## Mob Quelled by Prayer.

#### The Turn of Life.

A correspondent of the Pittsburg Gazette relates the following circumstances, as received from the late sheriff of that county, Mr. Forsyiht

Mr. Forsyth, was called upon to exercise his his judgment the soundness of almost infalliauthority for the suppression of a large disor- bility. His mind is resolute, firm and equal derly meeting, somewhere in the suburbs of the all his functions are in the highest order ; he city. #### Inflammable Gas--Curiosity.

There are numerous issues of inflammable gas on the farm of Mr. Michael Foulkner, in this county. About an acre of the bottom lands on the Chippewa give forth the gas, the soil being exceedingly porous, and filled with cracks, from which the gas escapes. Place a common tin horn over one of these cracks, apply a match to the top and a brilliant flame of yellowish appearance breaks forth, which will burn steadily for weeks. The proprietor made an excavation some twelve feet deep at one of the gas openings, and flung in burning hay. Quite an explosion followed, the hay was scattered in the air, and a blaze issued several feet high. It continued to burn until the ground caved in and smothered the flames.

The ground from which the gas escapes never freezes, and nothing will grow upon it, although the soil is rich. The location is 14 miles from Cleveland, and has attracted many visiters to see the earth burn. The existence of the gas has been known there for a dozen years or more, and the quantity escaping, which is large, seems to be increased rather than otherwise. Cannot Nature's gasometer be appropriated by man to some useful purpose ?- Cleveland Herald.

Godey's Lady's Book for 1850! "THE BOOK OF THE NATION ;" THE OLDEST MAGAZINE IN AMERICA. Published by the present Proprietor for 20 years.

Edited by Mrs. Sarah J. Hale. The publisher of the Lady's Book, knowing how completely he put down all opposition in 1849, and being assured that the public is also acquainted with this fact, deems it only necessary to say that in 1850 he will improve on 1849; and he will, as usual, give more reading and more engravings than his cotemporaries. Perhaps a little comparison of what he did last year, and what his adversaries did, may be amusing, if not instructive to those about to subscribe for a monthly magazine. One thing the public may be assured of, that the publisher of Godey's Lady's Book will Ret falsify his prospectus, as he deems it as great a sin to tell a falsehood in print as to give it utterance to a verbal one. Listen to the universal voice of the American Press-Comparison between Godey and the other Philadelphia Monthlies.

In 1849, the Lady's Book gave 916 pages-which is 116 more than one, and 148 more than the other Philadelphia monthly. He gave 281 engravings-among which were 20 colored, and 93 full pagewhich is 136 more than one, and 180 more than the other.

We gave, in each number, a piece of music, printed separately on tinted paper, making 24 pages, or 12 pieces in a year. To show the cheapness of the Lady's Book, this same music, if bought separately at the music stores, would cost exactly the price of the whole year's subscription-\$3

It will be seen, at a glance, which is the cheapest magazine for \$3, when you get 116 pages of reading more than one magazine, and 148 more than an other; 136 engravings more than one, and 180 more than the other; to say nothing of the superiority of our engravings, among which are 20 colored, and their usefulness to ladies. The Colored Fashion Plates alone cost as much as nearly all the engravings of either of the other magazines. Land .- 30 1-4 square yards make 1 square rod, 40 square rods make one square rood, 4 square roods make 1 acre. 640 acres make 1 square mile. 4840 square yards 160 rods make one acre.

practice is, to trace off 70 yards in length and 70 in witdth, this in rough way may be considered near enough for all practical purposes ; but a 70 yards either way make 4900 square yards, it exceeds an acre by 60 square yards. To determine an accurate acre, it should be measured 70 yards in length by 69 1-7 yards at 29a30 cents per bushel for good and prime in breadth. The same result may be arrived at by measuring 220 feet in length and 198 in width, measuring 73 1-3 yards in length by 66 yards in breadth .- A. Farmer.

#### Singular Business at St. Louis, Mo .--Turning Dogs into Gold.

For some weeks past, Lieut. Michau, of the Police Guard of St. Louis, has had his attention fixed upon a small frame house in Devil's Half Acre. During this time he has observed that every night a light would appear in the upper story, and continue to burn until morning. Thinking, probably, that something wrong was going on, he inquired of the neighbors, who informed him that two men lived there in a very mysterious manner. One of them was often seen to leave the house with a small box under the use of concentrated and combined properhis arm-the other never quitted the premises, and would suffer no one to enter. In hopes of pouncing upon a gang of counterfeiters, the officers yesterday, with several others, repaired to the house and searched the premises, but instead of finding the nest of a gang of counterfeitors, they had scared up the den of a dogsmelter, for such his occupation betokened him. In the room where the light was observed that first attracted the officer's attention, were sereral large boxes filled with the cooked and putrid carcasses of dogs, and the owner of the premises was engaged in boiling another over a slow fire. The stench that arose was so offensive that several who entered were forced to retire instantly. In the room were also glass jars filled with a liquid very offensive in smell, and the carcass of a dog, destitute of hair, partially immured in liquor. The proprietor of this strange manufactory informed the officer that he made gold of his dogs, and in proof of his statement, showed the mould in which he run it. Everything about the establishment bore a mysterious appearance, which induced the officer to take the German proprietor into custody. As soon as the nature of his business was known, a large crowd of neighbors collected, and it was with great difficulty that the officers could prevent them from burning down the house. This morning the German was brought before Recorder Hyde, but there being no evidence of any criminal intention on his part, he was discharged, and, ere this, is, no doubt, engaged at his business-that of dog smelting .--There is something very mysterious about this matter, which we would like very much to see Nebe, late of said county, dec'd., and make explained.
