

Vegetable Cattle Powder,
PREPARED BY
BREINIG, FROENFIELD & CO.
No. 187 North Third Street, Philadelphia.

The proprietors of the above powder take pleasure in being able to call your attention to this article, which in all respects exceeds any thing of the kind offered to the public for the last fifty years. It is not only of individual interest but it must in time become a great National benefit; in the aggregate it will add at least one Million of Dollars annually to the produce of the Country, in the increase of Milk, Butter and Fat from the same amount of food, besides the many, very many lives of valuable animals it will save by restoring them to health. It is therefore destined to be in due time one of the staple articles of every Farmer, Dairyman and Horseman. It is not one of those kind of Mixtures that merely swell an animal up for a short time, but it will by the capacity which it has of converting Hippuric Acid (which is an effete matter) into Lactic acid or oleine; cause a greater amount of nutritious matter to be extracted from the same amount of food, than possibly could do, were the active principles of nutrition to pass out of the system in the form of Hippuric Acid. We have received a multitude of evidence to prove what we have said above. Suffice to say: We have mixed the active agent with a great number of Vegetable plants and herbs, which time and use have proved to be useful in improving the appetite and promoting digestion of the food; thus securing a healthy condition of the blood, from which the Milk and Fat must be formed. It may be used for Horses, Cows and Hogs for the following diseases:

HORSES.
Yellow Water.—This disease is owing to a bad and impoverished state of the blood, which becomes thin and watery and of a yellow color. It is a dangerous sickness, and destroys many valuable horses every year. A free use of this powder will entirely cure this disease. It will by improving digestion and giving to the blood a greater quantity of red particles, afford the best and only possible chance of recovery. In the beginning of the disease, give a table spoonful once a day, at noon. If the disease is far advanced a table spoonful twice a week.

Stabbing.—This is the ruination of many valuable Horses by exhaustion—by a constant discharge of saliva which ought to go into the stomach to assist digestion. It is often brought on by Indian Tobacco growing in the pasture ground. A table spoonful three times a week will arrest the flow, unless caused by the Tobacco. Under such circumstances the animal must be kept out of the reach of the Tobacco.

Distemper.—This powder has already cured hundreds of horses of this troublesome disease to the surprise of those who used it. It should be used early, before matter has formed in the neck, else it cannot restore the animal perfectly until the matter is discharged. Use it early to prevent such a result. The dose is a table spoonful once or twice a day.

Glanders.—This disease has baffled all Farmers. Give this powder a fair trial and it will do wonders in this terrible and hitherto incurable malady. It is a disease of the glandular system and kept up by imperfect nutrition. A table spoonful twice every day for a month or two, in constant succession, will in three cases out of four effect a cure. It has been fairly tested. Cows and a shortness of Brevin depending on weak lungs, a table spoonful every morning; if it abates, once or twice a week.

Poor, Low spirited Horses, or where there is any remains of Founder or stiffness of motion, and the Horse will not fatten, or where the hair is rough and stands straight out, the feed seeming to do no good, the Powder produces almost immediate improvement of the animal; the digestion improves and with it all the sluggishness of the animal disappears, becoming lively and spirited, and the hair smooth and sleek.

Dozevens. by feeding their horses one or two table spoonfuls a week to each will secure them against the danger of taking cold or distemper, in being exposed to the weather, &c. Their horses will also appear to a greater advantage, when offered for sale; the powder keeping them in a good and healthy condition. Farmers and Teamsters will also find their horses greatly benefited by feeding the powder as above, it securing to them a continual good appetite.

COWS.
For Milk Cows, we are fully convinced that it not only improves the quality, but that it increases the amount of Milk, Cream and Butter; some who have tried the experiment say a pound a week, others say half a pound, while one person insisted upon it that he made two pounds more a week from each Cow. We think it will be found to average from a half to a pound per week each Cow, if the Cows are perfectly healthy. This additional amount is made by the conversion of the Hippuric Acid into Nitrogenous and fatty compounds; also by supplying the oxygen taken in by the lungs, with the elements of reaction; without taking any of the Nitrogenous portions of the feed.

This powder will secure to cows that healthy and thrifty condition of system, which will produce the Milk and Butter, so much relished during the summer season, when Cattle go into good Pasture. Their appetite will be continually good; the powder will supply them with that nutriment, which they would otherwise soon lack and consequently fall off both in quantity and quality of Milk and Butter as soon as the hot summer season advances and pasture becomes stale. Any Farmer or Dairyman, who will feed this powder regularly to his Cows will find them in a continued good condition, summer or winter. For this purpose a table spoonful of the powder should be given two or three times a week.

Hollow Horn or Wolf; Hoof Disease, and all other diseases of neat cattle depending upon a bad state of the fluids, are removed speedily and effectually. Cows, whose milk is blue, thin and watery, and where it does not yield much cream, or where Cows give bloody milk, or which are used to stand long dry, it will be found an almost infallible remedy, by improving the condition of the blood and creating a healthy digestion; a table spoonful every day or every other day as it may be necessary.

N.B.—In an animal which is giving milk and you are desirous to fatten at the same time, you should not give more than a table spoonful once a week or it will retard the formation of fat by increasing the amount of milk

qualities, and that no Farmer should be without it.
For the purpose of finding out still further how far our justly celebrated **CATTLE POWDER** is entitled to the confidence of an intelligent people, we have addressed letters to all parts of the United States, where our powder has been used, and we are able now from the evidence thus brought before us, to assure every Farmer, Dairyman, and Horseman, that it has thus far very much exceeded our most sanguine expectations.

Beware of counterfeits, as the extensive sale of our powder has induced others to make an imitation of it. Each pack has our written signature on the end.
Several orders have been sent to this city for Cattle Powder, which have been filled by sending an article got up in imitation of our own. We therefore say again, Storekeepers, Farmers and Dairymen, do not buy a pound, unless you look for the name of **Breinig, Froenfield & Co's** written signature on the end of each pack; do not allow yourself to be deceived, the life and health of your cattle depend upon this Caution. Look out! Vigilance is the price of security.

Price 25 Cts. per pack (1 pound)
For sale by **JOHN N. STOKES,**
Stroudsburg, General Agent for Monroe county.

December 18, 1851.

200,000 BRICK

A Literary Paper for the People.
THE BOOK TRADE,
A Monthly Record of New Publications and Literary Advertiser.
At 25 CENTS PER ANNUM—IN ADVANCE.
H. WILSON, Publisher, 49 Ann St., N. Y.

The Second Volume of this Journal commenced in August, 1851. Back numbers can be supplied to a limited extent.
Each number consists of from twelve to sixteen large quarto pages, printed on new type and excellent paper, forming in a year a volume of from 150 to 200 pages.

Its contents are:—A list of all works published in the U. States in each month; Literary Intelligence; Reviews of New Books, &c. occupying about one half the sheet, the remaining half is devoted to selections from the best literature of the day, and to a very interesting miscellany.

It is the object of the publisher to render the 'Book Trade' agreeable to the taste of the general reader, while it conveys intelligence of what is going forward in the world of Literature; a species of information, which it is presumed, is worth more than the subscription to every intelligent person.
All communications by mail, must pre-paid.

A FEW OPINIONS OF THE PRESS.
—'The Book Trade' is the name of a periodical published in this city, which we can conscientiously commend as a valuable monthly record of new publications.—*Knight-erbocker Magazine*
—It is designed as well for the scholar as for the trade, and will be found of great interest and value. —In general appearance it resembles the London Athenaeum—*Journal Commerce*
—We recommend it to all who have to do with books.—*Allentown Democrat, Pa*
—An excellent literary journal.—*N. Y. Tribune*
—A valuable literary record.—*Ec Post*
—It will be found to be invaluable to authors, clergymen, lawyers, teachers, and all general readers. Such a publication has long been needed, and we are glad to welcome it.—*Dem. Freeman, Hudson, N. Y.*
—A valuable paper for literary men.—*Old Colony Menialist* [Nov 27]

J. H. WALTON,
ATTORNEY AT LAW,
Has removed his office to his dwelling house, first door below the office of the 'Monroe Democrat,' and directly opposite S. J. Hollinshead's hotel, Elizabeth street.
Stroudsburg, Dec. 19, 1851.

HORSES MADE SOUND
BY THE
Horse Owner's Secret,
Being a new and certain remedy for the speedy
Cure of Heaves;
By **SIR JAMES LYNDONTON,**
Principal Farrier to his Royal Highness
Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronety. It is really worth its weight in gold to all who own or use Horses. It procures a certain and positive cure for Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says:
APPLETON, Ohio, July 21, 1851
Mr. DUNBERTON—I have tried your Secret for the cure of Heaves, and approve of it very much. Yours truly,
[Witness, G. Long.] S. LARK, Horse Dr.

To procure this valuable little work. Address, post paid,
JOHN DUNBERTON,
English Horse Doctor,
American Agent for James Lyndontons' Horse Owner's Secret,
New York Post Office,
The Secret is sent by mail at letter postage.

Hoover's Ink Manufacturing,
REMOVED TO
No. 144 Race Street,
(Between Fourth and Fifth, opposite Crown St.)
Philadelphia.

WHERE the Proprietor is enabled, by increased facilities, to supply the growing demand for HOVER'S INK, which its wide spread reputation has created. This Ink is now so well established in the good opinion and confidence of the American Public, that it is scarcely necessary to say anything in its favor, and the manufacturer takes this opportunity to say that the confidence thus secured shall not be abused.

In addition to the various kinds of Writing Ink, he also manufactures *Adamantine Cement* for mending Glass and China, as well as a superior *Hair Dye*; a trial only is necessary to insure its future use, and a *Sealing Wax*, well adapted for Druggists and Butlers, at a very low price, in large or small quantities.

Orders addressed to **JOSEPH E. HOVER,**
Manufacturer,
No. 144 Race Street,
Between 4th & 5th, opposite Crown St.,
PHILADELPHIA.

All persons having claims against said firm will present them to Anoa Labar, who is duly authorized to settle the same, and those indebted are requested to make payment to him, on or before the first of January next.

GEO. R. SMITH & Co.,
Dutotsburg, September 13, 1851.
NOTICE.
The undersigned, will continue the manufacture of Slate, at the old stand,
AMOS LABAR,
Dutotsburg, Sept. 18, 1851.—3t.

Cure of Consumption,
Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.
I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The *Lung Balsam* prescribed in this work Cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this *System of Cure*, the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to relieve but never Cure. He knows when using this *Life saving Balsam*, that he is taking mild, pleasant, efficacious remedies, such as Nature prescribes for the ill her children suffer. The ingredients composing this *Lung Balsam* are obtainable (cheaply too) wherever consumption exists, proving that *Every ill has its antidote*.

Consumptive patients may rely on this receipt (all Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to *Make their own Medicine at a trifling Cost.* I will impart the secret of making the Balsam, and the Family right to use it, for \$1, but in no case will I sell it for speculative purposes.

Proof of its Goodness.
JACKSON, Mich. March 21, 1851.
Doct. S. TOUSEY—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first ten days my wife gained in weight 3 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there are many cases similar to my wife's. The Rev. Mr. Blanchard will write you for a recipe. Respectfully yours,
O. F. POOL.

Address, post paid, (enclosing \$1.) Dr. S. TOUSEY, 106 Nassau street, New York.—The work goes by mail under seal.
October 23, 1851—6m

American Repertory of Inventions.
To Mechanics, Inventors and Manufacturers.
SEVENTH VOLUME OF THE
SCIENTIFIC AMERICAN.
MESSRS. MUNN & CO.,
American and Foreign Patent Agents,
And Publishers of the SCIENTIFIC AMERICAN, respectfully announce to the public that the first number of Volume VII. of this widely circulated and valuable journal will issue on the 20th of September. The new volume will commence with new type, printed upon paper of a heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate more fully, by introducing representations of prominent events connected with the advancement of science; besides furnishing the usual amount of engravings of new inventions. It is published weekly in form of binding, and affords at the end of the year a splendid volume of over four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader, which is not treated in the most able manner—the editors, contributors & correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.
Terms:—\$3 a year; \$1 for six months.
All Letters must be post-paid and directed to
MUNN & CO.,
Publishers of the Scientific American,
125 Fulton-street, New-York.

EXTRACTS FROM OPINIONS OF THE PRESS.
Sacred Scenes and Characters.—By the Rev. J. T. Headley. This work may very properly be considered a companion to the "Sacred Mountains," by the same author.—Its object is to illustrate and "render more life-like" the sacred writings. It is not the author's design to supersede the Bible. But his wish is to excite a solicitude to obtain, and to become intimately acquainted and perfectly familiar with its history, doctrines and laws; to know its truth, to imbibe its spirit, feel its power, and partake of its salvation; in a word, to prize in some measure as it deserves, this treasure which is indeed beyond price. We predict for it a circulation far beyond any of the author's former works.

The News, January 7th.
Sacred Scenes Characters.—By the Rev. J. T. Headley, author of the 'Sacred Mountains,' &c. This work will add greatly to the reputation of the author. In literary merit it more than equals his 'Sacred Mountains.' Mr. Headley excels in his glowing style and vivid descriptions. His works are a rich treasury of all the sublimity of thought, moving tenderness of passion, and vigorous strength of expression, which are to be found in all the languages by which mortals declare their minds.—*Daily Globe, January 5th*
Rambles and Sketches.—By Rev. J. T. Headley.—We have not for a long time sat down to a book with more pleasing anticipations, or found those anticipations more fully realized than in the perusal of the work before us, and we know it will be hailed with gratification by the many admirers of the talented author. His 'Napoleon and his Marshals' was, perhaps, as popular, and found at least as many enthusiastic readers as any book that can be mentioned. We think the *Rambles & Sketches* are destined to be as popular at least as any of his previously published works. There is not a dull chapter in the work, filled as it is with an 'infinite variety.' The author has ample room and verge enough for the employment of his fine talents to great advantage and most successfully has he recompensed the task. The biographical sketch of the author is interesting and 'well considered,' and adds much to the value of the book, which I got up in a very neat and attractive style by the publisher.—*Portland Transcript, Dec. 1*

Mr. Headley is one of the most promising writers of this country, and we have here on of his best books—one on which he can safely rest his fame. It possesses the unflinching charms of perfect simplicity and truth.—There is a graceful frankness pervading the composition, which engages the interest of the reader in the author as well as in the subject. His rambles about Rome, Paris and London exhibit a thousand lively traits of a ingenious nature, upon which a man of fast wit would delight to linger. We predict for this sale equal to that of any of the author's works.

The collection is one of which no author could be ashamed. It consists, indeed, of some of Mr. Headley's most brilliant and highly-finished compositions, of those specimens of his abilities by which he may be judged with the greatest safety by his fan as a word-painter and thinker.—*N. Y. Tribune December 17, 1849*
N.B.—The above books will be forwarded to order, at the prices mentioned, free of postage, to any part of the United States, on the receipt of orders, with the money. None may be sent by mail at my risk.
JOHN STAYLOR,
Publisher, 143 Nassau st. New York,
July 24, 1851—3m
