"HELP ONE ANOTHER."

The Wyoming County Mutual Fire Insurance

COMPANY, incorporated by Act of Pennsylvania Legislature, approved April 26, 1850, is now ready to receive applications for insurance, on the mutual principle, on most kinds of property exposed to destruction by fire. All who insure in this Company will share in the profits and losses, and each will have a vote in the election of officers,—access to the books at all times,—and a voice in directing its operations.

The following are the Directors for the year ensuing:

JOHN BUNNELL, BRADLEY WAKEMAN.
S. D. PHELPS, JABEZ JENKINS,
STEPH. CAPWELL, A. K. PECKHAM,
HENRY ROBERTS, ANDREW GORDENIER
R. R. LITTLE, THOS. OSTERHOUT,
ASA S. DANA, ALFRED HINE,
JOHN FASSET.

OFFICERS.

President, SHERMAN D. PHELPS.
Treasurer, JOHN BUNNELL.
Secretary, MILTON DANA.
S. H. TAYLOR, General Agent.

Not more than $2000 taken in one risk, and no Steam or other extra-hazardous property insured.

Amount of advance premium on $1000 safe farm property, for a five-years' insurance, $4.50, including survey and policy. Other property according to risk.

To avoid litigation, a by-law has been adopted that the Company shall be responsible for the correctness of all surveys made by their Agents. No sub-agents allowed.

Acting upon the plan of taking no buildings not well secured, and no large risks; and adopting the most economical plan of expenditures, the Directors confidently anticipate that insurance in the Wyoming Company will prove as safe and as cheap as in any one in the State.

Applications for insurance or for agencies to be addressed to R. R. LITTLE, Chairman Executive Committee, or to MILTON DANA, Sec.

THE UNITED STATES LIFE INSURANCE, ANNUITY, AND TRUST COMPANY,

Charter perpetual—Cash System—Capital $250,000.

OFFICE NO. 28, MERCHANTS' EXCHANGE, PHILADELPHIA.

THIS Company is organized upon the "mixed principle," stock and mutual, which combined features offer to insured members double the usual security. The cash system of payments has also been adopted, thus avoiding the heavy drawbacks created by unpaid premium notes. The table rates of premium, upon which its policies are being issued, is the only scale experience has proven should be adopted as affording requisite security to the insured, and an undoubted guaranty of the perpetuity of such institutions. Life insurance, very properly, is arresting the attention of the world. The public however, in their commendable willingness to embrace and employ its wise and salutary provisions, should make ultimate security the primary and most important object, which can only be attained by so adjusting the premiums as to anticipate unexpected losses and fluctuations of every kind. It is the purpose of this company annually to credit, upon the policies of the holders and books of the company such an amount of profits as shall not affect the stability or impair the sacredness of its contracts;—thus the holder of a policy of several years standing may be entitled to an amount considerably exceeding the original insurance. Premiums may, at the option of the insured, be made annually, semi-annually, or quarterly. Policies will at all times be purchased by the company at a fair valuation. Married women can insure the lives of their husbands free from the claims of creditors. A creditor may insure the life of a debtor. Insurance may be effected for a term of years or for life; also on two joint lives, the money to be paid on the death of the first or last.—The following is a sample of the rates per annum:

Age	for 1 year.	7 years.	for life	Age.	for 1 year.	7 yrs.	for life.
20	$0,91	$0,95	$1 77	40	$1,69	$1,83	$3 2e
30	1,31	1,35	2,35	50	1,95	2,09	4,00

The above is the amount payable on $100 insurance. The following are the officers of the company:

STEPHEN R. CRAWFORD, Pres't.
AMBROSE W. THOMPSON, V. Pres't.
CHAS. G. IMLAY, Sec. and Trea.
Actuary, MANUEL EYRE.
JAMES DURNO, Gen. Agent for Penn'a.

TO MECHANICS, INVENTERS AND MANUFACTURERS.

THE publishers of the SCIENTIFIC AMERICAN respectfully give notice that the VIth Volume of this valuable journal will be commenced on the 21st of September, offering a favorable opportunity for all to subscribe who take an interest in the progress and development of the Mechanics, Arts and Manufactures of our country. The character of the Scientific American is too well known throughout the country to require a detailed account of the various subjects discussed through its columns.

The aim of the publishers has always been to render it the most thorough and useful scientific journal in the country; and to judge of this, by comparing its circulation and influence with other publications of the same class, they have the unequivocal evidence of its value as the leading exponent of the Arts and Sciences.

It will be published weekly as heretofore in quarto form on fine paper, affording at the end of the year an ILLUSTRATED ENCYCLOPÆDIA of over 400 pages, with an Index, and from 500 to 600 ENGRAVINGS described by letters of reference, besides a vast amount of practical information concerning the progress of SCIENTIFIC and MECHANICAL IMPROVEMENTS, CHEMISTRY, CIVIL ENGINEERING, MANUFACTURING in its various branches. Agriculture, Masonry, Botany—in short it embraces the entire range of the Arts and Sciences.

It also possesses an original feature not found in any other weekly journal in the country, viz. an official list of PATENT CLAIMS, prepared expressly for its columns at the Patent Office, thus constituting it the "AMERICAN REPERTORY OF INVENTIONS."

In connection with the publishing department, the publishers transact the most extensive Home and Foreign Patent business done in this country; consequently their facilities must be correspondingly superior.

TERMS: $2 per annum, in advance—$1 for six months.

Letters must be post paid and directed to

PREMIUM.—Any person sending us three subscribers will be entitled to a copy of "the History of Propellers and Steam Navigation," published in wookform, now in press, to be ready about the first of October. It will be one of the most complete books upon the subject ever issued, and will contain out 20 engravings.

CAUTION EXTRA.

A man by the name of RUEL CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr. for the purpose of gaining credit for what he is not. He is also sending out cards headed, "Tricks of Quacks," in which he says, I have sold the use of my name for $7 a week. I will give S. P. Townsend $500 if he will produce one single, solitary proof of this. This is to caution the public not to be deceived and purchase none but the GENUINE, ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms.

JACOB TOWNSEND,
Principal Office, 102 Nassau-st., New York City

TOWNSEND SARSAPARILLA.

The Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful

HEALING POWER.

Knowing, *many years ago*, that he had by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied, this

Grand and unequalled Preparation

is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on *scientific principles* by a *scientific man*. The highest knowledge of Chemistry and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce *fermentation* and *acid*, which is injurious to the system. Some of the properties of Sarsaparilla are *so volatile*, that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process*, known only to those experienced in its manufacture. Moreover, these *volatile principles*, which fly off in vapor, or as an exhalation, under heat, are the very *essential medical properties* of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from any thing else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSARPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid, or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women and children. We find it doing wonders in the cure of *CONSUMPTION, DYSPEPSIA*, and *LIVER COMPLAINT* and in *RHEUMATISM, SCROFULA, PILES, COSTIVENESS*, all *CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES*, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach*, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in COLDS and COUGHS; and promotes easy expectoration and gentle perspiration, relaxing strictures of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus or Whites, Falling of the Womb, Obstructed Suppressed or Painful Menses, Irregularity* of the menstrual periods, and the like; and is as effectual in curing all the forms of *Kidney Diseases*.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies, as *Spinal Irritation, Neuralgia, St. Vitus's Dance, Swooning, Epileptic Fits, Convulsions*, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration; relaxes all strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this then the

Medicine you pre-eminently need?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that one is INCAPABLE of DETERIORATION, and

NEVER SPOILS,

while the other DOES; *souring, fermenting*, and *blowing the bottles* containing it into fragments; the sour, acid liquid exploding and damaging other goods!—Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischief it produces? Bilulence, heartburn, palpitation of the heart, liver complaint, diarrhœa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Heads, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour, or acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr. Jacob Townsend's *Genuine, Original Sarsaparilla*, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to *S. P. Townsend's article!* and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND.

We wish it understood, because it is the *absolute truth*, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are *heaven-wide apart and infinitely dissimilar*; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine, designed for

Weak Stomachs and enfeebled Systems,

should know well the medicinal properties of plants, the best manner of concentrating and securing their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to the several diseases!

SOLE AGENCY.—Dr. Wright's Indian Vegetable Pills in Tunkhannock, by

A. H. BOLLES.

July 17, 1850.

MOFFAT'S

Life Pills and Phœnix Bitters.

These Medicines have now been before the public for a period of **FIFTEEN YEARS**, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the **LIFE MEDICINES** are purely and solely vegetable; and contain neither **Mercury**, nor **Antimony**, nor **Arsenic**, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened feces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhœa with its imminent dangers. This fact is well-known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the **VEGETABLE LIFE MEDICINES** is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the diseases in which the **VEGETABLE LIFE MEDICINES** are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; **Flatulency**, Loss of APPETITE, HEARTBURN, HEADACHE, RESTLESSNESS, ILL-TEMPER, ANXIETY, LANGUOR, and MELANCHOLY, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure,

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

Diarrhœa and **Cholera**,, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Also **Worms**, by detaching from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and **Consumption**, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

Scurvy, Ulcers, and **Inveterate Sores**, by the perfect purity which these **LIFE MEDICINES** give to the blood, and all the humors.

Scorbutic Eruptions and **Bad Complexions**, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of **Salt Rheum**, and a striking improvement in the clearness of the skin. **Common Colds** and **Influenza** will always be cured by one dose, or by two even in the worst cases

PILES. As a remedy for this most distressing and obstinate malady, the **VEGETABLE LIFE MEDICINES** deserve a distinct and emphatic recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, Loss of APPETITE, AND DISEASES OF FEMALES—these medicines have been used with the most beneficial results in cases of this description:—KING'S EVIL and SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S COLIC, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of MERCURY, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS.

Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad.

PROFESSOR BARRY'S

Tricopherous or Medicated Compound

ENDORSED by the first Professional talent in the United States, its efficacy attested by thousands of well known citizens, sold at a price which places it within the reach of every family, recommended by journals of the best standing in the country, for specific and widely different purposes and everywhere in demand. Barry's Tricopherous may be fearlessly pronounced, on the most incontestible evidence, the best, the cheapest, the most popular preparation for restoring and beautifying the hair, eradicating scurf and dandruff, and curing all diseases of the skin, the muscles and glands, which has ever been offered to the public either in the old world or new. It stands alone—"It has no brother and is like no brother."—A volume of authentic and analytical proof of its value accompanies every bottle. To gainsay the record is impossible, for every purchaser adds one more to the legion of witnesses arrayed in its behalf. The philosophy of its operation is simple. Its first action is upon the skin. It gently stimulates every torpid vessel, and enables nature, by a vigorous, healthful effort, to throw off any inflammation, eruption or exfoliation of the external membranes. If the inflammation be caused by a cut, sprain, or bruise, the effect is the same. The absorbents are invigorated, the extravasted blood is soon taken up, and all pain and discoloration is removed. In Rheumatism, swelling of the glands, and all affections of the integuments, it acts specifically through the pores and absorbents upon the seat of the disease. Its wonderful effect in renewing, glossing, and beautifying the hair, are all produced thro' its primary influence upon the skin of the head. The invigorating fluid enables the scalp to perform its functions properly. The scurf and dandruff which a sluggish circulation has allowed to accumulate, are thrown off; the vegetative principle finds its way to the vesicles in which the hair is rooted, and they are supplied as it were with an *elixir vitæ*, which strengthens, moistens, glosses, and beautifies every fiber, until "each particular hair" becomes a healthy and elastic filament. The same fertilizing principle which causes existing hair to grow, stimulates the latent roots, and thus the fibres which have fallen out are soon replaced by new ones. Remember that this double antidote—this specific for diseases of the skin, and matchless beautifier of the hair—is sold from fifty to one hundred per cent cheaper than any other preparation for the hair out.

Sold, in large bottles, price 25 cents, at the principal office, 137 Broadway, New-York; Childs & Co., Phila.; Brown, Boston; Pontier & Hartlets, Baltimore; Haviland & Harrall, Charleston. For sale, also, by Druggists throughout the United States and Canada; and by

Raymond's OREGON Pills.

QUESTION: what's your pills good for? *Answer*: They are good in many cases to leave the Doctors at home in peace, to tend the plow and follow their agricultural pursuits unmolested.

Q. Will they cure everything?

A. No, but they will relieve as many family complaints as any other pill in these U. S., and are warranted to cure the dysentery if taken according to directions. This medicine is the invention of a celebrated and learned physician living near the Catskill mountains, New York. It will bear its own credit if used enough to feel its effects, and hundreds of respectable names as any in the counties of Luzerne and Wyoming could be presented to the public as a recommend to this pill: but the proprietor would forbear, as it is generally calculated that those who purchase pills, small in size, at a cent each, do also pay the printers' bills, &c.

The OREGON pills are of two kinds, one *Anti-Dyspeptic*, the other *Anti-Billious*—are made by JOHN RAYMOND—and sold by
