We call the attention of Merchants, Booksellers, Druggists and others, to the advertisement of "The Croton Manfacturing Co," of 44 Cortlandt Street, New York, in another column. This Company undoubtedly stands at the head of the Trade both in quantity and variety of the Goods they Manufacture and Import, as they are constantly Manufacturing, they keep up a full assortment at all seasons of the year, and are fully prepared to fill orders for goods in their line at any time.

The Steamboat.

The Steamboat Maj. WM. BARNET, the Easton Whig says, left that place on Monday last, on her regular trip for Lambertville, with about seventy passengers, and freight. She will run regularly, while the water keeps up, three times a-week.

The STROUDSBURG ACADEMY will be opened for the reception of pupils on Monday, April 5th. Mr. LEWIS VAIL, the principal, is a graduate of one of the first Colleges in the country, and intends giving a thorough and practical course, after the most approved models. His terms are low, and our citizens should patronize him.

We would call the attention of Merchants and others who visit New York to the advertisement of Charles P. Freeman & Co., who have an extensive establishment and latest styles of goods in their line, and offer to sell on the very best terms. They should receire a call from the Stroudsburg merchants, milliners and others who visit that city.

Woman Convicted of Murder .- Nancy for several days, for the murder of the Forrest family-a mother, a daughter and a son -was last week found guilty and sentenced to be hung. Petitions for her parden, or the commutation of her sentence, have already begun to pour in upon the Executive of Ohio. It is a rare thing that a woman is capitally convicted.

Another Great Rifle .- We see it stated in a number of our exchanges, that Mr. Porter, of Nashville, Tennessee, has recently invented a repeating rifle, which will take all the others down in short order, it seems. It is self-loading, and contains a magazine of sixty charges; all that has to be done is to put the charges into the cylinder or magazine, and pull away at the trigger-that is all, until the whole are discharged.

The state of distress in the Prussian provinces is increasing in a most terrifying manner; even in Berlin itself the scarcity of victuals is felt; potatoes are rising in price about 100 per cent.; and bread is diminishing in quality and quantity. There is a prospect of a large emigration from some of the North Western States, to the Mormon settlements, the present season. The St Louis Times says near three hundred families are in that city, preparing to emigrate to the Salt Lake, and states on "reliable authority" that the emigration to the Salt Lake Valley this season will not fall short of 5,000 souls.

The Lamber Trade .- In this county the past winter was uncommonly favorable for lumbering. The snow was of moderate depth, and the sleighing of long continuance. Hence more lumber has been got out than in any former season. We trust the market will afford a remunerating price for the whole supply .- Honestale Democrat.

Proposition to Lease the Public Works.

The following important proposition to lease the public improvements of the State, seems to meet with favor from the Legislature. We would not be surprised if it would be accepted, in a form somewhat different from the one proposed, and an increased rent. The State has never done as well as the proposition offers, and never will, so long as she holds them under her control.

HARRISBURG, March 16, 1852. Hon. JOHN S. RHEY,

SIR :- The undersigned, citizens of the Commonwealth of Pennsylvania, respectfully submit the following proposition to lease the finished lines of the Canals and Railroads of the State for a term of ten years from the first day of August next, and keep the same in as good repair as when received; and pay for the first year eight hundred thousand dollars, for the second year eight hundred and fifty thousand dollars, for the third year nine hundred thousand dollars, and for each succeeding year one million of dollars. March 17. In the Senate, nothing was done of inter-

The question being taken, the motion to postpone was agreed to-yeas 45, nays 38. O'S Recent developments show the many modes in which the Commonwealth is swindled by the carelessness or corruption of the Canal Commissioners of the State. They pretend among other things, to give out the work on the public improvements to the lowest bidder. The Canal Commissioners were interrogated on this point relative to contracts on the Allegheny Portage Railroad. They made a reply which discloses the following fact: that for the work on section 17 of the road to avoid the Planes there were four bids -one by Burke & Gonder at \$33,055; one by Lincoln, Long & Co. at \$19,065; one by Kuppe & Howley at \$22,770 and one by O'Grady, Hurley & Co. at \$21,830. OTA movement which well illustrates the unscrupulousness of locofoco politicians was made in the New York Legislature about two weeks ago. The lower House was Whig by a majority of one vote. The seat of one Whig was contested. The case was investigated in Committee, brought before the House and decided in favor of the Whig. After the decision, several of the Whig members were absent and the Locofocos had temporary control of the House. They reconsidered the question, threw the House into the utmost confusion, defied the Speaker, set the rules of order at naught, continued in session aineteen consecutive hours and finally succeeded in ousting the Whig and putting in the Locofoco member! Locofoco journals say nothing against this outrage; have before this been heralded from one end of the land to the other. Whilst these scoundrels are almost daily thus engaged in trampling upon public and private rightssetting at defiance all law and breaking their oaths of office, they have the effrontery, when office is to be given, to come before the public with innumerable professions and ask honest men to endorse their detestaeoulsy about "decency" when an unsparing hand lays bare their festering corruption.

Loss of the Henry Clay Medal.

Independent Whig.

The magnificent gold medal presented to the Hon. Henry Clay, by a number of the citizens of New York, was lost on Saturday evening in this city. It appears that after the presentation, Mr. Clay discovered some deficiency in the lettering on the medal, which he wished rectified, and accordingly gave it in the care of Miss Emma C. Lynch, the poetess, to bring on to this city, in order that the desired alteration might be made by the engraver. This medal, valued at \$2,500, was enclosed in a massive silver case, and was placed by Miss L. in her carpet-bag, in order that she might keep it by her side.

In company with two friends of hers, a gentleman and lady, she arrived in the city on Saturday afternoon by the 2 o'clock Philadelphia train, when the three took a carriage. One of the party, the lady, left the carriage at her residence in Walker street-at this time the carpet-bag, which had been placed outside, was seen all safe, but upon the arrival of the carriage at the corner of Broadway and Grand st., Miss L.'s destination, it was for six,' only to waken to his infernal gone, having either been thrown off by the driver, or accidentally lost. Search was immediately made, but no traces of either could be found. A reward of \$500 has been offered for its recovery .- N. Y. Sun.

Mr. Charles Butler, the gentleman uable medal, has given an order to have another prepared precisely like the first, at his own individual expense. The medal was placed in his carpet bag, and not as above stated in that of Miss Lynch.

Shooting Children .- A man named Paterson, of Oshkosh, Wisconsin, was recently lodged in jail for shooting several school children with intent to kill them. It appears that he kept a number of dogs which he occasionally set on the children going to school, and they opened a fire upon the dogs in return, with snowballs and other missiles .--The account states: "Tuesday evening, the school children got again snowballing the dogs; a difficulty with him arose, when he took a double-barrelled shot gun, and fired twice upon the crowd. WASHINGTON, March 12, 1852. GENTLEMEN: It was only yesterday that the pressure of public business obliged me to decline the honor of meeting a number of Irish friends at the approaching celebration of St. Patrick's Day in Philadelphia. I beg you will accept what I said to them in reply :

"You do me but justice in supposing me to take a lively interest in Ireland and her sons. Perhaps no man-certainly no American-owes so much to the valor and blood of Irishmen as myself. Many of them marched and fought under my command in the war of 1812-15, and many more-thousands-in the recent war with Mexico-not one of whom was ever known to turn his back upon the enemy or a friend."

Awful Tragedy. About eleven o'clock on Monday night, the 22d instant, a shocking murder

was perpetrated in a house at the Northwest corner of Northampton and Juliana streets. The Coroner's Jury had not yet reported when our paper was prepared for the press, but the following appears to be the circumstances connected with the dreadful transaction.

Barnet Andrews with three or four other families occupied the building. Andrews lived in the second story. Hearing semething strike the window, he went out, when his wife locked the door. Finding the door fastened on his return, he broke it open, and taking hold of her, with a razor cut her throat, causing instant death. He confessed the deed, surrendered himself and was committed to jail.

Andrews is a laborer about thirty-five years of age, and a drinking man, who was on several occasions sent to jail on account of difficulties with his wife and others. He had been but a few weeks out of jail. His wife, if reports are true, was not a woman of good character .--Andrews has four children, three of them were in the room at the time of the murder. - Easton Whig.
