

which at least Seventy Millions might have been produced in our own country by an expenditure of labor no larger than was required for their production in Europe. If this be the fact, then we have utterly lost—as much as if we had thrown so much value into the ocean—the heavy cost of importing these Metals and Fabrics, and of exporting our far more bulky produce sold abroad to pay them. The average cost of collecting and transporting our Free Labor Agricultural Produce to Europe is not less than half its net product—and that would nearly be saved by winning the Artisans and Operatives who fabricate our imported Cloths and Metals from the establishment in which they work and around which they about half live in Europe, and naturalizing them and their arts on our own soil. Then an infinity of articles of spontaneous growth or easy production would find markets which now are not produced or left to rot where they grew for want of purchasers. Then farms and plantations now exhausted by successive harvests of Wheat or Cotton, would be renovated and fertilized by the more various and thorough culture which convenient markets are morally certain to incite. Then Industry, with a hundred avocations open to it on every side, would find incitements to and reward for fidelity and excellence, such as are now scarcely known.—Then would our Nation become truly independent, paying off debts, public and private, and exchanging freely and bountifully its surplus products for those which other climes and soils produce, but ours do not, and thus maintaining a prosperous Trade without warring upon and depressing Home industry.

From the Sandwich Islands.
By way of California we have accounts from Honolulu to the 19th October. The British ship Herald had returned to that port from the Arctic ocean on the 16th, after an unsuccessful search for the expedition of Sir JOHN FRANKLIN; and of the many whale ships that had lately arrived, none had seen or heard any thing of the missing expedition. Fifty American whalers had arrived at the port of Lahaina during the months of September and October, every one of which, it is stated was loaded to its utmost capacity with oil and bone.—The season is represented to have been one of extraordinary success to all the vessels thus far heard from. At Honolulu the same influx of whalers is observed.

A New Light.
The Scientific American has a letter from George Cadwallader Blaney, Fort Washita, Arkansas, stating that he has discovered, and applied for patents, in this country and Europe, for a mode of making a cheap and brilliant gas, produced upon a new and scientific principle, which can be obtained at a cost less than one cent per thousand feet. Mr. Blaney says the process will far surpass every other means of producing gas extant; neither will the material raise in value on account of an increased demand. During the process, another article, more valuable than gas itself, is produced.—Neither is there required during the operation, a single particle of wood, coal, water, or vegetable matter, and the material can be obtained in any climate or place, however remote from civilization.

The value of the whole world is but a dollar! Cause why? It only contains four quarters!

When it is Noon in New Orleans or St. Louis, it is 1 o'clock, P. M. at Philadelphia, as there is a difference of an hour for every 19 degrees of longitude. Hence a telegraphic despatch from Philadelphia at noon reaches New Orleans at 11 o'clock, A. M. being an hour ahead of time. So it is, in sailing round the globe, if we go one way we lose, and by the other we gain a day.

OF A
VALUABLE TANNERY,
AND
REAL ESTATE,
Late the property of Samuel Meyer, dec'd.
Will be sold at public sale at the public house of Jacob Long, in Bartonsville, Pocono township, Monroe county, on Monday, the 13th day of January next, at 10 o'clock, A. M., that
Valuable Stone Tannery
and about 30 acres of land; the tannery is 75 feet by 58 feet, with an addition of 25 feet; three stories high, containing 48 vats, all as good as new; a bark shed, 16 by 90 feet. The whole is well and substantially built, and contains all necessary tanning tools and apparatus, with one of the best water-powers in the country. On the same property is also a large
Frame Dwelling House
well finished, frame barn, store house, and wagon-house. The land is all improved, and in a high state of cultivation, adjoining lands of John Edinger and others, in Bartonsville. The above property has many advantages as a tannery; it is situated on the north and South turnpike, and in a neighborhood where oak and hemlock bark is plenty, and easily to be had, and will tan 6000 hides per year.
No. 2, a tract of WOODLAND adjoining the first, containing ten acres, more or less. It is handy to the tannery property as a wood lot, and also contains considerable bark.
No. 3, a Tract of LAND situate in Jackson township, about three miles from Bartonsville, adjoining lands of John Possinger and others. It contains 231 acres, 17 perches, heavily timbered with oak and other timber.
No. 4, a Tract of LAND in Tobyhanna township, Monroe county, warranted to Jesse Sharpless. It contains 401 acres, 86 perches, all timber land, much of which would make good farm land.
No. 5, a Tract of 300 Acres, 120 perches of land, in Tobyhanna township, warranted to Samuel Bader, all timber land.
No. 6, the right to cut, peel, and haul the bark off of 60 acres of land, adjoining lands of John Stocker, Jacob Warner, and others, in Paradise township.
No. 7, the right to cut, peel, and haul the bark off of 93 acres of land in Paradise township, adjoining lands of John Learn, David Bowman and others.
It is very seldom that a better opportunity is offered to a man with moderate capital to go into the tanning business. Everything about the works has been got up very substantially. Terms reasonable.

A RARE CHANCE FOR FARMERS AND DAIRYMEN.
The subscriber offers at private sale his FARM, situate in Pahaquarry township, Warren county, N. J. lying on the Delaware River, and adjoining land of Samuel Shoemaker and others, containing
400 Acres,
140 of which is cleared, in a high state of cultivation, the remainder is WOOD-LAND, well covered with Chesnut, Oak, &c. very thrifty, and now ready for use.
The improvements consists of a two story Dwelling House, 50 by 22 ft., two convenient Barns, Blacksmith-shop, and other necessaries. Fruit out buildings, Apple orchards, with a variety of choice fruit, and a never failing spring and well of water near the dwelling, and every thing necessary to make it a desirable farm. There is any quantity of lime stone on this place, and a good lime kiln.
To a person desirous of keeping a public house or engaging in the lumbering business, or both, this opportunity is well worthy of consideration, as it is seldom such a property is offered in the market. This property is situate on the public road leading from the Delaware Water Gap to Port Jervis.
It is thought unnecessary to particularize every thing on and about this farm, as purchasers are invited to come and view for themselves, believing every thing said about this farm can be fully substantiated.

OFFICE TO PROCURE Soldiers' Land Warrants.
By a recent Act of Congress it is enacted... That each of the surviving, or the widow or minor children of deceased commissioned and non-commissioned officers, musicians, or privates, whether of regulars, volunteers, rangers or militia, who performed military services in any regiment, company or detachment in the service of the United States, in the war with Great Britain, declared by the United States on the eighteenth day of June, 1812, or in any of the Indian wars since 1790, and each of the commissioned officers who was engaged in the military service of the United States in the late war with Mexico, and shall be entitled to lands as follows:
Those who engaged to serve twelve months or during the war, and actually served nine months, shall receive one hundred and sixty acres; and those who engaged to serve six months and actually served four months, shall receive eighty acres; and those who engaged to serve for any or an indefinite period, and actually served one month, shall receive forty acres.—Provided, that wherever any officer or soldier was honorably discharged in consequence of disability in the service, he shall receive the amount to which he would have been entitled if he had served the full period for which he had engaged to serve.
Under the above act, and the acts of Congress generally, the subscriber offers his services as agent to procure Land Warrants for those entitled to receive them, as above specified.
He may be found at his office, in Stroudsburg.

Washing Made Easy.
Or How to Wash Clothes without Machines, Washboards, or Pounding Barrels, Rubbing Unnecessary.
BY MADAME BEVELT, PATENT FRENCH LAUNDRESS. Seventh Edition improved—the most popular Work ever printed—32-000 copies sold in six months.
This Work is really the most useful to Housekeepers of any ever issued. It gives plain instructions about Laundry matters, that enables one person to do a large family washing in a very short time, without using pounders, rubbers, machines, acids, turpentine, ammonia, camphene, or other offensive articles. It banishes all Washing Day Troubles, and makes the once dreaded day of suds and scolding as pleasant as any. It improves the appearance of the clothes, renders them as white as snow, tears off no buttons, no skimming of fingers, requires no hard labor, and saves all wear and tear. The pamphlet also instructs persons how to Wash calicoes or cotton prints without fading. Also how to make starch, and Clear Starch Laces, Cambrics, &c., and how to iron them in the French style. Also, how to renovate velvets, clean kid gloves, remove mildew from linen, grease spots, stains, &c. &c. These are the greatest and most valuable chemical discoveries of the age. My method is adopted by all the large hotels, laundry establishments, steamers, first families, &c. &c. The instructions are so plain none can mistake them. The articles used are all safe, agreeable, cheap, and can be obtained anywhere for a few cents. My plan is the Cheapest and best in the World.
The work is sent by mail in sealed envelopes at single letter postage. Price only \$1 00 per copy. Read the annexed.

A Great National Picture.
WASHINGTON!
From Stuart's most celebrated Painting.
This large and magnificent Portrait of WASHINGTON, from the bust of an American artist, is considered by all who have seen it to be one of the most beautiful specimens of art ever published, and a CORRECT LIKENESS OF WASHINGTON. The size of the plate is eighteen by twenty-eight inches, which will make a handsome Picture for the Parlor, and should be in the hands of EVERY AMERICAN CITIZEN.
It is a correct copy from Stuart's celebrated original Painting, now at the State House, Hartford, Conn.
It is finely engraved, and printed on superior plate paper. That it may be within the means of all, the publisher has reduced the price to ONE DOLLAR!
All persons remitting the amount may rely upon receiving a perfect copy by return of mail to any part of the United States, carefully put up on rollers made for the purpose, free of postage. Address all orders, post paid, to the publisher.

THE DAILY-YORK TRIBUNE.
The DAILY TRIBUNE is issued every morning except Sunday on a large sheet of fine white paper, forming eight pages of six columns each, or about the size of two average County Newspapers. About six of these pages are new every morning in the aggregate of Editorials, News and Miscellanies being greater than that of any other paper in America, and greater than any but one or two in Europe, though its price is but half that of other first-class Dailies in this Country and less than one-fourth the cost of similar journals in England. Two Evening Editions are issued to supply each subscriber with the latest news up to the hour when his copy must be mailed.
The Tribune is edited in chief by Horace Greeley, who has special charge of all matters pertaining to the Politics and Legislation of our own Country. Its Foreign (Old-World) department is in charge of Charles A. Dana, assisted by able correspondents in London, Paris, Constantinople, &c. &c. Its California intelligence and its City department are in charge of Bayard Taylor, assisted by an efficient corps of Reporters. No expense is or will be spared to render its news from all quarters, by Telegraph, Expresses, Steamships and Mails, as early and reliable as that of any other paper.
The Semi-Weekly Tribune contains nearly all the non-advertising matter of the Daily, except such as is of local interest, or has been superseded by fuller and more exact advices before the Semi-Weekly is issued. It is of the same size with the Daily, and has few advertisements.
The Weekly Tribune is issued every Thursday morning, and contains most of the matter of the Daily with more summary accounts of such Events and Proceedings as cannot be published in full. We mean that no Weekly shall surpass this in giving a full graphic and faithful account of what the world is Doing, whereof it is Thinking, and how it is Progressing.
The Tribune is not quite ten years old, and has obtained an aggregate circulation of not far from sixty-five thousand copies—about two thirds of them on its Weekly. Every subscription is paid in advance, and the paper stops when the advance runs out, so that no man need hesitate to subscribe from an apprehension of being damned for arrears, perhaps after he has left the place to which the paper is sent, in ignorance that it is continued. Subscriptions from individuals and clubs are respectfully solicited.
