there were but two or three Whigs in the entire establishment-and they were found in such questionable shape as to leave some doubt of their identity! The contract office has some fifteen Clerks -and of the number, there are but three or four Whigs,-all the rest receiving from \$1400 to \$2500 per annum, are Locofocos! Yet this is the Department where Col. Warren has his head quarters -a man who has sustained more abuse and calumny for having removed for what he considered sufficient cause, a few Postmasters, and appointing Whigs in their places-out of some seventeen thousand Locofoco incumbents-than any other officer under the Government.

This is the kind of proscription Gen. Taylor's Cabinet officers are practising-but the old General himself hardly knows anything of the facts of the case, or he would insist, as he has to be abused and opposed at any rate, upon confining such abuse to his political enemies!

#### Now and Then.

The Washington Republic brings up the following reminiscence, which bears down with a forty thousand power upon the present clamor of the Washington Union and the Southern ultraists, who denounce the President for wishing to see California admitted as a state, with a constitution framed and agreed on by her own people:

Mr. CALHOUN AND THE "UNION" ON CALI-FORNIA .- In February, 1847, Mr. Calhoun, in the Senate of the United States, offered a series of resolutions, among which we find the following:

Resolved, That it is a fundamental principle in our political creed, that a people, forming a constitution, have the unconditional right to form and adopt the government which they may think best calculated to secure their liberty, property and happiness, and, in conformity thereto, no other condition is imposed by the Federal constitution on a state, in order to be admitted into this Union, except that its constitution shall be 'republican;' and the imposition of any other by Congress would not only be in violation of the constitution, but in direct conflict with the principle on which our polit-

ical system rests. The Union of the 5th February, 1849, respecting the policy of admitting California as a state, says :- "The South denies that Congress has any jurisdiction over the subject of slavery, and contends that the people of the territories alone, when they frame a constitution, preparatory to admission into the Union, have a right to speak and be heard on the matter .for which she contends."

The New York Tribune says: We had a day or two since the pleasure of examining a most interesting relic, being nothing less than approaching dissolution by the inhalation of the wedding ring with which Martin Luther, chloroform, he recalled life by thrusting two the great reformer, was married. It was once the property of an ancestor of the present King of Prussia, and by him was restored to the family. The present King, as we are informed, has offered 3,-000 thalers, or about \$1,800 for it, an offer which was refused by its present possessor, who was last summer forced to emigrate on account of being involved in political disturbances. It is certainly a singular destiny that bas brought this valuable relic to the New world.

The Camden and Amboy railroad company last week paid into the state treasury of New Jersey the \$10,000 which the commissioners found to be due for unreported transit duties .-A sum equally large was also due the company for similar duties overpaid the state, but the company declined making it an offset.

#### A Long Voyage.

The ship Clarendon, of Boston, arrived at New York on Monday morning from Canton. She left New York in December, 1846, and has been absent nearly thirty-eight months .-She has visited the following ports, some of them a number of times, viz. Liverpool, Batavia. Singapore, Penang, Akyab, Macao, Whampoa, Hong-Kong, and Amoy.

She has gone into port, including this last entry, twenty-three times, and has sailed 75,492 miles, being nearly equal to four times the circumference of the globe. She has worked down the China sea twice against the southwest monsoon, and has made three eastern passages to and from Singapore and Amoy, on the east coast of China. During her whole voyage she has not lost a man by disease or accident.

DR. TOWNSEND'S

SARSAPARILLA Wonder and Blessing of the Age.

The most extraordinary medicine in the world : Phis Extract is put up in Quart Bottles; it is six times heaper, pleasanter, and warranted superior to any sold. It cares disease without vomiting, purging, sickening, or de bilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other Medicines is, while it eradicates disease, it invigo rates the body. It is one of the very best SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the person, but it creates, new, pure and rich blood, a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has per-formed within the last two years, more than one hundred thousand cures of severe cases of disease; at least, 50,000 were considered incurable. It has saved the lives of more than 15,000 children the three past seasons 100,000 cases of General Debility and want

of Nervous Energy.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy, by the effects of medicine, or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on by physical prostration of the ner rous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be en-tirely restored by this pleasant remedy. This Sarsaparilla

Dr. Townsend—I verily believe your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results. Your obedient servant.

WM. RUSSEL, 65 Catherine-st.

Rheumatism. Blackwell's Island, Sept. 14, 1847. Dr. Townsend-Dear Sir : I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the utmost distressing pains, and my limbs were terribly swollen. I have used four bottles your Sarsaparilla, and they have done me more than one thousand dollars worth of good, I am so much better-indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours, respectfully, JAMES CUMMINGS.

Fita! Fita!! Fita!!! Dr. Townsend, not having tested his Sarsaparilla in cases of Fits, of course, never recommended it, and was surprised to receive the following from an intelligent and respectable

Fordham, August 13, 1847. Dr. Townsend-Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits; we tried almost everything for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and healthy, for which we fedl grateful. Yours, respectfully,

JOHN BUTLER, Jr.

Female Medicines. Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb. Costiveness, Piles, Leucorrhoss, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system-no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its inrigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed. but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invalua-ble Medicine, have been blessed with fine, healthy offspring.

Great Blessing to Mothers and Children. It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon childbirth ever discovered. It strengthens both the muther and the child, prevents pain and disease, increases and enriches the food; those who have used it, think it is indispensa ble. It is highly useful both before and after confinement, as it prevents diseases attendant upon child-birth-in Costiveness, Piles, Cramps Swelling of the Feet, Despondency, Beartburn, Vonicing, Pain in the Back and Louis, False Pains Hemorrhage, and in regulating the secretions and equalizing the circulation, it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medi-cine, in some a little Castor Oil, or Magnesia is useful. Exercise in the open air, and light food with this medicine, will slways secure a safe and easy confinement.

Beauty and Health. Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face Divine," as well as in the garden of rich and delicately tinted varia-gated flowers. A free, active and healthy circulation of the fluids, or the coursing of the pure, rich blood, to the extremities, is that which paints the countenance in the most exqui site beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paints, and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the checks, and a brilliancy to their eyes that is fascinating.

This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north, who take but little exercise, or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexion, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily. The Rev. John Seger Of Jersey City, an old and highly respectable ciergyman of the Baptist denomination, handed in the following certifi-

cate at Dr. Townsend's office. It speaks for itself. Dr. Townsend-Dear Sir: I am constrained to give you a statement of the benefit I derived from using your Sarsaparilla, believing, by so doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many months by the Dyspepsia, so much that it was with much difficulty for me to walk or keep about. I had also a tetter, which covered the most part of my head—which was ex-tremely troublesome and sore; it got to be almost a scab. I used quite a number of remedies for both the complaints, but received little or no benefit, until I took your Sursaparilla, which, through the kindness of Providence, has restored me to more than my usual health, as I am now enjoying better than I have for a number of years. I am now 60 years of age. I believe it to be an invaluable medicine, and recommend it to my numerous acquaintances, which is very large, as I have been a minister a great many years. I hope this hasty sketch may be as much benefit to you as your medicine has to me.

JOHN SEGER, Jersey City.
