JEFFERSONIAN REPUBLICAN

Thursday, October 3, 1850.

FOR CANAL COMMISSIONER, JOSHUA DUNGAN,

OF BUCKS COUNTY.

FOR AUDITOR GENERAL, HENRY W. SNYDER, OF UNION COUNTY.

FOR SURVEYOR GENERAL, JOSEPH G. HENDERSON,

OF WASHINGTON COUNTY.

To the Polls! To the Polls!!

Freemen of Monroe, on Tuesday next you will be called upon to exercise the sacred right of suffrage, at the most important General Election that has taken place in this State for many years .--Whigs, we cannot, too strongly, urge upon you the necessity of repairing to the Polls, and discharging your duty as freemen. Let no consideration induce you to stay away. Not only go yourselves, but see that your neighbors go also. Call upon them, and take them with you. Receive no excuse It is the duty of every man to vote, and no Whig should neglect it. Let every Whig, therefore, go to the Polls, and the success of our principles and candidates will be certain. A glorious triumph awaits us ;-who will not share in achieving it !

# An Able Address.

On the first page of our paper to-day will be found a very able address, issued by the Whig Committee of Lancaster county, to the fellow Whigs of their own county and throughout the State. It is one of the most able and convincing documents ever issued in the State, and ought to be read by every Whig within its borders. The issues pending in the present campaign are all plainly set forth, and their importance enforced in so clear a manner, that any one who reads cannot fail to be convinced of the truth of every thing that is advanced in the address from beginning to

One fact, very clearly demonstrated in the address, is especially worthy of the attention of every Whig in the Commonwealth, which is, a full Whig vote is a certain Whig Victory! The results of the elections for the last ten years clearly shows this as any one who will look at the figures as given in the address must be convinced. Just so cercertainly as a full Whig vote has been a Whig vietory heretofore, so certainly will a full vote produce the same result this fall, and in view of the of St. George's, Delaware, has a heifer one year importance of the contest, may we not reasonably old last spring, which has given four quarts of hope that a proper effort will every where be milk daily ever since the first of June last, and made to bring out a full vote.

Which awake-arouse! Throw off the apathy calf. and criminal indolence which too generally prevails amongst you, and arouse to action. If every Whig does his duty-if every Whig but goes to the polls and votes-another glorious victory will be won, the fruits of which will redound to the honor and prosperity of the Commonwealth. Remember what you will gain by a proper performance of your duty. Remember what you must lose by indifference and neglect. And above all, remember that A FULL VOTE IS A WHIG VICTORY !

# Adjournment of Congress.

The close of the first session of the thirty-first Congress, which was effected at twelve o'clock on Monday last, will be hailed with more than ordinary pleasure by the people of the United States as the winding up of a long, a painful, and, in many respects, a discouraging chapter in their public history. It lasted for ten months, and they were, in a great measure, months of idleness and

The political tergiversations and delinquencies of Col. H. B Wright, the Locofoco canand I almost screamed with agony. We were didate, are telling against him with stunning force. The Danville Intelligencer, one of the ablest and most influential Locofoco papers in the district refuses to support him, but hoists the name of Mr. Fuller instead. Col. Collings, of the Wilkesbarre Farmer, as we have already stated, has retired from the editorship of that paper, rather than support the nomination, and the whole camp is in most woful state of discomfiture.

What our Neighbors Think.

There is no State in the Union, says the Albany Journal, more deeply interested in the just principle of Protection than Pennsylvania. More than ten thousand of her iron-workers are now idle because, under the existing tariff, foreign iron can be brought in under the fraudulent operation of the ad-valorem principle at prices less than it can be produced in that State. And yet the locofocos have placed in nomination for Canal Commissioner, the Legislature, &c., men known to be bitterly hostile to a principle which would promote the local interests of the State, the best interests of the country, and the happiness of thousands of her industrious laborers. If these men are elected, it will be an unmistakeable verdict in favor of Free Trade.

### Exceedingly Valiant.

The editor of the Charleston News is growing exceedingly valiant over the wrongs inflicted upon the South. He thinks the South will submit to the measures of adjustment recently adopted by Congress, but protests with true South Carolina indignation that such a course is shameful and traitorous, and concludes with the following determined declaration, small caps, and all:

"We have but one word more to say, now .-Nothing but UNION can now save the SOUTH, the Union and the Constitution. That un-ION MUST be on the Missouri line. IT IS AN SSUE OF LIFE AND DEATH. FOR ONE, WE ARE PREPARED TO MARCH UP TO 36 30 WITH OUR COFFIN ON OUR BACK. WHO GOES WITH US!

# The Hon. Milo M. Dimmick.

This gentleman has been renominated for Congress in this district without opposition. It is the uniform practice of the Democracy, where they have every thing their own ways to show their approbation of their faithful representatives, by electing them the second time. Mr. Dimmick will have cause for boasting of the greatness of his majority, no less than had one of his able predecessors; he will have the field to himself. His renomination is to be taken as an approval of his course in Congress during the present session; pro-slavery, anti-tariff and all. Well so it is .-They have the power in their own hands, they do as they please, and we must submit. How long must it be before we shall be represented in Congress by a person entertaining sound views upon the subject of the tariff, friendly to the industrial interests of the country, and especially devoted to the peculiar interests of Pennsylvania.
