

Executors' Sale of a VALUABLE TANNERY AND REAL ESTATE.

Late the property of S. Meyer, dec'd.

WILL be sold at public sale in the public house of Jacob Long, in Bartonville, Pococo township, Monroe county, on Saturday, the 24th day of January, 1852, at 10 o'clock, A. M., a valuable stone tannery and about 32 acres of land. The tannery is 75 feet by 58 feet, with an addition of 25 feet; three stories high, containing 45 vats, all as good as new; a bark shed, 16 by 90 feet. The whole is well and substantially built, and contains all necessary tanning tools and apparatus, with one of the best water-powers in the country.

On the same property is also a large frame dwelling house, well-finished, frame barn, store house, and wagon house. The land is all improved, and in a high state of cultivation, adjoining lands of John Edinger and others, in Bartonville. The above property has many advantages as a tannery; it is situated on the North and South turnpike, and in a neighborhood where oak and hemlock bark is plenty and easily to be had, and will tan 6000 hides per year.

No. 2, a tract of woodland adjoining the first, containing ten acres, more or less. It is handy to the tannery property as a wood lot, and also contains considerable bark.

It is very seldom that a better opportunity is offered to a man with moderate capital to go into the tanning business. Everything about the works has been got up very substantially. Terms reasonable.

JAS. H. WALTON, } Ex'rs
JOHN EDINGER, }

January 1, 1852.

TANNERSVILLE

Iron and Brass Foundry.

The subscriber takes this method of informing the public generally, and millers and farmers especially, that having purchased of Mr. Samuel Hayden, late proprietor of the Stroudsburg Foundry, all his Patterns and Fixtures, he has removed the same to his Foundry in Tannersville, Monroe Co., Pa., and having increased the machinery of the establishment, he is prepared to execute all orders in his line of business, in the best manner and with despatch, and therefore respectfully solicit the patronage of the public. He will manufacture cast and wrought iron work of all descriptions, including

Mill Gearing,

for flour and other mills, mill screws, bark and corn mills, together with castings of every description turned and fitted up in the best possible manner. As particular care will be taken to employ none but the best workmen, and no pains will be spared, he feels confident of being able to give general satisfaction. Also

STEAM ENGINES

made to order.

BRASS CASTINGS

such as spindle steps, shaft and gudgeon Boxes, &c., will be made to order. Old copper and Brass taken in exchange at the highest price. Patterns made to order.

Threshing machines and Horse Powers of the most approved construction, will be furnished to order at the shortest notice.

STOVES

of all kinds, for coal or wood, cook stoves &c., on hand or made to order, for sale wholesale or retail.

PLOWS.

of the most approved plan will be kept on hand, and every variety of plow castings on hand and for sale.

Wrought iron mill work will be done on the most reasonable terms. The best kind of sled shoes and polished wagon boxes and hollow ware will always be kept on hand.

JACOB STOFFER.

HORSES MADE SOUND BY THE

Horse Owner's Secret,

Being a new and certain remedy for the speedy

Cure of Heaves,

By SIR JAMES LYNDENTON,

Principal Farrier to his Royal Highness Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a certain and positive cure for the Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says:

APPLETON, Ohio, July 21, 1851

Mr. DENBARTON,—I have tried your Secret for the cure of Heaves, and approve of it very much. Yours, truly,

[Witness, G. Long.] S. LAKE, Horse Dr.

To procure this valuable little work. Address, post paid.

JOHN DENBARTON,

English Horse Doctor,

American Agent for James Lyndenton's Horse Owner's Secret,

New York Post Office.

The Secret is sent by mail letter postage.

October 23, 1851-6m

Hoover's Ink Manufactory,

REMOVED TO

No. 144 Race Street,

(Between Fourth and Fifth, opposite Crown St.)

Philadelphia.

WHERE the Proprietor is enabled, by increased facilities, to supply the growing demand for HOVER'S INK, which its wide spread reputation has created.

This Ink is now so well established in the good opinion and confidence of the American Public, that it is scarcely necessary to say anything in its favor, and the manufacturer takes this opportunity to say that the confidence thus secured shall not be abused.

In addition to the various kinds of Writing Ink, he also manufactures Adamantine Cement for mending Glass and China, as well as a superior Hair Dye; a trial only is necessary to insure its future use, and a Sealing Wax, well adapted for Druggists and Butlers, at a very low price, in large or small quantities.

Orders addressed to JOSEPH E. HOVER,

Manufacturer,

No. 144 Race Street,

Between 4th & 5th, opposite Crown St.

PHILADELPHIA.

Estray Horse.

CAME to the residence of the subscriber, in M. Smithfield township, on the 13th inst., a handsome Gray Horse, in good condition, about 10 years old, and 16 hands high. The owner is requested to come forward, prove property, pay charges, and take him away, otherwise he will be disposed of according to law. MARTIN OVERFIELD.

October 23, 1851.

JOB WORK

Neatly executed at this Office.

Vegetable Cattle Powder,

PREPARED BY BREINIG, FRONFIELD & CO.

No. 187 North Third street, Philadelphia.

The proprietors of the above powder take pleasure in being able to call your attention to this article, which in all respects exceeds anything of the kind offered to the public for the last fifty years. It is not only of individual interest but it must in time become a great National benefit; in the aggregate it will add at least one Million of Dollars annually to the produce of the Country, in the increase of Milk, Butter and Fat from the same amount of food, besides the many, very many lives of valuable animals it will save by restoring them to health. It is therefore destined to be in due time one of the staple articles of every Farmer, Dairyman and Horseman. It is not one of those kind of Mixtures that merely swell an animal up for a short time, but it will by the capacity which it has of converting HIPPURIC ACID (which is an effete matter) into Lactic acid or oleine; cause a greater amount of nutritious matter to be extracted from the same amount of food, than possibly could do, were the active principles of nutrition to pass out of the system in the form of Hippuric Acid. We have received a multitude of evidence to prove what we have said above. Suffice to say: We have mixed the active agent with a great number of Vegetable plants and herbs, which time and use have proved to be useful in improving the appetite and promoting digestion of the food; thus securing a healthy condition of the blood, from which the Milk and Fat must be formed. It may be used for Horses, Cows and Hogs for the following diseases:

HORSES.
Yellow Water.—This disease is owing to a bad and impoverished state of the blood, which becomes thin and watery and of a yellow color. It is a dangerous sickness, and destroys many valuable horses every year. A free use of this powder will entirely cure this disease. It will by improving digestion and giving to the blood a greater quantity of red particles, afford the best and only possible chance of recovery. In the beginning of the disease, give a table spoonful once a day, at noon. If the disease is far advanced a table spoonful twice a week.

Stabbing.—This is the ruination of many valuable Horses by exhaustion—by a constant discharge of saliva which ought to go into the stomach to assist digestion. It is often brought on by Indian Tobacco growing in the pasture ground. A table spoonful three times a week will arrest the flow, unless caused by the Tobacco. Under such circumstances the animal must be kept out of the reach of the Tobacco.

Distemper.—This powder has already cured hundreds of horses of this troublesome disease to the surprise of those who used it. It should be used early, before matter has formed in the neck, else it cannot restore the animal perfectly until the matter is discharged. Use it early to prevent such a result. The dose is a table spoonful once or twice a day.

Glanders.—This disease has baffled all FARRIERS. Give this powder a fair trial and it will do wonders in this terrible and hitherto incurable malady. It is a disease of the glandular system and kept up by imperfect nutrition. A table spoonful twice every day for a month or two, in constant succession, will in three cases out of four effect a cure. It has been fairly tested. Coughs, and shortness of BREATH depending on weak lungs, a table spoonful every morning; if it abates, once or twice a week.

Poor, Low spirited Horses, or where there is any remains of Founder or stiffness of motion, and the Horse will not fatten, or where the hair is rough and stands straight out, the feed seeming to do no good, the Powder produces almost immediate improvement of the animal; the digestion improves and with it all the sluggishness of the animal disappears, becoming lively and spirited, and the hair smooth and sleek.

Deceivers, by feeding their horses one or two table spoonfuls a week to each will secure them against the danger of taking cold or distemper, in being exposed to the weather, &c. Their horses will also appear to a greater advantage, when offered for sale; the powder keeping them in a good and healthy condition. Farmers and Teamsters will also find their horses greatly benefited by feeding the powder as above, it securing to them a continual good appetite.

COWS.
For Milk Cows, we are fully convinced that it not only improves the quality, but that it increases the amount of Milk, Cream and Butter; some who have tried the experiment say a pound a week, others say half a pound, while one person insisted upon it that he made two pounds more a week from each Cow. We think it will be found to average from a half to a pound per week each Cow, if the Cows are perfectly healthy. This additional amount is made by the conversion of the Hippuric Acid into Nitrogenous and fatty compounds; also by supplying the oxygen taken in by the lungs, with the elements of reaction; without taking any of the Nitrogenous portions of the feed.

This powder will secure to cows that healthy and thrifty condition of system, which will produce the Milk and Butter, so much relished during the summer season, when Cattle go into good Pasture. Their appetite will be continually good; the powder will supply them with that nutriment, which they would otherwise soon lack and consequently fall off both in quantity and quality of Milk and Butter as soon as the hot summer season advances and pasture becomes stale.—Any Farmer or Dairyman, who will feed this powder regularly to his Cows will find them in a continued good condition, summer or winter. For this purpose a table spoonful of the powder should be given two or three times a week.

Hollow Horn or Wolf; Hoof Disease, and all other diseases of neat cattle depending upon a bad state of the fluids, are removed speedily and effectually. Cows, whose milk is blue, thin and watery, and where it does not yield much cream, or where Cows give bloody milk, or which are used to stand long dry, it will be found an almost infallible remedy, by improving the condition of the blood and creating a healthy digestion; a table spoonful every day or every other day as it may be necessary.

N-B-In an animal which is giving milk and you are desirous to fatten at the same time, you should not give more than a table spoonful once a week or it will retard the formation of fat by increasing the amount of milk.

HOGS.
Pigs in the summer often overheat themselves, get swelled necks, coughs, ulcers in the Lungs and Liver, which cause them to die very suddenly, these may be prevented entirely by putting a pound into a barrel of swill; and giving from one to two quarts per day. It will at the same time considerably hasten the fattening process.

Let each person try its effects for himself and he will soon be satisfied of its excellent

qualities, and that no Farmer should be without it.

For the purpose of finding out still further how far our justly celebrated CATTLE POWDER is entitled to the confidence of an intelligent people, we have addressed letters to all parts of the United States, where our powder has been used, and we are able now from the evidence thus brought before us, to assure every Farmer, Dairyman, and Horseman, that it has thus far very much exceeded our most sanguine expectations.

Beware of counterfeits, as the extensive sale of our powder has induced others to make an imitation of it. Each pack has our written signature on the end.

Several orders have been sent to this city for Cattle Powder, which have been filled by sending an article got up in imitation of our own. We therefore say again, Storekeepers, Farmers and Dairymen, do not buy a pound, unless you look for the name of Breinig, Fronfield & Co's written signature on the end of each pack; do not allow yourself to be deceived, the life and health of your cattle depend upon this Caution. Look out! Vigilance is the price of security.

Price 25 Cts. per pack (1 pound)
For sale by JOHN N. STOKES,
Stroudsburg, General Agent for Monroe county.

December 18, 1851.
