

President's Message.
This document will be found in our columns. It is an able paper, well written, dignified, and statesmanlike. Read it.

A New Whig Paper.
The "Harrisburg American" says the first number of the "Independent Whig," a new Whig paper published in Lancaster, has made its appearance. The Lancaster Union & Tribune has been merged into the Whig. It is edited by Mr. Edward McPherson, recently editor of the Daily American. We need scarcely say that it is well written and abounds in success in his new position.

The Hon. Henry M. Fuller, has our thanks for an early copy of the President's Message.

The "Easton Sentinel," says the Supreme Court have fixed the week commencing December 15th, for hearing the cases in Error from Northampton, Lehigh, Monroe, Carbon, Wayne and Pike counties—so that during that week all the older members of our bar will be absent at Philadelphia. There are upwards of 50 cases pending in Error from these two Judicial Districts.

It is rumored that Gen. Foote, will resign the gubernatorial chair, and continue in his seat in the U. S. Senate.

The Newark City Bank, (N. J.) commenced business on Monday last, under the General Banking law. Samuel H. Pennington, Esq., is the President, and Charles S. Graham, Cashier. The capital of the bank is \$200,000, with the privilege of increasing it to \$500,000.—The amount subscribed is \$400,000, of which \$50,000 has been paid in. The bills are secured by United States and State Stocks.

The New York Times has ascertained by careful investigation, that the amount of the debts on which this country is paying interest to Europe, is about two hundred millions. The interest on this is twelve millions annually.

Indian Rubber Profit.—It is said that the first cost to manufacture ladies' India Rubber shoes is about twenty-two cents per pair; and the first cost of those for men's wear is from 33 to 38 cents per pair. As these shoes retail from 88 cents to \$1 38 per pair, it will be understood that the India rubber dealers make lots of money. The process by which these shoes are made has thus far been kept a secret. The profits on this business will reach almost two millions of dollars in the year, and the present manufacturers can scarcely supply. One girl can make some twenty pair in a day, for which she receives two or three cents a pair.

Trouble Ahead.
As the "Prometheus" was leaving San Juan for New York, on her last trip with California news and passengers, a demand was made by the authorities of Greytown, as they said by direction of the Musquito King, for the payment of \$123 port dues. The Captain of the Prometheus hoisted anchor and started without regarding the demand, and was soon chased by the British brig of war Express, which fired one shot over and near her wheelhouse, and another over her stern; and threatened to throw a bombshell into her if she did not come to. The captain then hoisted to, and was visited by a boat from the brig with orders to put out his fires. He then paid the demand, under protest, and left for New York.

Our government sent war vessels immediately to the vicinity of where the outrage was committed, to protect our shipping; and instructions have been sent out to our Minister at London, Mr. Lawrence, to demand of the British Government whether the outrage was authorized, and if so to demand satisfaction.

A Washington letter to the New York Times says that Mr. Fillmore will not be a candidate for re-election.

The American Bloomers will be surprised to learn that the Carinthian women are before them in the movement. Their skirts just reach to the knee, but they have not got as far as the Turkish trousers. They either go bare-legged, or wear bazaar boots.—Boyard Taylor.

Freaks of Nature.
The Cambridge Democrat, states that Mr. William Turner, living in Caroline county, Maryland, has a cow that had a calf on the 24th ult., with two heads and eight legs. It lived but a short while. The editor of the Democrat has in his office a duck with five separate and distinct bills.

A Curiosity.
Mr. Thomas Smith, Jr. of Jamaica, L. I., owns a cow which gave birth a few days since to a calf without eyes or anything resembling an organ of vision.—The calf, at the present time, is some 9 days old, and, is doing well.

Patent Milk.
A very valuable discovery has recently been patented by a French gentleman. The discovery relates to the preservation of milk for an indefinite period of time. This discovery found a place in the Crystal Palace during the Exhibition; but appears to have escaped the observation of the jury. The milk tablets can be grated into a fine powder and when put into tea they will immediately dissolve without leaving any sediment whatever behind, while the milk itself not only retains its full flavor, but also its nutritious qualities. For long sea voyages its utility is obvious.

A Detroit paper says that in the State of Michigan, there are 1,000,000 sheep, and that the capital invested in them, and in the land in which they are kept amounts to \$5,500,000. Surely this already important and rapidly increasing branch of industry, ought to receive the fostering hand of government.

Samuel Hubbard, a notorious criminal, has escaped a second time from the Bucks county jail. He has boasted that he has escaped from sixteen different jails.

Fearful Leap by a Horse.
Yesterday as a stranger was passing through Trevorton, in a buggy, his horse became frightened somewhere near the new Foundry, and ran off. His first care seemed to be the preservation of his master, for him he safely deposited in the heap of sand, then dashed the buggy to atoms, and went off at locomotive speed along the line of the Railroad. The harness and part of the shaft was dangling at his heels. He had not gone over six hundred yards when he encountered an abutment for a bridge. So great was his speed that he could not recover himself, and there was no alternative but certain death on the rocks below or a jump of some thirty or forty feet! The noble animal seemed to take in at a glance the danger of his position, and when about six feet from the edge of the abutment gathered himself for the desperate effort. There was no hesitation—on he came—life or death was before him! He planted himself firmly, drew back upon his haunches and sprang off! He cleared the space and landed 4 feet from the edge on the opposite side! The variation of a hand's breadth would have thrown him on the rocks below. So close did he come that his legs rubbed and were badly bruised; but he is now doing well and does not seem to have suffered much from his adventure.

One of the Engineers on the Railroad who was engaged near by, immediately took a measurement of the distance, and found it to be exactly thirty-two feet!—*Sunbury American.*

Curious Proceedings.—Mrs. Olmstead was recently sentenced to 2 years' imprisonment in the penitentiary at Alton, for the murder of her daughter, by starvation, when taken to the prison, was refused to be received by the Warden.—No reason is stated for the proceeding. She is now at her father's house in Cumberland county.

For California.
A company of twenty-two gentlemen left Mauch Chunk on the 18th ultimo to go to California, to dig for gold. They are all miners and all accustomed to the privations and hardships of such a life.—They think they have been digging for the black ore long enough and feel disposed to try their picks at some of the yellow stuff.

Kossuth's arrival at New York.
The illustrious Hungarian leader, accompanied by Madame Kossuth and other distinguished Hungarians, arrived at New-York on Saturday last. Kossuth was saluted by the discharge of twenty-one guns as the steamer came up the bay, and enthusiastically welcomed by a gathering of several hundred thousand persons on his landing in the city. The city papers are filled with the most extravagant descriptions of the parade, processions and entertainments.

Congress.
The thirty-second Congress opened its first session on the 1st instant. There was a full attendance in the Senate Chamber at 12 o'clock M. on that day when the Senators were called to order by Mr. King, of Alabama.—A prayer was then delivered by the Rev. Mr. Butler.

The House met at 12 o'clock, when the Clerk called the roll, 218 members answering to their names. This being a new Congress, it was necessary to elect a Speaker of the House. LINN ROYD, (Democrat,) of Kentucky, was elected on first ballot by a majority of twenty-four over all others. JOHN W. FORNEY, of the Pennsylvania, was elected Clerk by a handsome majority.—In the Senate, notice was given of a number of Bills, among them one to establish a National Railroad from the Mississippi to the Pacific; one to reduce postage on newspapers and provide for a regular, uniform rate of postage; one to establish a line of Ocean Steamers from San Francisco to China, by way of the Sandwich Islands. I joint resolution of both Houses, offered by Mr. Foote, tendering to Kossuth the hospitality and protection of the Nation, caused a lengthy discussion. Messrs. Foote, Hale, Cass, and Underwood were the principal speakers.

MARRIED.
On the 6th inst. by Daniel Jayne, Esq. Mr. Theodore Adams, of Stroudsburg, and Miss Margaret Starnier, of Stroud township.

On the 2d instant, by the Rev. Dr. Hoffeditz, Mr. Rudolph Metzgar, and Miss Mary Ann Shoemaker, all of Hamilton, Monroe county.

Hoover's Writing Ink.
"We are opposed to all kinds of 'Puffing,' in the figurative sense of the term. Whether in the notice of a book, or anything else, we have a repugnance to give it a fulsome adulation, or to recommend it in any way at all, unless we honestly believe it worthy of favor. "We have again furnished ourselves with a keg of Hoover's Black Writing Ink, and when we say that this is not the first or the second keg that has been procured from Mr. Hoover, the article may be considered endorsed 'good' by us, otherwise we should not have continued its use for these six or seven years past. Others may have their preferences in favor of different manufactures, and we are quite willing that they enjoy those preferences (save and except those of our correspondents, who sometimes impose that loathsome Blue stuff upon us, which is not fit to be used); for our own part, we continue the manufacture of Mr. Hoover, whose ink is not only clear and black, but does not clog and conglomerate our pen, as some otherwise good inks do."—*German Reformed Messenger, Chambersburg, Pa.*

A Literary Paper for the People.
THE BOOK TRADE,
A Monthly Record of New Publications and Literary Advertiser.
At 25 CENTS PER ANNUM—IN ADVANCE.
H. WILSON, Publisher, 49 Ann St. N. Y.
The Second Volume of this Journal commenced in August, 1851. Book numbers can be supplied to a limited extent.
Each number consists of from twelve to sixteen large quarto pages, printed on new type and excellent paper, forming in a year a volume of from 150 to 200 pages.
Its contents are:—A list of all works published in the U. States in each month. Literary Intelligence; Reviews of New Books, &c. &c., occupying about one half the sheet, the remaining half is devoted to selections from the best literature of the day, and to a very interesting miscellany.
It is the object of the publisher to render the "Book Trade" agreeable to the taste of the general reader, while it conveys intelligence of what is going forward in the world of Literature; a species of information, which it is presumed, is worth more than the subscription to every intelligent person.
All communications by mail, must be pre-paid.

A FEW OPINIONS OF THE PRESS.
"The Book Trade" is the name of a periodical published in this city, which we can conscientiously commend as a valuable monthly record of new publications.—*Knickerbocker Magazine.*
It is designed as well for the scholar as for the trade, and will be found of great interest and value. In general appearance it resembles the London Athenaeum.—*Jour Commerce.*
We recommend it to all who have to do with books.—*Alleghen Democrat, Pa.*
An excellent literary journal.—*N Y Tribune.*
A valuable literary record.—*Ev Post.*
It will be found to be invaluable to authors, clergymen, lawyers, teachers, and all general readers. Such a publication has long been needed, and we are glad to welcome it.—*Dem. Freeman, Hudson, N Y.*
A valuable paper for literary men.—*Old Colony Memorial* [Nov 27]

DR. V. M. SWAYZE,
SURGEON DENTIST,
Easton, Pa.
Respectfully offers his professional services to the public. Having studied and practiced with Dr. Craue, of Easton, for three years, and having spent three winters in the Baltimore College of Dental Surgery, (two of which were after he graduated,) and from the experience of eight years practice, he hopes to merit the confidence of all, and receive a liberal share of the public patronage. Parents cannot be too careful of their children's teeth, as a little care and attention in time, may save a great deal of suffering, trouble and expense, in the future.
There are few persons but who, with proper care and attention, could keep their teeth sound and comfortable through life; and thus avoid the necessity, as well as the trouble and expense of having artificial ones.
Regulating, as well as preventing irregular, or deformed sets of teeth, forms so important a part of the services required of an educated Dentist, that he has paid, in the last five years special attention to the subject—and the most successful means to be employed in all the various cases that may be presented.
His advice, or opinion, as to the use, result or the propriety of performing an operation, will in all cases where it is required, be freely and candidly given.
All operations that are faithfully performed require both labor and expense; and therefore, the cost of an operation will be according to the expense and time it takes to perform it.—No metal will be used for any operation but gold.
All artificial work will be done with great care and neatness.

HORSES MADE SOUND
BY THE
Horse Owner's Secret,
Being a new and certain remedy for the speedy
Cure of Heaves,
By SIR JAMES LYNDONTON,
Principal Farrier to his Royal Highness
Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a Certain and positive cure for the Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling.—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.
An American Horse Doctor approves of the above System! Read what he says:
APLINGTON, Ohio, July 21, 1851
MR. DUNBERTON.—I have tried your Secret for the cure of Heaves, and approve of it very much. Yours, truly,

Cure of Consumption,
Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.
I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The Lung Balsam prescribed in this work Cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this System of Cure the patient knows what he is taking—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to Relieve but never Cure. He knows when using this Life Saving Balsam, that he is taking mild, pleasant, efficacious remedies, such as Nature prescribes for the ill her children suffer. The ingredients composing this Lung Balsam are obtainable (cheaply too) wherever consumption exists, proving that Every ill has its antidote. Consumptive patients may Rely on this receipt—(all Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to Make their own Medicine at a Trifling Cost. I will impart the secret of making the Balsam, and the Family right to use it, for \$1, but in no case will I sell it for speculating purposes.
Proof of its Goodness.
JACKSON, Mich. March 21, 1851.
DOCT. S. TOUSEY.—Sir: You wish me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first ten days my wife gained in weight 3 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev. Mr. Blanchard will write you for a recipe. Respectfully yours,
O. F. POOL.
