Times. We shall increase our variety by importations from the continent of Europe, and from the new growth of the Britisn colonies. The steamship has brought Europe, Asia,

and Africa into our neighborhood and will greatly multiply our connections, as Merchants, Travellers, and Politicians, with all parts of the world so that much more than ever it now becomes every intelligent Amerstand, and respectfully solicits a continu- ican to be informed of the condition and

changes of foreign countries. And this not only because of their nearer connection with ourselves, but because the nations seem to be hastening, through a rapid process of change, to some new state of things, which the merely political prophet cannot compute or forsee.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, will be favorite matter for our selections; and, in ing purchased the entire general, we shall systematically and very fully acquaint our readers with the great department of Foreign affairs, without entirely eglecting our own.

While we aspire to make the Living Age desirable to all who wish to keep themselves informed of the rapid progress of the movement-to Statesmen, Divines, Lawyers, and Physicians-to men of businhss and men of leisure-it is still a stronger object to make it attractive and useful to their Wives and Children. We believe that we can thus do some good in our day and generation; and hope to make the work indispensable in every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

We hope that, by 'winnowing the wheat from the chaff,' by providing abundantly for the immagination, and by a large collection of Biography, Voyages, Travels, History, and more solid matter, we may produce a
