "acting nice" in walking with some ladies, not a great ways from here. Says he, "There's an exhuberance of lightning Barnum, of the New-York Museum, at an enorbugs this evening, Miss."

The Senatorial Conferees of Schuylkill, Carbon. Monroe and Pike counties, will meet at the public house of George Esser, in the Borough of Treasury Robbed.

We learn from Bedford that the Treasury of that county has again been robbed of about \$240.-The safe was taken out of the office and carried and deposited in Bank.

The Way to do it.

Our able and talanted candidate for Canal Commissioner, Henry M. Fuller, Esq., has entered upon the campaign in good earnest, and is visiting 6th various sections of the State, addressing the people. He is to be in Marion county on the 18th inst., and will continue his labors until he has filled appointments in some twenty counties.

"Poor Simon Drum"-- Again.

The Prothonotary of Westmoreland county havng died, it becomes necessary to elect a successor. In that county, a nomination by the "democratic" party is an election. The "party" held their convention last week to nominate. "Poor Simon Drum" was a candidate, and of course was -not nominated. Though he found friends at first, they all deserted him but one. On the fourth ballot the vote stood : For Graham 26, Fullword 22, Drum I. Alas! for "Poor Simon Drum"---and alas! for Locofoco sympathy!!

The Boston Traveller of Saturday states, on the authority of a private letter, that the French Government will not receive Mr. Rives, our new ambassador to Paris.

The Traveller suppose the reason will be drawn from certain despatches sent home by Mr. Rives during his former envoyship in France, and published by our Government. They related to the difficulties concerning the French. Indemnity, and going back to France helped to heighten the irritation which existed there on the subject.

It will seem curious to those who are not aware of the fact, that the first towns built by Europeans upon the American continent, were St. Augustine, in East Florida, and Santa Fe, the capital of N. The law in Connecticut against selling spirituous liquors imposes a fine of \$10 for the first offence, \$20 for the second, and so double for every offence of which a man shall be convicted. NEW YORK, Sept. 5. About three o'clock this morning, the splendid packet ship Henry Clay, lying in the dock at Rurnearly half a mile outside the borough, where it ling Slip, took fire, and in a short time was burned was broken open. Some \$2,000 had been taken to the water's edge. She had about half of her out of the safe the day previous by the Treasurer cargo on board. The Henry Clay was one of the finest packet ships belonging to this port. It will be remembered that a year or two ago she was driven ashore on the Jersey coast, and was got off after much damage at great expense. She was to have sailed for Liverpool to-morrow, Sept.

> The Henry Clay was insured for \$60,000 to \$70.000. Her cargo, which was partially insured, consisted principally of flour and cotton, and was valued at \$25,000.

The Peace Congress.

The Niagara brings us the organization of the Peace Congress which assembled in Paris, on Wednesday, the 22d August. It met in the great Hall of Cecile, in Chaussee de Autin. About 1,-500 persons were present; M. Victor Hugo in the Chair. The fiags of all nations adorned the Hall, The Stars and Stripes of the United States occupied a conspicuous position, floating side by side with the try-color of France and the English Union Jack. Mr. Cobden and his party were received speaking evidences to the tax-payers of Pennsylwith applause, and the American gentlemen were vania, of the magnitude of the office of Canal Comsaluted with enthusiastic cheers. The names of missioner, and the extent to which it should be parties who gave in their adhesion to principles appreciated in the approaching canvass. of the Congress were read, and then M. Victor Hugo made his speech amidst intense applause. It is described as an exquisite composition, and replete with the most benevolent sentiments. It is understood that the French Government have both qualified to discharge the high and diversiexpressly forbidden the speakers from making any allusion to passing politics.

Knowles, that the letter deposited contained money. A day or two after he received notice of a protest from the Bank. He at once went to Trenton, and ascertained that his letter had not been received; and upon returning to New Hope he informed the Postmaster, who stated that he had mailed the letter and deposited it in a drawer with others, to be placed in the mail rity and devotion to duty, which would accompabag when it arrived from Easton. Suspicion rested afterward upon the clerk, Knowles, and he was arrested. The whole of the money, Locofocoism and "Whiggery" are both without except \$2 50 was found upon him, and he con-

The Campaign.

The following address, emanating from the Whig Young Men's Association of Philadelphia, we commend to the consideration of the Whig Young Men of our county. We are glad to see the work taken hold of in earnest.

To the Democratic Whig Young Men of the Commonwealth.

The office of Canal Commissioner is one, the importance of which cannot be too highly appreciated by the people of this Commonwealth .-Charged, as the Board of Canal Commissioners are, by law, with the general superintendence and management of the entire State works--with the appointment of subordinates, upon whose honesty, skill and attention, the credit and much of the profit of vast lines of improvements must in a arge measure depend-with the formation of contracts involving heavy expenditures of public monies-with the collection, either directly or through agents of their own appointment, of a large proportion of the revenue of the State-with expensive purchases on account of the State, and the disbursement of large sums of money-with power to bind the State and its resources, to a considable extent-with the power and patronage of our great and growing improvements-it becomes apparent that weighty trusts are committed to their administration, a due and honest performance of which are vital to the public weal. A bare glance at the trusts and duties which

devolve upon those officers, is all-convincing of the truth which we assert. But if further evidences are desired, they are multiplied in the history of our State finances for past years, no less than in the personal experience of every tax payer .-The waste of enormous sums from the public Treasury, upon plans injudiciously and ignorantly formed—the squandering of other vast sums among potitical favorites, and in furtherance of corrupt political schemes-the amount of losses from defaulters, rendered entire by the inadequacy or worthlessness of their bonds and sureties—the unwarranted and expensive manner in which contracts have been farmed out -and the utter disregard of the public interests which has characterized the administration of the power and patronage of the Board, in the hands of our political opponents, to the impoverishment of the Treasury the increase by millions of the State debt, and a commensurate increase of taxes, are living and

It is not asserting too much to say, that the success and profit of our public works-the pride of every true-hearted Pennsylvanian-depend main- Barnes, both of Tobyhanna township, Monroe ly upon the election of Commissioners who are fied duties of their office, and will devote themselves to their work with honest fidelity and economy. Upon the success of these vast undertakings depends, in a great measure, the prosperity of the State; and that, which appeals strongly to the pride no less than to the interest of all, the final extinguishment of the State debt. Let the fact not be concealed, therefore, that the approaching

real and wide spread interest to the people. We congratulate the friends of the National and State administrations throughout the extent of the Commonwealth, upon the nomination of Henry M. Fuller, of Luzerne county, as our candidate for Canal Comissioner. Young, ardent and energetic, eminently galified from a knowledge of the details of that office, and a practical acquaintance with the resources and interests of the State, to discharge its duties with credit and ability, we hail his nomination as a harbinger of glorious success. In his election, and the intelligence, integny him into office, the true friends of the Commonwealth would find proud and ample satisfaction. He is just the man for the station, with abundant assurances to be drawn from his past devotion to the public interests, that he is worthy of it.

We could not ask a more convincing proof of his fitness for the office, than the singular unanimity with which the convention united upon him in the nomination. Great, unquestionable indeed must be the private and public excellence of that man who can concentre upon himself, with such prompt and entire barmony, the suffrages of an stances will permit of the mortality of the city assembly convened from every section of a great Commonwealth, and liable to be divided by local and personal partialities.

This, of itself, is an eloquent testimonial to his worth of heart and understanding, who, like Mr. Fuller, receives at once, unanimously and by acclamation, the nomination of his fellow-citizens to one of the most responsible offices in the gift of the State. And this, too, is an earnest-an "If the population of Cincinnati did not ex- inspiring earnest-of the personal popularity of our candidate, and of the strong, cordial support which awaits him before the people. Not a support from those alone who are his political friends, but from all honest and good men, who can sometimes, as occasion may require, raise themselves above the biases of party, and choose from opposing candidates the man best qualified by his virtues and abilities to serve the State wisely and well. With the importance of the office in view, and with such a candidate to fill it, let there be no laggardness on the part of the gallant yeomanry of Pennsylvania, in the completion of the work ciation." All persons are forbid harboring thus satisfactorily begun. The noble regeneration of last year, must be no less nobly sustained now -nay, its career must be progressive, until every department of our government shall have experienced its invigorating power, and borne the fruits To the young men of the party-to those whose

ing to the last degree. Hungary has fallen and Despottem is triumphant! The Tele. graphic despatch says:

The Hungarians have been defeated at all points, and the cause which they so courage. ously upheld against fearful odds has fallen past redemption. The precise details of the circumstances which led to this unfortunate and unexpected result cannot be ascertained from any accounts within our reach. But of the main facts, that the Hungarians have been forced to lay down their arms and submit un. conditionally to the Russian forces, there is no reason whatever to doubt.

The Hungerian Diet, after the defeat of Bem at Hermanstadt, and other reverses, surrendered its powers to Gorgey, and dissolved _ Gorgey then surrendered himself and his large army, almost unconditionally, to Prince Paskiewitch, and the war party headed by Kos. suth, Bem, and the leading members of the Hungarian Parliament, had nothing left but to hasten to Orsova. It is stated that they have already entered upon Turkish Territory.

It is also stated M. Kossuth carried with him the insignia of the Hungarian Empire, including the State Jewels. It is asserted by some of the ardent friends of Hungary that Gorgey has proved himself

traitor, and has yielded himself to the "golden arguments" of the Russians. It was rumored that the Emperor of Rus sia had set a price of 6,000 roubles on Kos.
