strengthens the person, but it creates, new, pure and rich blood, a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years, more than one hundred thousand cures of severe cases of disease; at least, 50,000 were considered incurable. Dr. Townskno-l verily believe your Sarsaparilla has been the means, through Providence, of saving my life. I have for several; ears had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results. Your obedient servant. WM. RUSSEL, 65 Catherine-st.

Rheumatism. Blackwell's Island, Sept. 14 1847.

Dr. Townsend-Dear Sir : I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the utmost distressing pains, and my limbs were terribly swellen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good, I am so much betterindeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours, respectfully, JAMES CUMMINGS.

Fies! Fits!! Pita!!!

Dr. Townsend, not having tested his Sarsaparilla in cases of Fits, of course, never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County; Fordham, August 13, 1847.

Dr. Townsend-Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits; we tried almost everything for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surrise. She is fast becoming rugged and healthy, for which we feel grateful. Yours, respectfully,

Female Medicines.

Dr. Townsend's Sursaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Failing of the Womb Costiveness, Piles, Leucorrhoea, or Whites, obstructed or difficult Menstruction, Incominence of Urine, or involuntary discharge thereof, and for the general prostration of the system-no matter whether the result of inherent cause or causes, produced by irregularity, illness or socident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and la-situde, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable Medicine, have been blessed with fine, healthy offspring.

Great Blessing to Mothers and Children. eystem, and relieving the sufferings attendant upon childbirth ever discovered. It strengthens both the mother and the child, prevents pain and disease, increases and enriches the food; those who have used it, think it is indispensa ble. It is highly useful both before and after confinement, as it prevents discares attendant upon child-birth-in Cos-tiveness. Piles. Cramps Swelling of the Feet, Despendency, Vani ing Pain in the Back and Loins. False Pains. Hemorrhage, and in regulating the secretions and equalizing the circulation, it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medi-cine, in some a little Custor Oil, or Magnesia is useful. Exarcise in the open air, and light food with this medicine, will always secure a safe and easy confinement.

Beauty and Hentth.
Cosmetics. Chalk, and a variety of preparations generally In use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circu-lation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soups, beautifies its own production in the "human face Divine," as well as in the garden of rich and delicately tinted variegated flowers. A free, active and healthy circulation of the fluids, or the coursing of the pure rich blood, to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature-not of powder or soap. If there is not a free and healthy circulation there is no beauty. If the lady is fair as driven snow, if she paints, and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes that is fascinating.

This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north, who take but little exercise, or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexion, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

The Rev. John Seger

Of Jersey City, an old and highly respectable ciergyman of the Baptist denomination, handed in the following certificate at Dr. Townsend's office. It speaks for itself.

Dr. Townsend-Dear Sir: I am constrained to give you . statement of the benefit I derived from using your Sarsapa-rilla, believing, by so doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many months by the Dyspepsia, so much that it was with much difficulty for me to walk or keep about. I had also a tetter, which covered the most part of my head-which was extremely troublesome and sore ; it got to be almost a scab. I used quite a number of remedies for both the complaints, but received little or no benefit, until I took your Sarsaparilla, which, through the kindness of Providence, has restored me to more than my usual health, as I am now enjoying better than I have for a number of years. I am now 60 years of age. I believe it to be an invaluable medicine, and recom-mend it to my numerous acquaintances, which is very large. as I have been a minister a great many years. I hope this hasty sketch may be as much benefit to you as your medicine has to me.

JOHN SEGER, Jersey City.
