JOB WORK Neatly executed at this Office. MOFFATS

Life Pills and Phonix Bitters.

These Medicines have now been before the public for a period of FIFTEEN YEARS, and during that time have mainta ter in almost every part of the globe for their ex-traordinary and immediate power of restoring per-fect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDI-CINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious

a combination. The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhœa with its imminent dangers. This fact is well-known to all- regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDI-CINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGE-TABLE LIFE MEDICINES are well known

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; Flatulency, Loss of Appetite, Heart-BURN, HEADACHE, RESTLESSNESS, ILL-TEMPER, ANXIETY, LANGUOR, and MELANCHOLY, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure,

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days. Diarrhæa and Cholera, by removing the charp acrid fluids by which these complaints are

occasioned, and by promoting the lubricative seeretion of the mucous membrane. Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure Rheumatism permanently in three weeks, and Gout in half that time, by removing local inflammation from the muscles and ligaments of

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the

worst cases of Gravel.

Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere. Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which

even slight colds will occasion, and which, if not removed, becomes hardened, and produces these Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDI-CINES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions. The use of these Pills for a very short time will effect an entire cure of Salt Rheum, and a

Common Colds and Influenza will always be cured by one dose, or by two even in the worst PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this compaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed

within the whole compass of the Materia Medica.

He however at length tried the Medicine which

is now offered to the public, and he was cured in

a very short time, after his recovery had been pro-
