

From the Bedford Gazette.

Wm. Searight.

Some of the Democratic news-papers are attempting to hide the enormity of the letter said to have been written by Mr. Searight to Mr. Keys by attacking the character and motives of Hugh Graham. They talk about everything else except the letter, whilst that is the only point in the case! Now, it does not matter who Hugh Graham is—what he is—or how debased he may stand in the estimation of the world—even though he were the original instead of the second edition of Peg Beatty—the question to be met is, did Searight write the letter acknowledging himself “guilty of forgery and the Penitentiary staring him in the face?” Dr. Sturgeon has not yet answered the interrogatory, and we fear he will not. On the other hand, M. Allen, Esq., the present Democratic Sheriff of the county of Fayette, together with several other prominent Democrats, certify that they have seen the letter purporting to be a letter from Wm. Searight to Hugh Keys, dated February, 14th, 1840. That they are well acquainted with William Searight's hand-writing, and have no hesitation in saying that the whole of said letter is in the hand writing of William Searight."

In addition to this, several of the signers to a card recently published branding the letter as a forgery, have appeared in a second card declaring that they were ignorant of the contents of the paper they first signed, and do not know whether the letter charged upon Mr. Searight is true or false!!!

This matter has to be met. If the Convention which assembles in Harrisburg on the 26th inst., can satisfy themselves and the Democracy of the State that that letter is a forgery, all will be right. If they cannot, and do not act in the premises, they will assume a fearful responsibility.

The following extract from that able and spirited Democratic Journal, the Ebensburg *Sentinel*, is truly indicative of the course that will be pursued by the great body of the Democratic Party:

The Bedford *Gazette* says “that if the whole affair is not cleared up, Mr. Searight will be defeated, and that his name shall be taken from the head of that paper.” The letter is likely to be disproved. However, the *Gazette* is right, and it sufficient evidence is produced to prove the letter a forgery, there is no man ready to do more to promote the election of Col. Searight than its editor, Gen. Bowman. The present position of the *Gazette* will be sustained by all honorable, high-minded men; while the fact of the editor not allowing his democracy to lead him into the support of a dishonest person, (if Searight is proven so,) speaks for him to the good sense of every honest-hearted man. It were well if every journalist would do likewise; corrupt and base men would then be taught to know that there are considerations which rise above mere party allegiance, and the character of the State, the dignity of the Republic, the purity of party, and the worth of the citizens would be increased, not diminished.

If the letter is true, and we doubt it, there could be no expectation of victory so far as Mr. Searight is concerned, and in that event we fail not nobly, but like Lucifer. Our position is this. We hope the letter may be proven *false in every particular*—we trust for the good of the party to hear from Searight himself, so soon as he recovers from his illness, whether the letter is a forgery or—not if it is forged he can be elected by a majority of twenty thousand—if it is true he will be defeated by twice that amount and his flag shall not float from the mast head of the *Sentinel*, for the reason that we prefer honor to victory—moral rectitude and defeat to dishonor and success.

We have seen a toast like this:—“Woman—She needs no eulogy, she speaks for herself.” And sometimes for the whole neighborhood, says an old bachelor of our acquaintance.

On Saturday week, five negroes, who confessed to having murdered Mr. James Houston, in McIntosh county, Ga., were tried by a meeting of citizens, found guilty, and immediately hung.

IT SHOULD BE UNIVERSALLY KNOWN—for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases.—Dysentry, diarrhea, cholera morbus, liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that dyspepsia! think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once (don't delay a day) to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alternative, curative, and invigorant, stands alone and unapproached. General depot, 120 Arch street. We have tried these Bitters, and know that they are excellent for the diseases specified above.—Philadelphia City Item.

Mechanics, Manufacturers and Inventors.

The Eighth Volume of the *Scientific American* commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is evidently calculated to advance the great interests of industry—*Mechanical Manufacturing and Agricultural*—the genius and master-spirit of the nation.

It is unrivaled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The Publishers pledge themselves that the future Volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Agricultural Implements, Manufacturing of Metals, Fibrous and Textile substances, Machinery for the purpose, Chemical Processes, Distilling, Coloring, &c. Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water-wheels, Wind and Grinding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all the Patents, Reviews, Notices of new Inventions, American and Foreign. The work is in form containing several hundred Engravings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the Largest List of Subscribers to this Volume. It is published weekly, by MUNN & CO., at their Patent Agency Office, 128 Fulton Street, New York.

HORSES MADE SOUND

BY THE

Horse Owner's Secret,

Being a new and certain remedy for the speedy

Cure of Heaves,

By SIR JAMES LYNDONTON,

Principal Farrier to his Royal Highness

Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a certain and positive cure for the Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at an store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals. It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says:

APPLETON, Ohio, July 21, 1852.

MR. DUNBERTON.—I have tried your Secret for the cure of Heaves, and approve of it very much. Yours, truly,

[Witness, G. Long.] S. LAKE, Horse Dr.

JOB WORK

Neatly executed at this Office.

IN THE MATTER OF THE PETITION OF THE BURGESS AND COMMON COUNCIL OF THE BOROUGH OF STRoudSBURG.

And now, May 28th 1852—Petition presented, praying that they may become subject to the provisions of the Act of Assembly, entitled an act to regulate boroughs, approved the 3d day of April 1851. The Court order notice of the said application to be given for the space of three weeks, in the newspapers published in the borough of Stroudsburg, to the inhabitants thereof, to appear at the next Court of Quarter Sessions, and remonstrate against the application if they see proper.

From the record,

M. H. DREHER, Prothonotary.

LIVER COMPLAINT, JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASES OF THE KIDNEYS,

and all diseases arising from a disordered Liver or Stomach, such as a constipation, inward piles, fullness or blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness, or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried and difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency or perspiration, yellowness of the skin & eyes, pain in the side, back, chest, limbs, &c. sudden flushes of heat, burning in the flesh, constant imaginings of evil and great depression of spirits, can be effectually cured by

Dr. Hoofland's celebrated German Bitters,

PREPARED BY

DR. C. M. JACKSON,

at the German Medicine Store, 120 Arch st. Philadelphia. Their power over the above diseases is not exceeded—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and afflictions of the digestive organs, they are without, safe, certain and pleasant.

Read and be Convinced.

From the Boston Bee.

The editor says, Dec. 22nd—Dr. Hoofland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy.

We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration.

They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances.

We are speaking from experience, and to the afflicted we advise their use.

SCOTT'S WEEKLY, one of the best Literary papers published, said, Aug. 25—

Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

More Evidence.

The Hon. C. D. Hineline, Mayor of the City of Camden, N. J., says:

Hoofland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits.—From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep restful.

If this medicine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemic generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit.

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to female or infant with safety and reliable benefit at any time.

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious.
