A FARMER residing near Binghamton, Pa., cut his hand off while engaged in chopping wood. The ax caught in his clothing and the sharp blade fell across his left hand.

THE young men who stand around the church doors watching the people come out and trying to smile handsomely at the girls, will some day hang around the gates of heaven while decent people go in.

MRS. DINSMORE, mother of the Dinsmore boys of Beaver, was the recipient on Monday, of Uncle Sam's check for \$1,560, arrears of pension due her on account of the death of her son in the army in 1862.

THERE are fourteen counties in the State free from debt. These are Adams, Bradford, Butler, Centre, Columbia, Franklin, Fulton, Green, Luzerne, Mercer, Snyder, Susquehanna, Washington, and Westmoreland.

A GREAT snow blockade lately occurred on the Central Pacific Railroad. The snow having fallen to a depth of eight or ten feet. Several snow-slides added to the difficulty of locomotion, and caused the crushing of sheds.

RALPH BAGALEY, Esq., of Pittsburgh, one of the proprietors of the Evening Telegraph, of that city, has purchased 1,150 acres in Paint township, Clarion county, and proposes to erect a large saw mill on the tract.

UPON representations made by the Bee-keepers' Association, the Postoffice Department has decided to allow queen bees to be "carried in the mails with their necessary attendants, as no person is injured in handling them."

A SCIENTIFIC writer in the Quarterly Review asserts that a piece of bread about the size of a French billiard ball tied up in a linen bag and placed in a pot of boiling vegetables will prevent unpleasant odors arising from the same.

A WRITER in Harper's Magazine tells us that in 1774 George Washington was a member of the "Friendship Fire Company." It was thrilling to hear George shout through his horn, "Turn out the water! Turn out the water!" Although George was a freeman he couldn't tell a lie.

BUSINESS is quite brisk in Allegheny township, this county, the oil operations the continuing extension and productive. Mr. E. F. Hitchcock's coal mines are supplying the wells. Within the past month or so some thirteen thousand bushels of coal were taken from his coal banks to the wells.

ANOTHER terrific mine explosion occurred in England a few days ago, the number of victims being estimated at from seventy to ninety. That makes something like two hundred persons who have lost their lives in two disasters alone within a month. The new year opens gloomily enough in Great Britain.

THE United States Supreme Court decided lately, affirming the judgment of the Court of Claims, that an invalid pensioner who has contributed to the funds of the National Soldiers' Home during his term of service may avail himself of the benefits of that institution without surrendering his pension to the Home.

PRIOR to 1852 General Scott was almost idolized as a soldier by the people of all the States. In that year he accepted the Whig nomination for the Presidency, and Massachusetts, Vermont, Kentucky and Kansas, representing 42 electoral votes out of a total of 296, were the only States which he carried.

FINANCIAL debate broke out in both House and Senate last Wednesday. In the Senate Mr. Beck delivered a long speech in opposition to the Bayard resolution, and in the House there was discussion of the bill relating to National bank reserves, a sharp and rather amusing tiff occurring between Mr. Townsend and Mr. Chittenden.

WHEN the casual visitor to Butler arrives in front of Ritter & Ralston's store, he or she can easily imagine themselves before one of the fine stores on Federal street or Fifth avenue. The display of carpets and dry goods in their show windows is equal to those of any store in the two cities, and the stock back of the show windows is of the freshest and best.

THE moonshiners on Butler creek, in Wayne county, Tenn., have organized under oath to kill any revenue officer or marshal who goes into that locality. They killed W. A. Fowler for guarding Deputy Collector Davis and his friends. The revenue officers will not dare to go after wildcat concerns in that region without a sufficient force to overcome any resistance.

MR. PHILIP REMINGER, an old subscriber to our paper and well known in the whole surrounding country, informed us the other day, that his wife, who for two years had suffered with Rheumatism in the shoulder, during which time she had been treated by several physicians without success, had been completely cured by a single bottle of Dr. JACOBI'S - Rheumatism, etc., No. 13, 1879.

WARM the bits on your bridle in frosty weather before putting it in the horse's mouth. The bit full of frost coming in contact with the tongue and lips, adheres to these soft tissues the same as it would do when red hot, leaving the animal with a sore mouth. If you do not believe it, place your own tongue on a frosted iron some morning and be convinced.

THE skunk skin trade is just now yielding a fair revenue to many farmers in Franklin county, who make a business of hunting the strong-smelling but very docile little animals. The pelts find a ready sale at good prices, and a good skinner can realize more in a day's wages if he has any kind of luck. The season has not fairly opened in this county yet.

THERE is an abundance of talk among Congressmen about an early adjournment coupled with a plentiful lack of that pushing of business that will make the session short. With fair work Congress might get away by the middle of April. If there must be President making and politics carrying the session will in all probability draw its slow length along to the dog-days.

THE idea of finding proof of a man's guilt in admissions of crime implied in the incoherent ejaculations of a dream is, of course, preposterously foolish, but the circumstance is a proper one to justify an investigation by detectives as any other grounds for suspicion would be. The nuttings of a dreaming man in Chicago a week ago have led to his arrest on a charge of murder.

A NEW schedule went into operation on the West Penn Railroad last Monday. The Sunday trains are taken off the Branch, but still run up as far as Freeport, leaving that town at 8.30 a. m. and 5.25 p. m., and arriving at 2.55 and 11.28 p. m. The Market train leaves Butler at 5.06 a. m., five minutes earlier than before. No other changes.

CLOSE on the heels of the news of the great Tokio fire, in which scores of persons lost their lives and thousands of families found themselves left without a roof to shelter them, came the announcement that San Salvador has probably been levelled to the ground, for the third time, by an earthquake. Luckily the populace had timely warning of the danger that menaced them.

THE pension law as amended last year, granted a pension of \$72 per month to soldiers who lost both arms or both legs or incurred total blindness in the service. The Senate Committee on Pensions has just recommended the passage of a bill lately introduced extending the provisions of the law of last year to all soldiers who were totally disabled. The bill ought to pass without opposition.

THE Clarion Republican says that about one-third of all the seven millions of barrels of oil stocks is held by four men—Dr. Hostetter, of Pittsburgh, J. J. Vandergrift, President of the United Pipe Line; George H. Van Vleck, and Foster W. Mitchell, of Franklin. The latter alone holds a block of a million barrels. Russell Sage, the New York broker, also holds a large amount of certificates.

SOME of our readers who are so fortunate as to have money at interest will be pleased to learn that it has been decided that that class of property is only taxable for State purposes, which is only four mills on the dollar, and that for county, school or other purposes it is exempt. This decision will lighten the hearts of some who have been taking considerable trouble lest they be taxed into poverty.

NEITHER the Commonwealth nor the defence seemed very anxious to proceed with the trial of the Riot Bribery cases, and so they go over to next March. The defendants will gain no undue advantage by the postponement. The matter is now in better shape than before, as the accused have pleaded to the indictments, which is an admission of their technical sufficiency, and puts them to answer upon the merits.

A FEW days ago Mrs. Jos. Cook, of Wilkesbarre, Pa., was walking with a child at the breakfast table, on which a lamp was burning, while she stepped out for a few moments. When she returned she found her child burned to a crisp on the floor. The child had evidently drawn the lamp to it by the table cloth, when it upset and exploded. This may serve as a warning not to leave children and lamps together.

NEBRO insurrections, together with the wandering bands of desperado banditti who threaten to capture and sack entire towns, are among the chief accompaniments of the bloody war that is raging in South America. All that is wanting to complete the people's comfort is a series of hill-topping earthquakes, and there are hints that this want will at an early day be supplied. Take one consideration with another, life on the sunny Pacific slope of the Andes has its drawbacks.

ACCORDING to the law pronounced by a Western judge a man who is walking as much right to be in the road as a horse has. The driver of the horse having plenty of room, refused to turn out; saying the road belonged to him and his horse and wagon. The man who was injured took ordinary precaution, but the driver, who was a farmer in good circumstances and a deacon in the church, insisted that the man ought to be born down. The judge thought differently.

A LYNCHBURG, Virginia woman having discovered that her husband was a Republican, sued for a divorce on that solid ground. The Corporation Court of Lynchburg decreed that divorce, but it was overruled by the Court of Appeals. Judge Anderson dissented from the ground that the husband had been untrue, having gone over to the enemy, and that the moral taint of his action would cause the wife to be excluded from the best society of the State.

WE are in receipt of a beautiful Almanac published by the Philadelphia Record. The Record is now one of the best papers published in that city, and its popularity is shown by an average circulation of about 55,000 daily. It is, perhaps, the cheapest first class daily published in the country, the price per year to mail subscribers being but \$3, or 20c. per month. The Saturday edition, a large eight-page sheet, full of general news and good miscellany, will be sent one year to any address for one dollar.

The nomination of Supervisors of Census have been sent to the Senate. Mr. D. S. Richmond, as we reported last week, is to be the Supervisor of this district, whereas all the Colonel's friends will rejoice, and his friends are many. The first thing he will do after he is confirmed, will be to divide the territory into districts of about 4,000 inhabitants each, which is no slight task, and then he will appoint the enumerators. Doubtless he will wish before he gets them all appointed that he had let the thing alone—Mendocillo Journal.

THE law which makes the unlawful sale of that undesirable, though possibly harmless, substitute for butter, known as oleomargarine, punishable by fine and imprisonment ought to be generally and rigorously enforced. It appears that the sales of the genuine product of the dairy have fallen off 50 per cent, on account of the dishonest competition of this counterfeit. The law requires that every package of oleomargarine shall be plainly marked as such. This requirement appears to be complied with only by wholesale dealers, while the city retailers generally disregard it.

APPARENTLY it is as true now as it was in Paul's time that the office of bishop is one to be desired. Aside from all its other advantages, it seems to be eminently conducive to longevity. The venerable Presiding Bishop of the Protestant Episcopal Church in this country, now in his 86th year, has been making a calculation on the subject. He reports that the youngest of his predecessors in office lived to see 76 years, and that the average age at death, if he himself were to die tomorrow, would be 82 years. One of his predecessors reached 89 and another 86 years.

WILLIAM ALAND, Merchant Tailor, has just opened the largest line of woolsens for men and boys ever offered in Butler.

"The population of the globe," says a late English paper, "may be roughly estimated at 1,121,000,000; Europe, 309,000,000; Asia, 824,000,000; Africa, 199,000,000; Oceania, 4,000,000; America, 85,000,000. It has been calculated from the mortality tables of known countries that the annual number of deaths throughout the world is 5,693,850, or that, in other words, 37,740 die each day. On the other hand the balance of population is more than kept up by births at the rate of 104,800 per day. Seventy new lives are ushered in every minute of the twenty-four hours.

THE Pennsylvania Returning Board is young and has a good deal to learn, but it is a child of promise. The board was in session about an hour and a half and managed to spend eight hundred of the thousand dollars appropriated to meet its expenses. Of this amount seventy-five dollars apiece was given to the Western members for expenses, fifty dollars apiece to the Eastern members, and the four able clerks received twenty-five dollars a head for their arduous services. With extreme liberality on the part of the majority, the Democrats were allowed one of those twenty-five dollar clerks' shares.

THERE was once a man who stole his enemy's body and had a pair of shoes made of it. He was so proud of them that he "trod him under foot," and we have heard of a drum-head made of tanned man-skin; but of all things for which parts of the human form divine have been used we think that being made into soap is the worst; yet it has been found that a soap factory in Atlanta, Georgia, has been utilizing the remains of a cemetery for that purpose. One would think that a man was a horse or an ass that he should be used so. As a Southern paper says, "the friends and relatives of the deceased are inclined to make a row about it." So we should think.

MR. T. D. KENNEDY well engaged in stripping limestone in a quarry near New Castle, Pa., met with a fatal accident on the morning of the 16th. By an unexpected giving way of a body of earth he was crushed, and died, followed in two hours. Mr. Kennedy was conscious until the last and although anxious about the welfare of his family was willing to obey the summons. His remains were taken to his home in West Sunbury, this county, and the funeral services took place at Prospect on Monday. Mr. K. leaves a wife and three children to mourn his loss. They have the sympathy of their friends and neighbors in this trying situation.

The kissing boom is making the most energetic headway, but it is getting a good many ministers into trouble. A kiss is a very little thing, and for its size about the nicest thing in the world, but even ministers have to be careful what they do with their stock of kisses over and above what may be needed at home. The New York preacher who kissed the young and goodlooking ladies of his parish in a moral way was sustained by his church, but the New Jersey preacher whose kisses, as he said, were merely of a fatherly character, is looking around for another church. The public is anxiously awaiting the next case to see what new variety of kiss may come in vogue.

THE value of being fully acquainted with all the important news of the day is as apparent to every thinking man as the entertainment of the family friends. This can be secured in our paper full degree by subscribing to this paper and receiving the Pittsburgh Weekly Dispatch for the full year, and should take advantage of the offer.

At Lancaster, this State, there is a Judge Patterson, who evidently is entirely out of place on the bench. The Constitution of Pennsylvania contains a liberal provision for the security of the freedom of the press. The Lancaster Intelligencer is an old journal of high character. The Intelligencer criticized some proceedings in Judge Patterson's court. Thereupon Judge Patterson waxed exceedingly wrath, and summoned the editors of that paper before him. He then proceeded to catch them in genuine star chamber fashion. The editors properly refused to answer him. It seems they are members of the bar, and Judge Patterson has ordered them to show cause why they should not be disbarred.

It is reported that the opinion prevailed in both that England and intervention by England to put an end to the war in South America is imminent. Perhaps this story has been exaggerated in transmission. England has probably got her hands sufficiently full just now in several other quarters of the globe to deter her from any peculiar activity on the Pacific coast of the neighboring continent.

ADJUDICATED in a recent case, it would be reasonable to expect that the law may reasonably attract her attention for a while yet. It is very possible, however, that the British Government has diplomatically proffered its good offices, as the United States did some months since, for a friendly endeavor to overcome the differences between the belligerent States.

MR. B. C. HAZELTON has just returned from the East, having placed all his orders for his Spring and Summer Stock of Boots and Shoes, while there, with \$20 or \$25 for each pair. He will in a very short time receive his entire stock and will see all of it at old prices, some lines selling even better than last season's prices. These goods are the same in every particular as sold before, with some new lines added. His spring styles are very handsome. He does not buy from Jobbing Houses, and doesn't allow the amount of his bill to be exaggerated. He prefers not to show his bills to persons that it does not interest, but will interest them by showing them Fresh Spring Styles in Boots and Shoes and giving them prices that defy competition. Give him a call.

THE discovery of reputed Masonic emblems in the foundation of the obelisk at Alexandria, soon to be conveyed to New York, tidings of which have been given to the world by the State Department at Washington, on the authority of a telegram from Lieutenant Commander Gorringe, are sure to arouse the attention not only of the three millions of "Free and Accepted Masons" throughout the world, but of all intelligent men and women. Few questions have been so forcibly debated in the present sceptical century as the claims to antiquity made by the brethren of the mystic tie. Our age is not distinguished for unquestioning acceptance of ancient traditions, of however sacred a character, and when to the intrinsic difficulty of accepting current Masonic versions of the history of the world is added a refusal to allow the profane world to inspect the credentials of its origin it is no wonder that unbelief in Masonic antiquity should be still more prevalent than unbelief in much other imaginary history.

THE Pittsburgh Daily Dispatch is in a measure one of the necessities of life in Western Pennsylvania, Eastern Ohio and West Virginia.

A NEW swindle is reported as being perpetrated by "red head" dealers in some of the rural districts of this State. They send a letter written in the familiar tone of an old acquaintance, reminding the recipient that when he left their boarding house he owed a little bill, possibly \$2. He is further informed that they can readily sell the jewelry, which he left behind in a satchel, for \$20. He is then offered to mail the \$2 they will send him the satchel and contents. The gullible one knows well that he never possessed such property, nor boarded in such a place, but he is willing to quietly obtain some other person's valuable jewelry, and therefore sends the \$2. He receives nothing. This swindle is based solely upon the idea that a large percentage of the people are by nature dishonest enough to take that to which they have not the slightest just claim, if they have the chance. People that are beaten by the trick are served exactly right. There is not the slightest danger that they will put officers of the law upon the track of the swindlers. Shame will keep them from exposing their own intentions.—Allouva Tribune.

THE Centennial of a declaration of war was observed in 1876 by an international Industrial Exhibition, at which all the foremost nations of the world brought their wares and products. It is now proposed to observe the centennial of a treaty of peace, by which the colonies were recognized as a nation, in a similar way, the island of Manhattan being the place and 1883 the time. These great international bazaars are peculiarly a modern institution; they are the most effective elevators of the sphere of commercial enterprise. No event in 1876 can compare with the reciprocity of knowledge that was continually going on between foreigner and foreigner during the summer at Philadelphia. Many a Yankee found himself lifting his hat in honor of some one besides himself, and the foreign countries were recognized as a nation, in a similar way, the island of Manhattan being the place and 1883 the time.
