A Magnificent Family Bible, The National Publishing Company of Philadelphia, Chicago, St. Louis of Philaderphia, Chicago, Sch Bodins and Atlanta are doing a good work in this community by circulating among our people one of the most superb edi-tions we have ever seen. The binding is elegant, tasteful and substantial The press work is done in the best style, and the paper is of the finest quality.

quality.

Being determined that their Bibles shall not be surpassed by any other edition in print, the publishers have added to it an abridgement of Dr. William Smith's great Dictionary of the Bible. This is a complete book in itself, and would make an octavo volume of over six hundred pages. Its reputation as the best Bible Dictionary is world-wide, and each subtionary is world-wide, and each sub-scriber to this Bible thus obtains it free.

Another prominent feature is a History of All the Religious Denominations of the World. These accounts are clear and comprehensive, and are full of valuable information.

The additional matter which accompanies the books of the Bible covers a wide range of subjects and is ex-ceedingly valuable. An accurate and detailed description of the Holy Land is given, followed by an interesting description of Jerusalem and its sa-cred places. The Life of the Saviour and the Lives of the Apostles are also given at considerable length, and in such a manner as to be of great service to every reader of the Bible. The Wanderings of the Israelites in the Wilderness are related, and the Tabernacle and Temple are described with great minuteness. Another feature to which we would call, particular attention is a series of Scripture illustra-tions, remarkable for its completeness. It embraces a series of comprehensive descriptions of the Manners and Cus-toms of the Nations of the Ancient World, of Biblical Antiquities, Scenery, Natural History, etc., etc. Then follow a large number of chronological and other valuable tables designed to promote and facilitate the study of the Sacred Scriptures. These tables are so numerous that we have not space even to give their names. So full and complete is the additional matter of this magnificent edition of the Scriptures, that the most careful student of God's word, the most exacting seeker after truth will find all his wants supplied in this single volume.

The book is magnificently illustrated. It contains over 2,000 fine engravings. many of which are by the great artist, Gustave Dore. These engravings are genuine works of art, and were made at a cost of over \$30,-000. The great number and high character of these engravings make this the most valuable art publication of the century.

of the century.

Between the Apocrypha and the New Testament is a beautifully lithographed marriage certificate, which makes this Bible an especially appropriate wedding present. This is followed by a handsome Family Record, consisting of four quarto pages, finely lithographed. At the end of the volume is a photograph album, with spaces for sixteen portraits.

spaces for sixteen portraits.

These magnificet Family Bibles are superior to all others that we have seen, in the following respects:

They contain the largest and finest

They contain the largest and finest engravings. They have the richest and most durable bindings. They contain the finest paper and the best printing. They are the cheapest and most complete, and they sell faster than any other Family Bibles.

The National Publishing Company's

Bibles weigh from one to three pounds more than any other Family Bibles published in the United States. This is proof positive that they are more so'id and substantial than any other It proves that they are printed on heavier paper, and bound with heavier and more durable material. They are published in German

We cordially commend this Bible to our readers, and hope it may find a place in every family. It is one of the best Family Bibles ever published. and no home should be without it. The price is astonishingly low, and within the reach of all. It is sold by subscription only, and Mr. David Wil-helm, of Jefferson township, who is the authorized agent for this section, is now canvassing for it.

## Grant's Tour Around the World.

Mr. Wilhelm is also agent for the National Publishing Co.'s edition of General Grant's Tour Around the World, written by the celebrated writer, James McCabe. The work contains over 300 pages, is handsomely illustrated and is considered the best account of the journey that has been written. Mr. W. will call at your home or place of business.

Notice, .

Mr. H. B. Weisz, of Batler, hereby gives notice that he has been appointed by the National Publishing Co., to be their agent for their Bible, and edition of "Grant's Tour Around the World," for Butler, Penn, Connoquenessing, Lancaster, Muddycreek, Franklin, Centre, Oakland, Clay, Brady and Worth townships, and that no other agent can deliver these books

IT is to be wondered at that farmers never, or rarely ever, raise potatoes from seed, by which we mean the true seed found in the potato "ball" or proper fruit of the potato plant. Seeds germinate as readily as those of let-tuce or radish A small patch of seed-ling potatoes could be cultivated at a small expense and a trifle of labor, while each farmer might, in this way, produce varieties of potatoes more valuable and productive for his particular soil and climate than any that could be purchased. At any rate, the chances of such results would be worth the trouble of striving for them,

AUSTRALIANS are now calculating their harvest prospects. It sounds strange to hear of farmers calculating how their crops will turn out in February. It is about harvest time in

B. L. FAHNEST CK'S LUNG SYRUP Is the most efficient Remedy before the public for the cure of Coughs, Colds, &c.

WE GUARANTEE IT.

It is from slight colds, which most persons deem of but little importance, and neglect, that many serious discuses arise. Neglected colds soon pass into the acute stage, and if prompt and efficient remedies are not used, in many cases become Chronic or Confirmed Bronchitis.

It is especially adapted in the cure of children, on account of its mild effect, as it contains nothing that would injure the youngest child.
