

In the matter of Partnerships.

We give below the section of an act passed last session of our Legislature, in relation to partners, which is of great importance to all business firms, and one which is probably little known. The attention of all business firms however is called to its provisions and requirements. The section is as follows, and will be found on page 52 of the pamphlet laws of 1851.

Sec. 13 That from and after the tenth day of August, next, all persons who are now doing business in a partnership capacity in this Commonwealth, shall file or cause to be filed in the office of the Prothonotary in the county or counties where the said partnership is carried on, the names and location of such partnership, with the style and name of the same; and as often as any change of members in said partnership shall take place, the same shall be certified by the members of such new partnership as aforesaid; and in default or neglect of such partnership so to do, they shall not be permitted in any suits or actions against them in any court or before any justice of the peace or alderman in this Commonwealth to plead any misnomer or the omission of the name of any member of the partnership or the inclusion of names of persons not members of said partnership.

Sec. 14 That hereafter, where two or more persons may be desirous of entering into any business whatever in partnership capacity, they shall before they engage or enter into any such business as aforesaid, comply with and be subject to all the provisions and restrictions in the next preceding section of this act.

The Swan of Africa.

A new impulse is about to be given to the musical furor. A new candidate for fame in the world of song has arisen in the West. It is a bird of African extraction, though not exactly a black bird; and she has spread her wings under the euphonious title of the "Black Swan." Her real, earthly name is Eliza Greenfield. She is a colored girl, belonging to Buffalo, N. Y., where she is making preparations for her debut. She has surprised and delighted those who have heard her, and is said to possess a voice of great purity and flexibility and extraordinary compass—singing notes in alto with brilliancy and sweetness, and descending to the bass notes with a power and volume which is perfectly astonishing.—The "Buffalo Commercial of Saturday last says:

The "Black Swan" gave a rehearsal yesterday afternoon at Townsend Hall. Those who heard her, came, we believe to the unanimous conclusion that she was next to Jenny Lind, at least in her vocal powers. She has a great compass of voice—rising and falling from the highest to the lowest tones, with the greatest ease and rapidity, with "intonations softly sweet, and anon thrilling and startling." We understand that she will give a concert in this city at an early day—probably next week.

Five-Six boys burned to Death.

Cincinnati, Wednesday, Oct. 15, 1851. This morning a fire broke out in the Orphans' Asylum, which destroyed the entire edifice. There were at the same time one hundred and six boys in the building, many of whom saved themselves by jumping out of the windows. One hundred of the children were saved, and six, it is feared, perished in the flames.—Three bodies of the six have been found in the ruins. Many of those saved were badly burned, or otherwise injured while making their escape.

Folly and Fanaticism.

Digging for Treasure.—A crowd of men and boys were gathered about the ramparts of the old French Fort, on the westside, yesterday afternoon, and again this morning. It seems that the farce of digging for treasure is again in operation there, with the aid of what the boys call a "witch." This has produced the interest, and called together an amused crowd. A young girl, apparently 14 years of age said to have seen this treasure in a mesmeric sleep in Albany, is on the ground. She sits upon the bank of a deep excavation, and while working, the men are not permitted to speak, she issuing her directions in writing. Preparatory to the commencement of the work, the girl (in Bloomer costume) with the solemn gravity walks round the edge of the excavation three times; and at a given signal the men fall to digging. The whole scene is one bordering largely on the ridiculous but strongly marked by gullibility. A police officer was present yesterday to preserve order. To-day the number of spectators is largely increased, in consequence of the presence of the sight seeing young Miss, who directs, with the aid of her mesmeric eye, exactly where the treasure is buried.—*Onece Journal*, 9th.

Hozer's Writing Ink.

"We are opposed to all kinds of 'Puffing,' in the figurative sense of the term. Whether in the notice of a book, or anything else, we have a repugnance to give it a fulsome adulation, or to recommend it in any way at all, unless we honestly believe it worthy of favor. "We have again furnished ourselves with a keg of Hozer's Black Writing Ink, and when we say that this is not the first or second keg that has been procured from Mr. Hozer, the article may be considered endorsed 'good' by us, otherwise we should not have continued its use for these six or seven years past. Others may have their preferences in favor of different manufactures, and we are quite willing that they enjoy those preferences (save and except those of our correspondents, who sometimes impose that loathsome Blasphemy upon us, which is not fit to be used), for our own part, we continue the manufacture of Mr. Hozer, whose ink is not only clear and black, but does not clog and conglomerate our pen, as some otherwise good inks do."—*German Reformed Messenger*, Chambersburg, Pa.

The State Fair.

The Harrisburg Union says:—We trust our brethren of the press will direct the attention to the great State Fair that is to commence at Harrisburg on the 26th of October. New-York has just had 100,000 visitors at her fair last week at Columbus, and why cannot the old Keystone have as great a congregation at Harrisburg? We invite all our farmers to come, but above all we invite those having good horses, cattle, hogs, sheep, poultry, agricultural implements, &c., to bring along so as to make the exhibition as attractive as possible.

Every inventor of agricultural implements should have specimens here for exhibition and sale; and last, but not least, let the fair daughters and mothers of Pennsylvania send in their hand work, of whatever nature or kind it may be, as there are premiums for a large class of household manufactures, and where premiums may not be awarded—diplomas and certificates will be given, that may possibly be as acceptable as a premium in money.

The Lackawanna and Western Railroad.

Extending from Scranton, Luzerne County, to the New York and Erie Rail Road, at the Great Bend, in Susquehanna County, was opened for use, on the 15th inst., by the Directors. Scranton, a town of some 4000 or more inhabitants, is situated on Roaring Brook, near its junction with the Lackawanna, and was formerly known as the site of Slocum's forge and mill. It, for several years past, has been noted as the seat of Anthracite Furnaces, Rolling and Slitting Mills, and other Manufactures of iron.—Its vicinity abounds in Coal and Iron ore. It lies about 17 miles north of Wilkesbarre and about 8 or 9 miles from the Susquehanna River, in the Wyoming Valley, between Pittston and Carbondale. The road in question will be principally used, for the present, in carrying coal from the Lackawanna to Western New York. When the Delaware and Cobb's Gap Railroad shall be completed, and the Belvidere Delaware Railroad extended from Lambertsville to the Water-Gap, Philadelphia will have a railroad connection with the New York and Erie Railroad at Great Bend—and the distance from Great Bend to New York, and from the same place to Philadelphia, will be about equal.

To give to Philadelphia an equal claim for competition with New York for the Lake Trade, at Dunkirk, will only require her citizens to make 59 miles of railroad from Lambertsville to the Del. Water Gap and 56 from Delaware Water Gap to Scranton, and by constructing these roads she will secure to herself the almost exclusive trade of the North-Eastern Counties of Pennsylvania, which will otherwise go to New York. For the enterprising New York Gentlemen who own the Lackawanna Coal beds, and have constructed the Lackawanna and Western railroad, in pursuing their own interests will necessarily construct the road to the Water Gap, there to connect with railroads to New York as well as the iron regions of New Jersey.

Let Philadelphia put her shoulder to the wheel before the trade is diverted from her

Seventy Bushel is the average yield of wheat to the acre in Utah. Great country.

Steerage passengers for San Francisco from New York, are now taken for \$150.

Wheat is selling in Madison, Ia., at 55 cents per bushel.

Hozer's Ink Manufactory,

REMOVED TO No. 144 Race Street, (Between Fourth and Fifth, opposite Crown St.) Philadelphia.

WHERE the Proprietor is enabled, by increased facilities, to supply the growing demand for HOZER'S INK, which is wide spread reputation has created. This Ink is now so well established in the good opinion and confidence of the American Public, that it is scarcely necessary to say anything in its favor, and the manufacturer takes this opportunity to say that the confidence thus secured shall not be abused.

In addition to the various kinds of Writing Ink, he also manufactures Adamantine Cement for mending Glass and China, as well as a superior Hair Dye; a trial only is necessary to insure its future use, and a Sealing Wax, well adapted for Druggists and Butlers, at a very low price, in large or small quantities. Orders addressed to JOSEPH E. HOZER, Manufacturer, No. 144 Race Street, Between 4th & 5th, opposite Crown St. PHILADELPHIA.

In the Orphans Court of

MORRIS COUNTY.

Estate of Jacob Felker, dec'd.

The Auditor appointed to examine and if occasion require resettle the account of John Felker, administrator of the Estate aforesaid, and make distribution amongst the creditors, will attend to the duties of his appointment on Wednesday, November 5th, 1851, at 10 o'clock A. M., at his office in Stroudsburg, when and where all persons interested can attend or be ed-barrred from sharing of the assets. S. C. BURNETT, Auditor. October 2, 1851.

SARSAPARILLA. A fresh supply of the above article, just received, and for sale at this Office, by THEODORE SCHOCH. August 14, 1851

HORSES MADE SOUND

BY THE

Horse Owner's Secret,

Being a new and certain remedy for the speedy

Cure of Heaves,

By SIR JAMES LYNDONTON,

Principal Farrier to his Royal Highness Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a Certain and positive cure for the Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work, it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says: APPLETON, Ohio, July 21, 1851

Mr DUNBERTON,—I have tried your Secret for the cure of Heaves, and approve of it very much.

Yours, truly, S. LAKE, Horse Dr.

To procure this valuable little work. Address, post paid,

JOHN DUNBERTON, English Horse Doctor, American Agent for James Lyndontons' Horse Owner's Secret, New York Post Office.

The Secret is sent by mail at letter postage. October 23, 1851—6m

In the Court of Quarter Sessions

for the County of Monroe.

In the matter of the Corporation of Stroudsburg.

At a Court, as aforesaid, holden the 22nd day of September, 1851, S. C. Burnett, on behalf of the corporation, made application that the Borough of Stroudsburg may become subject to, and possess the powers and privileges conferred by the "Act regulating boroughs," approved the third day of April, 1851. The Court order public notice to be given of the same.

Publication of which is hereby made, and if no sufficient reason be shown to the contrary, the Court of Quarter Sessions, at its next Term, will decree and declare that the "Borough of Stroudsburg" become subject to the act intended an "Act to regulate boroughs," approved April 3d, 1851.

Dissolution.

The partnership heretofore existing between the subscribers, in the manufacture of Slate, was dissolved by mutual consent on the 15th of September, 1851. All persons having claims against said firm will present them to Amos Labar, who is duly authorized to settle the same, and those indebted are requested to make payment to him, on or before the first of January next.

GEO. R. SMITH & Co. Datsburg, September 15, 1851.

NOTICE.

The undersigned, will continue the manufacture of Slate, at the old stand. AMOS LABAR Datsburg, Sept. 18, 1851.—3t.*

Cure of Consumption,

Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.

I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The Lung Balsam prescribed in this work Cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this System of Cure the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to Relieve but never Cure. He knows when using this Life saving Balsam, that he is taking mild, pleasant, efficacious remedies, such as Nature prescribes for the ill her children suffer. The ingredients composing this Lung Balsam are obtainable (cheaply too) wherever consumption exists, proving that Every ill has its antidote. Consumptive patients may Rely on this receipt—(All Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to Make their own Medicine at a trifling Cost. I will impart the secret of making the Balsam, and the Family right to use it, for \$1, but in no case will I sell it for speculating purposes.

Proof of its Goodness.

JACKSON, Mich., March 21, 1851.

Doct. S. TOUSEY—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first ten days my wife gained in weight 3 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev Mr. Blanchard will write you for a recipe. Respectfully yours, O. F. POOL.

Address, post paid, (enclosing \$1.) Dr. S. TOUSEY, 106 Nassau street, New York.—The work goes by mail under seal.

October 23, 1851—6m

MILLINERY & DRESS-MAKING.

JACOB SINGMASTER April 10, 1851.

American Repertory of Inventions.

To Mechanics, Inventors and Manufacturers.

SEVENTH VOLUME OF THE SCIENTIFIC AMERICAN.

MESSRS. MUNN & CO., American and Foreign Patent Agents, and Publishers of the SCIENTIFIC AMERICAN, respectfully announce to the public that the first number of Volume VII. of this widely circulated and valuable journal will issue on the 20th of September. The new volume will commence with new type, printed upon paper of a heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by introducing representations of prominent events connected with the advancement of science, besides furnishing the usual amount of engravings of new inventions. It is published weekly in form of binding, and affords at the end of the year a splendid volume of over four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader, which is not treated in the most able manner—the editors, contributors & correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.

Terms—\$2 a year; \$1 for six months.

All Letters must be post-paid and directed to MUNN & CO., Publishers of the Scientific American, 125 Fulton-street, New-York.

INDUCEMENTS FOR CLUBBING.

Any person who will send us four subscribers for six months, at our regular rates, shall be entitled to one copy for the same length of time, or we will furnish—

Ten copies for six months \$ 8

Ten copies for twelve months 15

Fifteen copies for twelve months 22

Twenty copies for twelve months 28

Southern and Western Money taken at par for subscriptions, or Post Office stamps taken at their full value.
