This work may very properly be considered a companion to the "Sacred Mountains," by the same author .---Its object is to illustrate and "render more life-like" the sacred writings. It is not the author's design to supersede the Bible. But his wish is to excite a solicitude to obtain, and to become intimately acquainted and perfectly familiar with its history, doctrines and laws; to know its truth, to imbibe its spirit, leel its power, and partake of its salvation ; in a word, to prize in some measure as it deserves, this treasure which is indeed beyond price. We predict for it a circulation far beyond any of the author's former works.
