OR THE WORLD'S SALVE  
Contains no Mercury or other Mineral  
From the "Reading Eagle"  
There was never, perhaps, a medicine brought before the public that has in so short a time, won such a reputation as McALLISTER'S ALL-HEALING OINTMENT, OR WORLD'S SALVE.

Most every person that has made trial of it speaks warmly in its praise. One who has been afflicted by it of the most painful Rheumatism; another of the piles; a third of a troublesome pain in the side; a fourth of a swelling in the limbs, etc. all of them not give immediate relief in every case, can never do injury being applied outwardly. As another evidence of the wonderful healing power, possessed by this salve, we submit the following certificate, from a respectable citizen of Madison, New York, in this county.

# CAUTION EXTRA.

Be careful of the name of McALLISTER'S ALL-HEALING OINTMENT, OR WORLD'S SALVE, and use his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denigrating it as being the Original, etc. The Townsend's Sarsaparilla was never used, but was formerly a worker on the salve, and the like. Yet he assumes the title of Dr. for the purpose of gaining credit for his salve. He is also sending out cards reading, "Quack," in which he says, "I have sold the use of my name for 37 years." I will give S. P. Townsend the credit of his name, and will not permit my name to be used in connection with his salve, and purchase none but the GENUINE ORIGINAL, McALLISTER'S ALL-HEALING OINTMENT, OR WORLD'S SALVE, and his signature across the coat of arms.

# TOWNSEND SARSAPARILLA.

Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL, McALLISTER'S SARSAPARILLA. Being poor, he was compelled to limit its manufacture, by which means it has not been so generally known as it should be. It is a medicine of those only who had proved its worth, and known its value. It had reached the ears of many reverend men, and some persons who had been healed of serious diseases, and saved from death, pronounced its excellence and wonderful HEALING POWER.

Knowing, many years ago, that he had by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into general notice, when its healing and virtuous nature would be known and appreciated. This time has come, the means are supplied, this Grand and unequalled Preparation is manufactured on the largest scale, and is put out throughout the length and breadth of the land, especially as it is found incapable of deception or imitation. Unlike young S. P. Townsend's, it improves with age, and never changes, but for the latter, because it is prepared on scientific principles by a scientific man, and the best knowledge of chemistry and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr.'s Preparation. The Sarsaparilla root, a well selected and medicinal men, contains many medicinal properties, and some properties which are inert or useless, and others, which it retained in preparing it for use, produce a ferment and acid which is injurious to the system. Some of the properties of Sarsaparilla are so subtle, that they entirely evaporate and are lost in the preparation, if they are not reserved in their native purity, known only to those experienced in its manufacture. Moreover, these volatile principles, which are so essential to its efficacy, are so volatile, that they are lost in the preparation, if they are not reserved in their native purity, known only to those experienced in its manufacture. Moreover, these volatile principles, which are so essential to its efficacy, are so volatile, that they are lost in the preparation, if they are not reserved in their native purity, known only to those experienced in its manufacture.

# SHEPHERD'S SARSAPARILLA

Has many advantages over preparation which are now offered for sale, as it contains no drug which will prove injurious to the health, nor is it necessary to take such large quantities as of those which are put up in large bottles, and of which six times as much is taken at a time as is used of Shepherd's in a dose. Many persons have suppressed the bottles containing a large quantity to be composed of the same materials and possess as much virtue as Shepherd's; as a proof of this being an error we will refer the public to the fact of many persons being relieved of long standing diseases by Shepherd's Sarsaparilla after all others had failed; experience is the test of knowledge, and we have only to refer to the fact of the large bottles put up by various persons purporting to be sarsaparilla having sold largely until Shepherd's became introduced when their sales diminished in many places altogether.

We refer the public to the agents published below for pamphlet descriptions of Shepherd's Medicines, REMEMBER the doses of Shepherd's Sarsaparilla are six times smaller than the doses of those put up in quart bottles and it contains ten times the strength, and virtue, 32 doses for 75 cts in each bottle.

# SHEPHERD'S VERMIFUGE.

We have known one teaspoonful to expel 100 worms: this is a preparation which has saved thousands of children from untimely graves, it stands higher as a worm destroyer than any other preparation now offered for sale. Read the following certificate from Judge Koons of Luzerne Co., it speaks for itself.

Town Hill, Pa., Jan. 20, 1847.  
John Koons, Esq.—Dear Sir—You will please send me four bottles more of Shepherd's Vermifuge. The three bottles purchased of you a short time ago have been used with the happiest effects. They were given to three of my children—in one case 65 worms were expelled, in another 164, and the last 67. I am anxious to give the rest of my family the benefits of this medicine and therefore order as above.

# UNITED STATES VEGETABLE Purgative Pills.

This medicine is pre-eminent as a mild and efficient aperient, operating without griping or in any manner injuring the system, the name they bear is explanatory of the kind of ingredients of which they are composed and we assure the public they are strictly vegetable.

The great encouragement that has been given to these Pills, and the marked success attending their use in the various complaints for which they have been recommended, has compelled the proprietors to adopt a much more enlarged plan of their manufacture than heretofore, and which it is thought will be sufficient to supply the great and increasing demand for them. The well known superiority and numerous advantages possessed by these pills over those in common use has given them a most enviable popularity, and established them in the confidence of the intelligent and enlightened of the community, and are accordingly considered the most pleasant and efficient purgative medicine presented to the public. One of the most valuable and commendable properties they possess is the uniform mildness and great certainty of their operation; another is that they require no restriction on the part of the patient, occasioning no interference with the ordinary way of living, and may be used at all times with certainty and effect. Their being composed entirely of mild and efficient vegetable ingredients, gives them this important quality, thus adding to their general value. It is not generally known, although strictly true, that the greater number of pills now before the public are composed of ingredients so poisonous in their effect that when used for any length of time produce serious derangement of the digestive organs and very frequently an aggravation of the complaint they were intended to relieve, and in many cases produce a new and more dangerous disease. This is a matter which those who value their health should not pass over without duly reflecting upon; it has therefore received the utmost consideration of the United States Vegetable Purgative Pills, as their popularity and success may serve in part to evince.
