Professor A. C. Barry's Tricopherous, OR MEDICATED COMPOUND.
INFAILLIBLE for renewing, invigorating the Hair, Removing Scurf, Dandruff, and all eruptions of the Skin, and curing eruptions of the Skin, diseases of the glands, muscles, and intestines, and all the ills of the body, such as Croup, &c., &c. With this preparation, there is no such word as fall. The first journals in America, medical men of the highest eminence, eminent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, adorned with one or two, that, for imparting vigor, gloss, luxuriance, and curl to the hair, preventing scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and all the ills of the skin, the glands, and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article, have enabled the inventor to supply it at a retail at twenty-five cents per bottle, which is from fifty to one hundred per cent. less than the price of any other preparation now in use. The scientific qualities of the hair and skin (embracing valuable directions for the culture and preservation of Nature's choicest ornament) in which each bottle is enclosed, is alone worth the money.
The affinity between the membranes which constitute the skin, and the hair which draws its sustenance from this tissue, is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which supply the roots with moisture and imparts to the fibres, the result is scurf, dandruff, shedding of the hair, grayness, dryness and brittleness of the ligaments, and all the ills of the scalp, as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substance of muscles and intestines, the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injuries of these organs, it is a sovereign remedy.
Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York. For sale by the principal Merchants and Druggists throughout the United States and Canada. Beware of the counterfeits, old at one dollar per bottle.

INFAILLIBLE for renewing, invigorating the Hair, Removing Scurf, Dandruff, and all eruptions of the Skin, and curing eruptions of the Skin, diseases of the glands, muscles, and intestines, and all the ills of the body, such as Croup, &c., &c. With this preparation, there is no such word as fall. The first journals in America, medical men of the highest eminence, eminent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, adorned with one or two, that, for imparting vigor, gloss, luxuriance, and curl to the hair, preventing scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and all the ills of the skin, the glands, and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article, have enabled the inventor to supply it at a retail at twenty-five cents per bottle, which is from fifty to one hundred per cent. less than the price of any other preparation now in use. The scientific qualities of the hair and skin (embracing valuable directions for the culture and preservation of Nature's choicest ornament) in which each bottle is enclosed, is alone worth the money.
The affinity between the membranes which constitute the skin, and the hair which draws its sustenance from this tissue, is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which supply the roots with moisture and imparts to the fibres, the result is scurf, dandruff, shedding of the hair, grayness, dryness and brittleness of the ligaments, and all the ills of the scalp, as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substance of muscles and intestines, the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injuries of these organs, it is a sovereign remedy.
Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York. For sale by the principal Merchants and Druggists throughout the United States and Canada. Beware of the counterfeits, old at one dollar per bottle.
