which office, it is believed, he will accept.

The news relative to the surrender of Comorn is fully confirmed, after the patriots who held possession of the fortress succeeded in making very favorable terms with Austria.

at Kagenfahl, has been contradicted.

The Idea of Equinoctial Storms. The New Orleans Bulletin denounces it and savs-

equinoctial gales, except that the sun then It is neither more nor less than that the sun on | Central Europe. those days is vertical at noon, on the Equator, attempted to account for them from long con- throughout that business. tinued or unusual heat within the tropics, that no more to do with these storms, than the plan-

Mrs. Swisshelm on Marriage.

Marriage, in our opinion, is a union which would every hour be renewed, by the free will of both parties, provided the State every hour annulled it! Whenever two are really weary of each other, they are no longer married, and nobody can marry them- no combination of men can marry them. It is a base prostitution of the name and object of marriage, to bind two to live together contrary to the will of each -Nor can we see how society can possibly be benefitted by an arrangement, which compels the semblance of marriage, where the reality does not exist.

Many are of opinion, that if it were not for the stringency of the civil law, nearly all families would be broken up, and society go into choas. We have no such notion. If a proclamation were made to-day, declaring every swer before our own tribunals, and if an Amermarriage in the Union null and-void, and leav- ican jury find him guilty of the outrage alleged ing it once more to the choice of the parties whether the relation be renewed, business would be suspended, newspapers would stop, stores, factories and workshops would close. The editors would be all at home getting marwould each be awaiting their turn to have the nuptial knot re-tied. Cross, fretful, sickly wives, that had almost felt a burden before, would grow very dear once more, from the thought of separation. Domineering harh husbands would be forgiven, and in all cases where a spark of conjugal love remained, it would be blown to a flame-where nothing but dead embers are, the ashes would be raken up, made into soap, and society cleansed thereby.

Tall Trees.

Oregon is the greatest lumber country in the world. Around one mill, within a circle of three miles, stands timber enough to last a hundred years, the mill all the time cutting 6000 the Presidency, he earnestly recommended feet a day. The trees are from 6 to 10 feet in | Congress to establish a Board of Agriculture, diameter, and some of them 300 feet high .-They are felled into a lake, floated to the mill peaceful but leading and important interest .-three miles, sawed by water power, and turned They have been since repeatedly urged to lend out at the other side of the mill, whence a ves- the strong arm of government to the elevation sel takes them to California. Wheat, in Oregon, averages 65 lbs. a bushel, and Oregon What have they done? Nothing. Millions Flour brings \$6 more a barrel at the gold mines and millions have been expended to learn the his family, as regards both the quality and than any other. The number of votes cast in young men how to fight; not the "first red Oregon, in June, was 943.

We copy the following from a letter from the Great Salt Lake, published in the Petersville (Ind.) Eagle. The writer says there is a settlement near the Mormon city of runaway negroes, carrying on farming. We imagine it would be difficult for their owners to show a legal title to that sort of property in that country.

This city is situated in a beautiful valley, 18 miles in width. The houses are principally built of sun dried bricks, are small, most of them having only one room. The town is laid out in squares of ten acres. These squares are laid off in one acre and a quarter lots, making 8 lots in one square. These lots cost the surveying and recording, which is \$1 25. The streets are very wide .-- the city is about three miles square. I have been over the valley for 12 or 15 miles --- a more delightful place I never saw, and a more productive soil I suppose cannot be found for wheat. They have a large field belonging to the town of two thousand acres, which is all in one field --- in consequence of the scarcity of timber, each man putting up so many rods entitles him to so many acres in the field. They water their grain by means of springs, which gush out of the mountain side almost without number, the heads of the springs being so high they can conduct them to any part of the valley.

I saw in my walks, wheat that the settlers say will yield 50 bushels to the acre. I beheve if any wheat will do it this will. It is about the height of a man's head, and as thick as it can stand. In this field there is 5,000 acres of wheat, and 1,000 acres of corn; the balance is not cultivated. I saw places where a man could eradle 4 miles through wheat as high as his head without turning to the right or left. They have more wheat than they will cut, for the farmers cannot cut it; there is a lot of men about the camps who would rather skin and traffic round than work for five dollars per day. They are now in the midst of harvest. I was offered five dollars (in gold dust) per day to cradle, which goes current here. There is a settlement 50 miles from this city, of men owning negroes carrying on farming largely. There are warm springs here, which the inhabitants say are very healthy to bathe in. For a person not used to it, it is most too warm. On the 24th of the month they have a great celebration, it being the day of the month on which the men arrived who cut out the road. The population of this Val-

ley is 6,000

Our Foreign Relations.

The editor of the Washington Union says he does not believe that our foreign affairs have ever been so miserably mismanaged as since the present administration came into The statement that Georgey had been shot power. The Washington Republic makes this just and scathing reply :

The Union may well complain of the manner in which Mr. Clayton has handled its ' foreign relations.' During the last administration they had a good time of it, comparatively speak-Did you ever hear any reason given for Sep- ing. The king of Prussia had the use of the tember and March gales, or as they are called U.S. navy yards, in fitting out war steamers to keep the rebellious Germans in subjection. "crosses the line." And what is this "cross- Mr. Clayton put a stop to that business, and of ing the line?" Nothing at all! It is all nom- course was denounced by all the supporters of inal, there is no such thing as crossing the line. the monster spirit of reactionary movement in

Again, Mr. Buchanan did not deign to notice as it is vertical a few days previously, a short M. Poussin's first communication upon the distance to the Northward of it; and vertical a matter of M. Porte's tobacco speculation, and few days afterwards, a short distance South- so the Union's French 'relations' did not get ward of it. It is also vertical in latitude 23 into a snarl with Mr. Buchanan. Mr. Clayton, deg. north on the 21st June, and 23 deg. south however, treated Mr. Poussin's dispatch with on the 21st December, and there is just as more consideration and courtesy; and for so much reason why there should be gales at or doing, was thanked pretty much as the captain near these two latter days, as on the 21st March, of the French ship Eugenie acknowledged or the 21st September. It is true, there are Commander Carpender's generosity in getting sometimes severe gales in September, but more his vessel off the reef of Riso. The Union's frequently in August, and scientific men have 'French relation' behaved very miserably'

Again: The Union's 'British relations,' has rarified the air, and produced a hidden rush caught up a naked Indian and made him king from the other quarters, in order to restore the of the Mosquito, and through him laid claim to equilibrium, and thus pruduce gales and hurri- a valuable coast upon the Gulf of Mexico. All canes; but the position of the sun, or rather this was done whilst Mr. Polk was President, the position of the earth towards the sun, has Mr. Buchanan Secretary of State, and the Union was organ. They permitted the British Govet Venus, or LeVerrier's new planet, Nepiune. ernment to consumate its usurpation without complaint or remonstrance. We learn from some ominous grumblings in the Union, that its British relations have not enjoyed the same impunity 'since Mr. Clayton undertook to discharge the duties of Secretary of State.'

It was generally believed that a man by the name of Rey was kidnapped at N. Orleans and taken to Havana, at the instance of the Governor General of Cuba, and through the instrumentality of the Spanish Consul at New Orleans. The Government demanded, in a manner which made trifling dangerous, Rey's release; and his prison doors were opened and himself brought back to the United States .-The Spanish Government has not avowed the act charged against its officers, nor has the Governor General acknowledged his participation in the wrong. But whether they do or not, the Spanish consul has been held to anagainst him, one of the Union's 'foreign relations' will be apt to do the State some service in a very secure place.

Indeed, the Union's foreign affairs do not flourish under Mr. Clayton's management of ried. Merchants, operators and mechanics the office of Secretary of State; but the foreign affairs of the United States do, and this we think of more importance to the people than the success of anybody's 'foreign relations.'

Something to think of.

At West Point, our government long ago established a military school. Young men are selected from different States every year, sent there and educated at public expense. Every cadet that graduates there, costs the United States' from four to five thousand dollars.

More than four millions of dollars have been bestowed by the United States upon that insti-

tution; and all for what? or to take some other measures to foster that and encouragement of that neglected calling. cent" to teach them the noble, bread-giving, world-sustaining service and art of agriculture! Maine Farmer.

Remarkable Fact.

The Cincinnati Gazette, in an article conrasting the conduct of a Democratic administration with that of the Whigs, states the remarkable fact, that during the nine years beween 1836 and 1845, when the Democrats governed Ohio, the State debt was increased from \$956,664 to the enormous sum of \$20, 108,515 !-- and that the credit was at a very low ebb. From March, 1845, to January, 1849, four years, the Whigs governed the State .--During this time the State Debt has been decreased \$1,699.662! and the credit of the State completely restored. Comment is unne-

GREAT CORN -- The Milford (Del) Beacon notices a stalk of corn that had sixteen good sound ears on it which was raised in that neighborhood this year

Philadelphia Market.

November 1, 1849. The cold weather to-day has imparted more firmness to the flour market. The demand for shipment, however, continues limited, and only 4 a 500 bbls. have been taken at \$5 a 5 121, the latter price however, for choice brand. For city use, moderate sales at \$5,6 a 5,18 3-4 for common and good brands and extra at \$5,31 1.4 a 5 62 per

Rye Flour, is in limited request, and only 1 a 200 barrels sold at \$3 per barrel.

There is little or no inquiry for Corn Meal, and

no sales have transpired. We quote at \$3 Grain. The receipts of Wheat, were to a fair extent to-day, but the demand was quite moderate. Sales of 7 a 8000 bushels good Red at 106 and White at 112 a 114 per bushel, part for shipment. Rye comes in slowly, Pennsylvania is worth

62 cents per bushel. Corn is in good demand at 65 cts for yellow, at which 5 a 6,000 bushels were sold.

Oats are duil. We quote Southern at 28 a 30c. and Pennsylvania at 35c per bushel. There is no change in Cotton. Holders are firm, in consequence of the continued unfavorable

accounts from the South, but buyers purchase Whiskey is scarce and held rather higher. Sales

CIRCULAR.

Gamble's majority 11,729.

To Clergymen, Post Masters, Teachers of Sabbath Schools, Book Agents, Students and Heads of Families, Sear's Pictorial Family Annual, an illustrated work, comprising a fine series of embellishments, with interesting descriptions, in one handsome large octavo of about 400 pages, elegantly bound in gilt, and lettered in the most finished style of modern book making. Price only Two Dollars.

This splendid volume comprises within itself a complete Library of Useful and Entertaining Knowledge, condensed in form, fami-Well, what then? Before Washington left liar in style, and copious in information, embracing an extensive range of subjects. The engravings (over 200 in number,) are strictly illustrative, being representations of actual Scenery. Custumes, Manners, Monuments, &c.

On examination the above work will be pronounced by every intelligent person, under whose observation it may come, as one of the most suitable presents for a father to present to number of its embellishments and the pure character of its contents. In preparing every article for its pages, the greatest caution has been used, to admit nothing but of an improving and instructive character.

To man of enterprise and tact, this work alone offers an opportunity for profitable employment seldom to be met with. There is not town in the Union where a right, honest and well-disposed person can fail selling from 50 to 200 volumes according to the population.

All persons wishing sample copies to examine or procure subscribers with, can receive one or more, substantially bound in paper covers*-the postage not exceeding 30 cents on each volume so forwarded-on the receipt of One Dollar. In this way no matter where a person resides, if only within the reach of a Post office, he can obtain a copy of the Family

Persons in the country wishing to act as agents may obtain all the requisite information, by addressing the subscriber. To secure attention to any communications, they must be post-paid. In writing, let each person mention his post office, County, and State.

DR. TOWNSEND'S SARSAPARILLA

Wonder and Blessing of the Age. The most extraordinary medicine in the world! This Extract is put up in Quart Bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures disease without vomiting, purging, sickening, or de

bilitating the Patient. The great beauty and superiority of this Sarsaparilla over all other Medicines is, while it eradicates disease, it invigo

rates the body. It is one of the very best SPRING AND SUMMER MEDICINES ever known; it not only purifies the whole system and strengthens the person, but it creates, new, pure and rich blood, a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has per-formed within the last two years, more than one hundred thousand cures of severe cases of disease; at least, 50,000 were considered incurable. It has saved the lives of more

than 15,000 children the three past seasons 100,000 cases of General Debility and want of Nervous Energy. Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy, by the effects of medicine, or indiscretion committed in youth or the excessive indulgence of the passions, and brought on by physical prostration of the ner tous system, lassitude, want of ambition, fainting sensations, premature decay and decline,

hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparille INVIGORATING CORDIAL.

limbs, and strength to the muscular system in a most extraordinary degree. Consumption Cured. Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds. Catarrh. Coughs Asthma, Spitting of Blood. Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be

Spitting Blood. Da. Townsend-I verily believe your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in m am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thank-

ful for these results. Your obedient servant.

Rheumatism.

Blackwell's Island, Sept. 14, 1847.

WM. RUSSEL, 65 Catherine-st.

Dr. Townsend-Dear Sir : I have suffered terribly for nine years with the Rheumatism ; considerable of the time I could not eat, sleep or walk. I had the utmost distressing pains, and my limbs were terribly swollen. I have used four bottles your Sarsaparilla, and they have done me more than one thousand dollars worth of good, I am so much betterindeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours, respectfully, JAMES CUMMINGS Fits! Fits!! Fits!!! Dr. Townsend, not having tested his Sarsaparilla in cases of Fits, of course, never recommended it, and was surprised to receive the following from an intelligent and respectable

Farmer in Westchester County; Fordham, August 13, 1847. Dr. Townsend-Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits; we tried almost everything for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming sugged and healthy for which we feel grateful. Yours, respectfully,

Female Medicines. Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb. Costiveness, Piles, Leucorrheen, or Whites, obstructed or difficult Menstruction, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system-no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed. but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable Medicine, have been blessed with fine, healthy offspring.

Great Blessing to Mothers and Children. system, and relieving the sufferings attendant upon childbirth ever discovered. It strengthens both the mother and the child, prevents pain and disease, increases and enriches those who have used it, think it is indispensa; ble. It is highly useful both before and after confinement. as it prevents diseases attendant upon child-birth-in Costiveness, Piles, Cramps Swelling of the Feet, Despondency, Mourthurn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation, it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medi-cine, in some a little Castor Oil, or Magnesia is useful. Ex-ercise in the open air, and light food with this medicine, will always secure a safe and easy confinement. Beauty and Health.

Cosmetics. Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face Divine," as well as in the garden of rich and delicately tinted variegated flowers. A free, active and healthy circulation of the fluids, or the coursing of the pure, rich blood, to the extremities, is that which paints the countenance in the most exqui site beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature-not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paints, and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks,

and a brilliancy to their eyes that is fascinating.

This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north, who take but little exercise, or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexion, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

The Ber. John Seger Of Jersey City, an old and highly respectable ciergyman of the Baptist denomination, handed in the following certificate at Dr. Townsend's office. It speaks for itself. Dr. Townsend-Dear Sir: I am constrained to give you a statement of the benefit I derived from using your Sarsuparilla, believing, by so doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many months by the Dyspepsia, so much that it was with much dif ficulty for me to walk or keep about. I had also a tetter, which covered the most part of my head—which was extremely troublesome and sore; it got to be almost a scab. I used quite a number of remedies for both the complaints, but received little or no benefit, until I took your Sarsaparilla. which, through the kindness of Providence, has restored me to more than my usual health, as I am now enjoying better than I have for a number of years. I am now 60 years of age. I believe it to be an invaluable medicine, and recoumend it to my numerous acquaintances, which is very large, as I have been a minister a great many years. I hope this hasty sketch may be as much benefit to you as your medicine JOHN SEGER, Jersey City. has to me. July 11, 1947.

OPINIONS OF PHYSICIANS. Dr. Townsend is almost daily receiving orders from Physicions in different parts of the Union. This is to Certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most

valuable preparations in the market. H. P. PULING, M. D. J. WH.SON, M. D. R. B. BRIGGS, M. D. Albany, April 1 1847.
