#### distante CAUTION EXTRISES VID ad

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on rail ronds, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms.

Gennine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has long seen known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARIL L.A." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known ts value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalcuable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, GRAND AND UNEQUALIED PREPARATION s manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found

incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brough. Into requisition in the manufacture of the Old Dr's Sarsapardla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in prewhich are inert or useless, and others, which it retained in pre-paring it for use, produce fermination and acid, which is in-initions to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it t . its value.

Any person can boil or stew the root till they get a dark colored figuid, which is more from the coloring matter in the root than from any thing else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SAR SAPARILLA EXTRACT or SYRUP." But such is not the GENUINE OLD DR. JACOB TOWNSEND'S

SARSAPARILLA. This is so prepared, that all the inert properties of the Sar saparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the

Cure of innumerable diseases. In its favor by men, women, and children. We find it doing CONSUMPTION, DYSPEPSIA, and LIVER COM-PLAINT, and in RHEUMATISM. SCROFULA. PILES. COSTIVENESS, all CUTANEOUS ERUPTICNS, PLM PLES, BLOCTHES, and all affections wrising from IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Colds and Conghs; and promotes easy ex-pectoration and gentle perspiration, relaxing stricture of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of FEMALE COMPLAINTS. It works wonders in cases of Fluor Albus or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the meastrual periods, and the like; and is as effectual in curing all the forms of Kidney Diseases.

By removing obstructions, and regulating the general sys-

tem, it gives tone and strength to the whole body, and thus Nervous diseases and debility. and thus prevents or relieves a great variety of other maladies, as Spinal irritation, Neuralgia, St. Vitus' Dance, Swooning, Epileptic Fits. Convulsions, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalises the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration; relaxes all strictures and tightness, removes all obstructions, and instructions the said strictures and tightness.

invigorates the entire nervous system. Is not this then The medicine you pre-eminently need? But can any of these things be said of S. P. Townsend's infer rior article? This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and

NEVER SPOILS, while the other DOES; souring, fermenting, and blowing the bottles containing it into fragments; the sour, acid liquid explo ding, and damaging other goods! Must not this horrible compound he poisonous to the system !- What! put acid into system already diseased with acid! What causes Dyspensia but acid? Do we not all know that when food sours in our stom achs, what mischiefs it produces ? flatuence, heartburn, palpi tation of the heart, liver complaint, diarrhoa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum. Ery sipelas, White Swellings, Fever Sores, and all ulcerations in ternal and external? It is nothing under beaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood of deranged circulations, and nearly all the ailments which afflict human nature.

is it not norrible to make and sell, and infinitely worse SOURING, FERMENTING. ACID "COMPOUND" OF S. P. TOWNSEND,

would fain have it understood that Old Br. Jacob Townsend's Graume Original Sursuparilla, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article and which should bring down upon the Old Dr. such a mountain

load of complishers and criminations from Agents who have sold and purchasers who have used S. P. Townsend's FERMENTING We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarasaparilla are heaven-wide apart, and infinitely dissimilar; that

they are unlike in every particular, having not one single thing As S. P. Townsend is no doctor, and never was, is no case than any other common, inscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent neal. How much more important is it that the persons who man afacture medicine, designed for

weak stomaches and envertees of plants, the heat mainer of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system; and how to adapt remedies to these diseases. It is to arrest fands upon the unfortunate, to pour estim into wounded humanity, to kindle hope in the despairing bosom, to restee health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR, JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Beauty and Health.

Cosmetics, Chalk, and a variety of preparations general in use, when applied to the face, very soon spoil it of a beauty. They close the pores of the skin, and check the entra lation, which, when nature is not thwarted by disease a powder, or the skin inflamed by the alkalies used in second beautifies its own production in the "human face Divina" as well as in the garden of rich and delicately tinted rare gated flowers. A free, active and healthy circulation of its fluids, or the coursing of the pure rich blood, to the extra ties, is that which paints the countenance in the most essite beauty. It is that which imparts the indescribable she and flashes of loveliness that all admire, but none can and flashes of loveliness that all admire, but note can be scribe. This beauty is the offspring of nature—not of period or soap. If there is not a free and healthy circulation there is no beauty. If the indy is fair as driven snow if she pants and use cosmetica, and the blood is thick, cold and impair she is not beautiful. If she be brown or yellow, and there is pure anit active blood, it gives a rich bloom to the chest and a brilliancy to their eyes that is fascinating.

This is why the southern, and especially the Spanish ladies are so much admired. Ladies in the north, who take he little exercise, or are confined in close rooms, or have specific little exercise, or are confined in close rooms, or have spot their complexion by the application of deleterious mixture if they wish to regain elasticity of step, buoyant spirits, spiling eyes and beautiful complexion, they should use Townsend's Sarsaparilla. Thousands who have tried it more than satisfied, are delighted. Ladies of every find

more than satisfied, are delighted. Ladies of every more crowd our office daily.
