can be followed to England by his creditors and where subjected to the English law of imprisonment for debt.

What they have Done.

Our Editorial brethren throughout the state, see the Harrisburg State Journal, very unjustly charge the present Legislature with having "done nothing." Now in order to place the Representatives of the people in a proper position before their constituents, we must say that they have done something—indeed a great deal more than they ought to have done. They have consumed nearly four months with private business, that legitimately belongs to and should be done by the Courts,—they have refused to pass the only law asked for by the people, and treated three hundred thousand petitioners with contempt,—they have unnecessarily prolonged the session, and voted themselves three dollars per diem for the additional number of days over the one hundred, for which the law provides they shall receive but one dollar and fifty cents—they have voted the enormous sum of fifteen hundred dollars of the people's money to defray the expenses of the "Kosuth reception," a large proportion of which was for Segars, Champagne etc. We suspect they have a few bottles left, judging from what we witness every evening in the Senate chamber. We might enlarge on this subject and show how the people's time has been wasted and the public money squandered; but we think we have given enough to show that our Legislators have done something—a great deal more, we believe, than many of them will have the privilege of doing in a future Legislature, if the people understand their interests. Mr. Snell told the truth when he said the Legislature of this session was "a nuisance and a disgrace." An "honest confession," considering that the party to which Mr. S. belongs is largely in the majority in the House.

Foreign News.

By the Europa at New York, we have news from Liverpool to the 24th ult.—Flour and grain had advanced in price—the former 6d. a barrel, the latter a shilling per quarter. Cotton was firm, without change. Money was very abundant and the Bank of England had reduced their rates to 2 per cent.

By the overland mail from India an account has been received, stating that 231 native emigrants left Madras on the 3d of December, for Mauritius. During a gale on the 23d, the hatches were fastened down, and every one of the poor wretches perished from suffocation.

A telegraph despatch from Vienna, says that the prosecutions against the mother and sisters of Kosuth, have been suspended, and they are to be allowed to join their son and brother in America.

The cholera has again broken out in Persia.

On Thursday, in the house of Commons, the subject of abolishing the stamp duty on newspapers, and the duty on advertisements, came up for consideration. Mr. Gibson made a long speech in favor of abolishing all taxes on knowledge, and introduced a motion to that effect.

The Chancellor of Exchequer said he looked on the question as one of revenue and thought that the government could not afford to lose a million and a half per annum. At his suggestion, the discussion was postponed till Friday week.

Flax planting was going on extensively in the north of Ireland.

The accounts from the gold mines of Australia were very flattering.

Computing interest.

Several items are going the rounds of the papers, suggesting the shortest way of computing interest at 6 per cent. One writer says, "multiply the dollar by the days and divide by 6—cut off the last figure of the product, and you have the answer." The best rule we know of, and which the writer has used many years, and considers really valuable, is this:—The dollars of the principal sum is the interest in cents, for precisely two months. For instance, the interest for two months on \$57 is 57 cents. This gives the exact fraction. Again: the dollars of the principal sum is the interest in mills for precisely six days. For instance; the interest on \$50 for six days, is 85 cents; for two months it is \$5.50. With these simple rules fixed in the mind, any one can very readily compute interest, and with entire accuracy.

Monmouth Inquirer.

Washington's "Charmed Life."

Of eighty-six officers, twenty-six were killed (in Braddock's action), among them Sir Peter Halket, and thirty-seven were wounded, including Gage and other field officers. Of the men, one-half were killed or wounded. Braddock braved every danger. His secretary was shot dead. Both his English aids were disabled early in the engagement, leaving the American alone to distribute his orders. "I expected every moment," said one whose eyes were on Washington, "to see him fall." Nothing but the superintending care of Providence could have saved him. An Indian chief—I suppose a Shawnee—singled him out with his rifle, and bade others of his warriors do the same. Two horses were killed under him; four balls penetrated his coat. "Some potent Manitow guards him," exclaimed the savage "Death," wrote Washington, "was leveling my companions on every side of me; but, by all-powerful dispensations of Providence, I have been protected." "To the public," said Davis, a learned Divine, in the following month, "I point out that this heroic youth, Col. Washington, whom I cannot but hope Providence has preserved in so signal a manner for some important service to his country." "Who is

Mr. Washington?" asked Lord Halifax, a few months later. "I know nothing of him," he added, "but they say he behaved in Braddock's action as bravely as if he really loved the whistling of bullets."—*Bracraft's American Revolution.*

**ADJOURNED
Orphan's Court Sale
OF A
VALUABLE TANNERY
AND
REALESTATE.**

Late the property of S. Meyer, dec'd.

By virtue of an order of the Orphan's Court of the County of Monroe, will be sold at public sale at the Court House in Stroudsburg, on Monday, May 24, 1852, at 2 o'clock P. M., a valuable stone tannery and three contiguous tracts of land containing about 42 acres. The tannery is 75 feet by 58 feet, with an addition of 25 feet, three stories high, containing 48 vats, all as good as new; a bark shed, 16 by 90 feet. The whole is well and substantially built, and contains all necessary tanning tools and apparatus, with one of the best water powers in the county.

On the same property is also a large frame dwelling house, well finished—frame barn, store house, and wagon house. The land is nearly all improved, and in a high state of cultivation, adjoining lands of John Edinger and others, in Bartonsville. The above property has many advantages as a tannery; it is on the North and South Turnpike, and in a neighborhood where oak and hemlock bark is plenty and easily to be had, and is estimated to tan 9000 hides per year.

It is very seldom that a better opportunity is offered to a man with a moderate capital to go into the tanning business. Everything about the works has been got up very substantially. Terms and conditions shall be known at the time of sale by the undersigned.

JAS. H. WALTON,
JOHN EDINGER, } Executors.

By order of the Court.
