More Discoveries of Gold.

More discoveries have been made which almost induce the belief that the whole soil of California is completely seasoned and spiced with the yellow grains."

A large placer has been discovered on Trinity river. Diggers were leaving the American Fork in large budies for this river, where men are said to wash out \$100 a day.

discovered near the Mission of San Antonio, 60 miles south of Monterey. A letter to the Tribune from Monterey adds:

Gold is said to exist in small quantites near the Mission of Carmel, only four miles from this town, and, in fact, there is every geological indication of it That San Francisco itself for the said County of Monroe, to be holden at erry of William Adams, and to be sold by me. is built on a placer, I am well satisfied. To and \$5 in a few hours, from clay dug thirty feet sary. below the surface, in sinking a well. The story of Mr. Harrison, the Collector, having found gold in the adobes of the Custom House, is something more than a good joke.

But by far the most magnificent discovery is that recently made upon the ranche of Col Fremont, on the Mariposas River. It is nothing less than a vein of gold in the solid rock -a bona fide mine, the first which has been found in California. The gold is there, and in extraordinary abundance. I saw some specimens which were in Col. Fremont's possession. The stone is a reddish quartz, filled with rich veins of gold, and far surpassing the specimens brought from North Carolina and Georgia. Some stones picked up on the top of the quartz strata, without particular selecuon, yielded 2 oz. to every 25 lbs. Col. Fremont informed me that the vein had been traced for more than a mile. The thickness on the surface is two feet, gradually widening as it descends, and showing larger particles of gold.

The dip downward is only about 20°, so that the mine can be worked with little expense. These are the particulars first given me, when the discovery was announced. Still more astonishing facts have just come to light.

A geologist sent to examine the place, arrived here last night. He reports having traced to be held at Stroudsburg, in and for the afore- whose observation it may come, as one of the the vein a distance of two leagues, with an av- said county, on Monday, the 24th day of De- most suitable presents for a father to present to erage breadth of 150 feet. At one extremity cember next, at 10 o'clock, A. M. of the mine he found large quantities of native silver, which he calculates will fully pay the administrator of the estate of William Staples, acter of its contents. In preparing every artiit. The ranche upon which it is situated was ceased. purchased by Col. Fremont in 1846 from Alvarado, former governor of the territory. It was tor of the estate of Michael Butz, late of Chesthen considered nearly worthless, and Col. F. only took it at the moment of leaving the counsensation throughout the country; yet it is but the first of many such. The Sierra Nevada is which will produce gold for centuries after every spot on earth from base to summit shall have been turned over and washed out.

I Our readers will remember that, some months ago, Andrew Gallinghan was convicted, at the court held in Milford, of the murder of George Ksy, a carpenter who was employed in building the railroad viaduct at the mouth of viction, an application was made to the Gov- be sold at public vendue, on the premises, on ernor for a pardon or commutation for him, on the ground that the act of killing was performed under a sudden impulse of passon, and not with that premeditation which is requisite to constitute the crime of murder. The Governor has not decided upon the application, and has expressed a desire to have, before making a decision, a personal conference with the judge who presided at the trial. Some of the tax payers of Pike county have become weary of supporting the convict, and are calling upon the Executive, through the newspapers, to dispose of the case. It does not look well to see people eager to have a man hanged in order that they may save the expense of providing him with food. The Governor's position is one of the u most responsibility. It is a fearful thing to have the life of a fellow mortal in one's hands, and the Governor does well to deliberate solemnly as becomes the momentous issue .- Honesdale Democrat.

## Portrait of a Locofoco.

The Mobile Advertiser says: The following November 22, 1849. sketch by a contemporary, of a certain Locofoco in his neighborhood, will answer very well for others of the party elsewhere. He never er formed an opinion, nor expressed a sentiment until he found it in the Union, and would never dare to dissent from the administration and its organ on any point, however preposterous it might be. He would believe a whale a humming bird, the Queen of England a black cat, or Tom Benton an angel, if told so by the "organ" of his party.

Godey's Lady's Book for 1850 'THE BOOK OF THE NATION :"

THE OLDEST MAGAZINE IN AMERICA. Published by the present Proprietor for 20 years. Edited by Mrs. Sarah J. Hale.

The publisher of the Lady's Book, knowing how completely he put down all opposition in 1849, and being assured that the public is also acquainted with this fact, deems it only necessary to say that Seized and taken in execution as the prop- usual, give more reading and more engravings than his cotemporaries. Perhaps a little comparison of what he did last year, and what his adversaries did, may be amusing, if not instructive to those about Sheriff. to subscribe for a monthly magazine. One thing the public may be assured of that the publisher of Godey's Lady's Book will not falsify his prospectus, as he deems it as great a sin to tell a falsehood in print as to give it utterance to a verbal one. Listen to the universal voice of the American Press-Comparison between Godey and the other Philadel-

> phia Monthlies. In 1849, the Lady's Book gave 916 pages-which is 116 more than one, and 148 more than the other Philadelphia monthly. He gave 281 engravingsamong which were 20 colored, and 93 full pagewhich is 136 more than one, and 180 more than

We gave, in each number, a piece of music printed separately on tinted paper, making 24 pages, or 12 pieces in a year. To show the cheapness of the Lady's Book, this same music, if bought separately at the music stores, would cost exactly the price of the whole year's subscription-\$3

It will be seen, at a glance, which is the cheap est magazine for \$3, when you get 116 pages of an other; 136 engravings more than one, and 180 more than the other; to say nothing of the superiority of our engravings, among which are 20 colored, and their usefulness to ladies. The Colored Fashion Plates alone cost as much as nearly all the engravngs of either of the other magazines. These endeavors to please our subscribers have cost us an immense sum of money; but if honesty of purpose and a positive dislike to falsehoods in prospectuses nounced by every intelligent person, under will entitle a publisher to a large subscription list, the Lady's Book is entitled to it.

Some of our Peculiar Embellishments .- Ladies' Work Table, which comprises every kind of Needlework, Embroidery, Knitting, Netting, Crotchet, Patterns for Caps, Chemisettes, Children's clothes, Wedding dresses, In-door and Out-door Costumes, Birds of America; Colored Flower Plates; Model Cottages and Furniture; Fashionable do.; Lace Work; Vignette Plates at the head of articles, etc. All the above are illustrated by engravings.

And, in 1850, will also be given a set of engrarings, illustrative of The Costumes of all Nations. with descriptions by Mrs. Hale. Most of the old features of the Book that were so popular last year will be retained, and new ones added as they may suggest themselves to the publisher.

A NEW Nover, by W. Gilmore Simms, will be one of the features for 1850. Our Reading Matter .- We have long stood at

the head of the magazine world for our contributions; they are always moral and instructive, and such as may be placed before a family without hesitation. This department is under the control of Mrs. SARAH JOSEPHA HALE, whose name alone Post office, he can obtain a copy of the Family is a sufficient guarrantee for the propriety of the Lady's Book. We may say the same of our engravings. We will never, as it is done by a co-

such as no parent would allow a child to look at. We will not here parade the names of our contributors: it is not necessary. Godey's Lady's Book and its proprietor are too well known for us to take up space to enumerate the names of those who, by their writings, have placed themselves at our friends will oblige us by not doing-conferring upon us the title of "The Blackwood of America." We do not wish to bear the appellation of a magazine that is opposed to the interests of this country, and always loud in its denunciations of it; and besides, Blackwood does not publish Fashions .enter upon the year with a new one, which those speedy and complete curative. who know us-and who does not !-will believe.

Godey's Lady's Book for 1850 shall surpass that for 1849, and exceed all magazines past, present, and to come.
