copies of the Lady's Book, and a set of the plates to each subscriber. For Ten Dollars we will send five copies of the Lady's Book, and a copy to the person sending the Club, and a set of plates to each.

For One Dollar we will send the Lady's Book, 4 months, and for 25 cents any one No. Postage to be paid on all orders.

Address: L. A. GODEY, 113 Chesnut street, Philada.

JUST PUBLISHED. Sartain's Union Magazine OF LITERATURE AND ART, For January, 1849.

Eighty pages of letter press on new and extra fine paper, three superb Mezzotint Engravings, and eight other varied illustrations, and contributions from the pens of the following talented authors:

Rev. Albert Barnes, Professor James Rhoads, Miss Eliza L. Sprout, Mrs. L. H. Sigourney, Mrs. E. F. Ellet, Mrs. E. C. Kinney, W. H. C. Hosmer, John Neal, Professor James Lynd, Augustine Duganne, Rev. G. W. Bethune, D. D., Henry T. Tuckerman, Mrs. Francis S. Osford, George H. Baker, Rev. John Tord, D. D., Alfred B. Street, Mary Smith, John Brown Jr., Marion H. Rand, Mrs. C. P. Townsend, Charles J. Peterson, George S. Burleigh, C. H. Wiley, Joseph B. Chandler, Mrs. B. M. Brotherson, Professor Joseph Allen, Anne C. Lynch, Mrs. C. M. Kirkland, Rev. W. H. Furness, D. D.

The public are already aware that the Union Magazine has changed residence, as well as changed hands, since the publication of the December number.

It is confidently believed that the patrons of the Magazine will find signs of improvement as well as change in its external appearance.

AN ORIGINAL NOVEL. A special feature for the present volume will be the publication of an Original Novel, the manuscript of which has been purchased for its intrinsic merit.

Another feature will be a series of Stories by Professor ALDEN, of Williamstown, Mass., illustrating the times of the early puritans.

The following splendid Engravings, suitable for Parlor Ornaments, have been engraved at an expense of more than \$1000, and are offered as premiums in connection with the Magazine.

Large whole-length Portrait of Gen. Z. Taylor. Represented resting on his war horse, Old Whitey. Engraved on steel, in Mezzotint, by J. Sartain, from Daguerrotype taken from life expressly for this plate.

Gronpof Portraits of the Washington Family. Including Gen. Washington, Lady Washington, Eleanor Parke Custis, George Washington Parke Custis, and Washington's favorite servant. Engraving in Mezzotint, on steel, by J. Sartain, from the original by Savage. Size, exclusive of margin, 24 by 16 inches.

Remember, our Premiums are not from old worn out Magazine plates, nor worth the postage on their transmission, as is the case with the offers of some other Magazines.

One copy of the Magazine, and one of the Premiums, \$3 00 Two copies, 5 00 Five copies of the Magazine and one of the Premiums, and a copy of the Magazine extra to the Agent, 10 00 Single copies, 25 cts

THE LITERARY CHARACTER OF GODEY'S LADY BOOK. With such writers as Miss Leslie, Grace Greenwood, W. G. Simms, Mr. Ellet, T. S. Arthur, Mrs. E. Oakes Smith, Mrs. J. C. Neal, H. T. Tuckerman, H. W. Herbert, &c., the Author of the Widow Boddit, Professor Frost, Bryant, Longfellow, Holmes, and a host of others, must always take the lead in literary merit.

For Three Dollars we will send the Lady's Book, containing more reading than any other monthly, and the Lady's Dollar Newspaper published twice a month, which contains as much reading as any of the 83 periodicals of the day, making three publications in one month or if the subscriber prefers the following splendid engravings to the Lady's Dollar Newspaper, (although we would not advise it, as engravings cannot be sent through the mail without being crushed or creased.)

For Five Dollars we will send two

CALIFORNIA GOLD! DISCOVERED BY SIGNOR D'ALVEAR'S GOLDMETER, THE GOLD SEEKER'S GUIDE!

Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches.

The first discovery of Gold in California was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic Instrument, called

The Goldometer, or Gold Seeker's Guide! Signor D'Alvear has just arrived at New York from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California generally.

History of the Discovery. Signor D'Alvear went out to California nearly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm belief that vast mines of precious metals would be revealed there, upon careful investigation.

He was encouraged to this enterprise, also, by his confidence in the powers of a certain Magnetic Instrument which he had invented, called the "Goldometer," by whose aid he expected to be directed at once to the "Gold Places," if any such existed.

His expectations were disappointed. His scientific calculations proved to be founded in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacramento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians.

Disguising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than \$3,000 worth of gold in a single day, which he concealed in a deep ravine, with an exciting any suspicion whatever, until after the discovery of gold at Capt. Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer," the richest in all California, was beset with greedy adventurers.

It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds of sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers," and selling out the right of digging to the gold workers.

Manufacture of the Goldometer, and Publication of the Guide. Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the GOLDOMETER, which he now offers for sale, in the United States, at the remarkably low price of THREE DOLLARS each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from the ancient and modern sciences, or

The Art of Finding Mines of Gold! Silver, Platinum, Quicksilver, Coal, Iron, Lead, and other Mineral Riches, the whole being given in a publication called the Gold Seeker's Guide.

This new work, and the GOLDOMETER, are both now ready for sale. The GOLDOMETER is so simple an instrument, that a child may learn to operate with it in five minutes. It is not affected by climate, moisture, or any other known cause, (except the natural magnet,) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may use the instrument at once with perfect success.

Farmers and Land Owners. Farmers and Land Owners throughout the United States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of wealth in their estate.

Adventurers to California. Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold, as has been proved by the most abundant experiment both in California and the United States.

Testimonials. Signor D'Alvear does not deem it necessary to recumber this notice with a long list of testimonials in favor of the value of his GOLDOMETER, and GOLD SEEKER'S GUIDE. The brilliant results of his labors in California, and the discovery, this very week, of fresh veins of Gold in Virginia, and of Gold in Rhode Island, by its use, are sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind, induce him to dispose of it at the low price for which he offers it. Besides this, his own desire for wealth is nearly satisfied.

The following Testimonials, in proof of the value of his instrument, selected from a great number equally satisfactory, must suffice for the present:

ASTORIA, NEW YORK, Dec. 21, 1848. The undersigned, having this day witnessed the practical operation of Signor Jose De Alvear's newly invented magnetic instrument, the GOLDOMETER, feel entirely satisfied that it possesses the extraordinary power of detecting Mineral veins hidden beneath the surface of the earth, and have no doubt that it will prove an invaluable aid in the discovery of the Mineral resources of the United States and the world.

J. R. DRAPER, JR., CHEMIST. I. S. TIERMANN, MAGNETIC MAXIM. G. S. DANA, GEOLOGIST.

LOS ANGELES, CALIFORNIA, AUGUST 1849. This I certify that the undersigned has fully convinced that Signor Jose De Alvear is the first discoverer of the Gold deposits of California, and that this discovery was made by the aid of a Magnetic Instrument called the Goldometer, which I have seen successfully applied to the discovery of veins of Gold ore, in places where no indications of that substance appeared upon the surface of the earth.

T. W. SHERMAN, Lieut. 3d Artillery U.S. Army. No Agents.

In consequence of the difficulty of finding faithful agents, and of preventing fraud, where articles of this nature are sent out for general sale, Signor D'Alvear has determined to sell none of his work or instruments unless ordered by letters sent directly to him, when the desired publication, or instrument will be forwarded under his signature and seal, so that all doubt as to its genuineness may be removed.

BEWARE OF ALL IMITATIONS of this Instrument which may hereafter appear. The only person who has the right to use the name of Signor D'Alvear, in connection with the name of his instrument, is the undersigned. The price of the GOLDOMETER, and GOLD SEEKER'S GUIDE, in the retail trade, as extracted by Signor D'Alvear from the Sacramento Mines, and when held within the magnetic influence of the precious metal, and the magnetic power in which it indicates the presence of that, and other metallic substances.

BEWARE OF ALL IMITATIONS of this Instrument which may hereafter appear. The only person who has the right to use the name of Signor D'Alvear, in connection with the name of his instrument, is the undersigned.

OFFICE for the sale of the GOLDOMETER, GOLD SEEKER'S GUIDE, and GOLDOMETER, No. 28 CENTRAL ST. New York City, where visitors may see several chests of California Gold, in the retail trade, as extracted by Signor D'Alvear from the Sacramento Mines, and when held within the magnetic influence of the precious metal, and the magnetic power in which it indicates the presence of that, and other metallic substances.

Raymond's OREGON PILLS. QUESTION: what's your pills good for? Answer: They are good in many cases to leave the Doctors at home in peace; to tend the plow and follow their agricultural pursuits unnoted.

No, but they will relieve as many family complaints as any other pill in the U. S., and are warranted to cure the dysentery if taken according to directions. This medicine is the invention of a celebrated and learned physician living near the Catskill mountains, New York. It will bear its own credit if used enough to feel its effects, and hundreds of respectable names, in any of the counties of Luzerne and Wyoming could be presented to the public as a recommendation to this pill; but the proprietor would forbear, as it is generally calculated that those who purchase pills, small in size at a cent each, do also pay the printers' bills, &c.

THE OREGON PILLS are of two kinds, one Anti-Dysentery, the other Anti-Bilious, are made by JOHN RAYMOND, and sold by Phelps, Durham, Ostrichers, Tunkhannock; Gordenier, Nicholson, A. C. Smith, Eaton; H. Elsworth, Sterling, Washington; C. Sturdevant; A. Knapp, Springville; L. V. Mechoption; Guleik, Fall; Swarwood, D. Austin, Northumberland; Benjamin & Gardner, Exeter; H. Woodhouse, New York; Gilder-leave, Wilkesbarre; Benedict, Pittsford; Winton, Providence; Gaudier & Co Abington; Wells, Dunfaff; Babcock, Dimock

An Universal History. FROM THE INFANCY OF MAN TO THE PRESENT TIME. By G. C. HEINE L. D. New ready, 1st volume bound in cloth. Price \$1 50, and to be continued in monthly parts, until finished, five numbers forming a volume, 25 cts. per number.

The author of this work seems to have had in constant view the celebrated treatise of Lucian—"How a history ought to be written." Truth in its severity, and reason in its manly state, are the chief objects and graces to which he has done violence. What a different view has been opened to us of the state of nations of by-gone ages, from that which has been presented to us by other historians!

This beautiful octavo—the first volume of Dr. Hebbe's Universal History—forms the initial volume of a new and greatly improved work, devoted to the history of the Universe, based not merely upon the usually received data of former historians but derived from the best authorities, attested by revelations of modern discovery. The recent researches in archeology by Chevalier Bunsen, and other learned investigators, among ancient monumental records, have so entirely changed the aspect of primitive times and revealed so many important new data, that the wonder has been not that such a work as the present should make its appearance but rather that the task should not have been before attempted in Europe. From a somewhat superficial examination of this volume, however we find no cause to regret that the theme should have been reserved for the judicious and laborious pen of Dr. Hebbe. To such as cannot command the leisure for more systematic course of study, this work proves eminently important and valuable, since, when completed, it will form a compendious library of universal history, the most accurate and complete extent, and written up to the spirit of the age.

In regard to the literary execution of this work, we have spoken, as the numbers appeared but not as fully as its merits deserve. Now, on re-examination, we hesitate not to pronounce that this volume, as a history of the earliest period of mankind, has no rival in any single work of universal history in the English language.

The author of the Universal History, now in publication, judging from the portion of it already published, is equal to his task. He comes to it prepared by twenty years of study, and a familiar acquaintance with all the necessary authorities, not only those to whom we look for solid records of facts but those who have gone beneath the surface of events, and tracked the source of political convulsions by a thousand paths back to the hidden heart of some great principle.

Dr. Hebbe, by availing himself of the light which the Egyptian hieroglyphs and their investigations of antiquity have shed on the earliest history of man, by means of his vast erudition enabling him to avoid the errors of compilers; and to draw from the original and most unobscured sources of authority, and by his acute judgment, his liberal philosophy, his deep sympathy with humanity, and his enthusiastic love for his favorite study has produced what may be termed in many respects an original history of the infant nations of the world. The work is written in the most enlarged and liberal spirit, while the author rejects the superstition of the ancient priesthood, he is a stout defender of the immortal and sublime truths of Christianity.

The style of Dr. Hebbe, though writing in a tongue foreign to him, is always flowing and animated, sometimes picturesque, and sometimes even eloquent and sublime. This work appears in monthly numbers—seven numbers now ready.

A liberal discount to the trade. Sent by mail to any part of the country.

DEWITT & DAVENPORT, Tribune Buildings, Nassau street, New York.
