The publishers of the SCIENTIFIC AMERICAN respectfully give notice that the VIth Volume of this valuable journal will be commenced on the twenty-first of September next, offering a favorable opportuny for all to subscribe who take an interest in the progress and development of the Mechanics, Arts, and Manufactures of our country. *The character of the Scientific American* is too well known throughout the country to require a detailed account of the various subjects discussed through its columns.

The aim of the publishers has always been to render it the most thorough and useful scientific journal in the country; and to judge of this, by comparing its circulation and influence with other publications of the same class, they have the unquivocal evidence of its value as the leading exponent of the Arts and Sciences.

It will be published WEEKLY as heretofore, in quarto form, on fine paper, affording at the end of the year an ILLUSTRATED ENCYCLOPÆDIA of over four hundred pages, with an index, and from five hundred to six hundred original engravings described by letters of reference, besides a vast amount of practical information concerning the progress of *Scientific* and *Mechanical Improvements, Chemistry, Civil Engineering, Manufacturing* in its various branches, *Architecture, Masonry, Botany*—in short it embraces the entire range of the Arts and Sciences.

It also possesses an original feature not found in any other weekly journal in the country, viz: an OFFICIAL LIST OF PATENT CLAIMS, prepared expressly for its columns at the Patent Office, thus constituting it the "AMERICAN REPERTORY OF INVENTIONS.

In connection with the publishing department the proprietors transact the most extensive Home and Foreign Patent business done in this country; consequently their facilities must be correspondingly superior.
