

Late and Important from Havana.

Movements of U. S. Vessels of War—Five of the Expeditionists Shot—One an American Boy.
 CHARLESTON, June 6 P. M.—The S. C. Merchant, Capt. Lessier, arrived here this afternoon with dates from Havana to the 30th ult.
 The U. S. steam frigate Saranac, arrived at Havana on the 26th ult., and carried despatches to the Captain General and General Campbell, Consul at Havana. It was stated in Havana, that the Saranac was put under the orders of the Governor of Cuba, to assist in suppressing any armed expedition from the United States.
 The U. S. ships Albany and Germantown, lying at Havana, received information that Spanish vessels of war were expected with part of the Cuba expedition on board. The American vessels intercepted these vessels a few hours from Moro Castle, and after demanding the release of the prisoners from the Spaniards, and they refusing, were enforcing their release when the Saranac came up. After an interview between Lieut. Tannal and Commander Randolph, the Spaniards were allowed to take their prisoners into Havana, and place them in confinement on board of a Spanish 74.
 Five persons, part of the force of Gen. Lopez, who were taken at Cardenas, were afterwards shot at Matanzas. Four of them were Scotch and Irish and one an American—a boy, who stated that he joined the expedition under the impression of going to California. He asked permission to write a letter to Gen. Lopez, giving information of his fate—which was granted. After finishing the letter, it was torn up by the soldiers. A spectator picked up the pieces and pasted them together, with the intention of forwarding them to the parents of the boy.
 The Merchant left at Havana, the Saranac, Albany, and Germantown.

Items from the Gold Mines.
 A letter from the Murderer's Bar, on the Middle Fork, says that Gold is more plentiful there than ever. A man named Carrick dug some twenty pounds in two weeks, and his luck continued, \$3 to \$5 per pan-full of soil was the average.
 A lump of gold weighing 127 ounces was procured at the Auburn dry diggings by a Mr. Nickerson. At Sonora diggings many holes had yielded upwards of 10 pounds, and from one hole 27 pounds were taken by one man in three days. A beautiful 8 ounce lump of pure gold—not a particle of rock with it—was taken from Mormon Gulch on the American Fork. Two men at the same diggings, named Hyers and Brown, took 29 ounces, besides a 17 ounce lump in one day. On Weaver's Creek, an Indian picked out a two pound lump. A man from New Hampshire, at the same diggings, found a flat oval 16 ounce lump, all pure. A Mr. Holland, at Deer Creek diggings, was averaging 8 ounces a day at a lucky hole he found. At Mariposa diggings eight lumps, of one to 7 pounds, were found; and from one hole, 8 by 16 feet square, over \$10,000 was taken, 20,000 dollars were taken from a similar hole at the Tremont diggings on the Mariposa.
 One gambling establishment in San Francisco cleared \$150,000 in thirteen months. We glean all these California incidents from a file of late San Francisco papers.

Novel and Ingenious Clock.
 Mr. John Geldard, of Pawtucket, R. I. has invented a piece of mechanism, capable of being attached to any common clock, by which it is set in motion at any required time. The machinery is made to operate upon three automatic figures, representing negroes, who perform their respective duties with a tact and promptness at once amusing and interesting. As soon as the appointed time, as indicated by the clock, arrives, the first of three "gentlemen of color" rings a bell with so much force and for so long a time, as to awaken the family from the soundest sleep—indeed he who should sleep through the alarm thus made, would not be very likely to be aroused by a respectable peal of thunder. Whilst darkie No. 1, (who is known by the soubriquet of Sanbo,) tugs at the bell with a hearty will, Jumbo lights a lamp from a match, which he ignites by drawing across a piece of sand-paper. No sooner is the lamp lighted than Pete is at work. This gentleman most dexterously ignites a torch at the lamp, and communicates the flame thereof to the fuel prepared over night, in the stove. So complete are all the varied arrangements, and so perfect is the mechanism of the whole; that no possible risk of fire is at any time present; indeed, the tact displayed by the "little darkies" would do no discredit to help possessed of human intelligence. It will hence be seen that whilst its inventor is dressing, his automatic aids light a lamp and kindle a fire in his stove—services of no small value on a cold winter's morning. Nor is this all; Mr. G. and his family may leave home in the morning, and upon returning at night find his stove warm, his kettle boiling and a lamp lighted, and all these services performed without interference or bickering on the part of those to whom they are entrusted, nor do they ever fail in their respective duties, for they are always found where human help is employed.
 Mr. Geldard is a self-made mechanic, and gives evidence of a clear constructive brain. He is at present the Overseer of the Weaving Department in Walcott & Co.'s Mill, Pawtucket, Mass.
Scientific American

A KENTUCKY NEGRO AT SAN FRANCISCO.
 A shrewd mulatto man, named Bob, formerly a slave belonging to Hon. James Harlan, but emancipated some time ago, went to California last fall, has recently written to his late master's family an account of his successful adventures, from which it appears that he has accumulated a fortune of about \$10,000, by keeping a tavern and speculating in real estate.

Wages in Oregon.
 Hired girls in Oregon city receive \$732 per annum, and everything costs in proportion.—In March last, pork sold at \$24 per cwt; beef \$18 50; tallow candles \$2.50 per pound; oil \$12 per gallon; flour \$50 per barrel; sugar 25c per pound; coarse shoes \$5a\$6 per pair; do. boots \$15a\$16 per pair; day labor \$4a\$5; mechanics' \$12a\$16. Cotton and Woolen goods are all high.

The *Birmingham Journal* says that a tailor living in West Bromwich, in England, has completed a piece of fancy needle work, consisting of upward of 4,000 pieces of cloth, sewed together with different colored silk.—There are 300 figures, formed by pieces of cloth, and among them are scenes illustrative of Paradise, the death of Abel, the crucifixion, &c. beside animals, flowers, ships, bridges, and fortresses.

In South Carolina, no man can hold a seat in the House of Representatives unless he holds a freehold estate of five hundred acres of land, and ten negroes.
