The Voyage of Life.

BY MRS. M. ST. LEON LOUD. Thou art flowing on, bright river! In gladness to the sea; And Summer sun-beams quiver On thy waters joyously; The graceful willows bending With their shadows o'er thee thrown, In murmurs sweet are blending Their voices with thine own.

Oh brightly are they flowing, Green, sunny banks between; And many a wild-flower glowing Is mirror'd in thy sheen; And barks are gaily gliding Upon thy peaceful breast, Which skilful hands are guiding To the haven of thy rest.

But e'er thou meet'st the ocean, There are rocks and quicksands deep, And winds in wild commotion, Will o'er thy bosom sweep; And the barks their sails unfurling To the zepyhyr's gentle play, Lost in thy waters whirling, Thou wilt bear as wrecks away.

Like thee, the heart beginneth Life when all things are fair; Alas! it seldom winneth The goal, untouched by care! Hope's fairy pinnace, freighted With dreams of future joy, Hastes to the quick-sands fated Its promise to destroy.

Wrecks of the dreams so cherished, Are floating darkly by, Like the gallant ships that perished, When winds and waves were high; The flowers that bloomed around it, The fount now idly choke, And the sun-bright hopes that bound it Are like parted cables broke.

But soon, O flowing river ! Though wild thy course may be, Thou'lt merge thy waves for ever In the deep unbounded sea; And to the heart is given A calm repose at last; Though sorely it hath striven With the billow and the blast.
