waking. Persons sleeping in a frequently in this way by the carboniferous gas long before the fire reaches them. The bodies or remains are found—not in halls or stairways

THE EFFECT OF COFFEE AGAIN. where they would have been had they asleep. The exceptions are mostly it being burned to death that it were well for the community not to suffer needlessly from sympathy for the vic-tims. To the relatives of persons who lose their lives in burning houses, par-ticularly to parents whose children may die in this way, it may save a lifetime of grief to know that death entered the chamber quietly and per-formed his task without so much as disturbing the slumbers of his victim.

THAT BLOCK PUZZLE.

[Toledo Blade.] John Henry, whose engagement to Sarah Emeline is just announced, goes up to spend the evening with his be-loved, who has invited a few friends to meet him. He takes the block puzzle up with him to make it pleasant for them. He is quite dexterous in the use of the bits of wood, and has come out even several times. With great pride he showed it to Sarah invited company has got no feelin', and it's feelin' that tells in the long

MR. WM. H. Kemble could do the public a much greater service by a full confession than by serving a brief term of imprisonment. We do not mean a mere admission that he is guilty of the attempt at bribery for for which he is now waiting sentence, but a confession of all past briberies in which he has performed a part, or of which he has performed a part, or of which he has been cognizant. Confessions among criminals have become very common of late. The expectation of the public a much greater at about 88.

MANY people have a sort of passion of dosing themselves every spring with medicines Many dose their farm animals in the same way. "The system needs cleaning out at least once a year!" It is well to know that medicines are really disease-producing agents, and that they can do us no good unless we are suffering from disease. On the contrary, the effect of worth the contrary of the contrary of the attempt at briberies in the same way. "The system needs cleaning out at least once a year!" It is well to know that medicines are really disease-producing agents, and that they can do us no good unless we are suffering from disease. On the contrary, the effect of MR. WM. H. KEMBLE could do the days later at about 88. posure of the Lewis will conspiracy by the pretended Mrs. Lewis is a notable instance. But even that attracted little attention compared with the commo-tion which would be caused by the long story Mr. Kemble could relate of

tion which would be caused by the long story Mr. Kemble could relate of fraud and bribery. Except in the direction of a frank and full confession, Mr. Kemble's public career would seem to be rapidly drawing to an abrupt close.

About four years ago a novel plan for instructing the children of the poor in the art of housekeeping was put into operation at the Wilson Industrial School for girls, in New York City The little girls were taught in an attractive manner, and with the aid of toy implements, to wash, sweep, dust, set the table, make beds, and a variety of other things, in a neat and thorough way. The system was known by the name of the "Kitchen-Garden" It now ten or twelve classes in that city and others have been formed in Hob oken, Brooklyn, Boston, Philadelphia and Chicago. Plans have also been made for establishing Kitchen-Gardens in many other cities.

A SIX-BARRELED petition to Congress is in circulation, asking a law you may give me a right smart lot of forbidding the mixture of fats with the Hardshell Baptist kind." butter or milk; the use of coloring matter in articles of food; the sale of pleomargarine as butter, or in tubs with the word butter on them; the export of oleomargarine; the use of last quarter. Why has it never oc any fat except caul fat of healthy beef curred to some one to pun on the in manufactured food; the manufacture or sale of oleomargarine except pun question. under supervision of the National Board of Health. So the war between the dairy and fat factory is growing

HOW WOOD PULP IS MADE.

[Pacific Med. and Surg. Journal.]

By the burning of a Chinese washhouse in San Francisco a short time pulp which is extensively used in the since, eleven of the occupants who manufacture of paper that a brief des asleep in bed lost their lives. The cription of the process of making it will were asleep in bed lost their lives. The account published in the newspapers described them as exhibiting, by the positions in which their bodies were found, the agony they suffered from the fire. As editors and reporters are dron and boiled, which extracts all the continuous and reporters are dron and boiled, which extracts all the continuous account of the process of making it will be entertaining. Any white soft wood may be used. The bark taken off, the knots and dark and decayed places cut out. It is then put into a large caul-dron and boiled, which extracts all the continuous account of the process of making it will be entertaining. Any white soft wood may be used. The bark taken off, the knots and dark and decayed places cut. considered to possess more than an average amount of intelligence and inforit soft. It is then put on a large stone mation, it appears singular that they grinder, with water pouring on it all should propagate such an error. It the time. The grindstone wears off the may be safely asserted as a general fibres until they are finer than sawdust, rule that persons who lose their lives which float away into a receptacle while sleeping in burning buildings, are suffocated and die painlessly without waking, and before the flames had sists of a fine fuzz or splinters of wood reached their bodies. The merest tyro It is white and requires no bleaching knows what would be the effect of going to bed with a pan of burning char-ing to bed with a pan of burning charcoal in the room, or the effect of blowing out the gas instead of turning it make it into paste, after which it is off. An individual going to sleep under run off into paper sheets, whereas rags such circumstances inhales the impure air, which acts as an anæsthetic and chloride of lime, soda ash and alum rapidly converts the natural sleep into and such strong chemicals to take out stupor and coma, from which there is the color. Then they are picked to pieces and made into pulp. house which takes fire are smothered cess by which wood pulp is made is

Dr. Richardson, the eminent English awakened and attempted to escape—
but in bed, or in the spot which the bed had occupied, and in the very position in which they had been lying asleep. The exceptions are mostly nogreat deal of truth in that statement, make attempts to escape. There is says the doctor, as coffee cannot be something so horrible in the idea of taken in excess without producing dyspepsia and irritation, but moderately used it is an invigorating, healthful and wholesome drink, bringing a man's best energies into play. The quantity taken, however, must not be large, and should be good.

Dr. Bock, of Leipsic, another celebrated scientist, says: "The nervous-

ness and peevishness of our times are chiefly attributable to tea and coffee : the digestive organs of confirmed coffee drinkers are in a state of chronic de-rangement, which reacts on the brain, producing fretful and lachrymose moods. Fine ladies addicted to strong coffee have a characteristic temper, which I might describe as a mania for of our fashionable drinks."

PETROLEUM IN RUSSIA .- From an out even several times. With pride he showed it to Sarah ne and her friends. He works it out carefully. Somehow or other it bothers him more than usual this time. pire are to be found in the southeast-"I wish so many of you wouldn't ern and northeastern districts of the stare at me," he remarked; "it makes me nervous." Then he goes into a micro of Bakou, on the shores of the line of Bakou, on the shores of the Hagerty Margaret, 57 ac stare at me," he remarked; "it makes me nervous." Then he goes into a quiet corner and works it out by himself After a few minutes he returns, exclaiming, "Eureka!" The guests all gather around, and there, sure all gather around, and there, sure the sure that the sure enough, is 13, 14, 15. "It ain't right, less than 250 localities within these after all," says Sarah Emeline; "you've got 12, 11, instead of 11, 12." And of petroleum can be found. It is said o he had, and no shifting of the that 100 of these depots, if properly locks could bring it right. Is it any worked, could be made to yield 660, onder that John Henry put the box 000,000 gallons per annum. The Bain his pocket and never saw his Eme- kou oil is thick and heavy, suitable line more? "For," said he, reflectively, "a girl who would take a fellow down like that before a room full of quality for refining and for burning in

A NEAT little story is told about the way in which Mr. Jay Gould makes ing a plague upon his country when he invented the horse-car poetry:

use of the few social opportunities he enjoys. Being invited to a private

SALERATUS

Which is the same thing.

Impure Saleratus or Bi-Carb Soda which is the same thing; is of a slightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO'S "ARM ANDHAMMER" BRAND will show the difference.

CO'S "ARM AND HAMMER" BRAND WILL show the difference.

See that your Saleratus and Bakering Soda is white and PURE, as should be ALL SIMILAR SUBSTANCES used for food.

A simple but severe test of the comparative value of different brands of Soda or Saleratus is to dissolve a dessort spoontint of seak kind with about a pint of water (hot preferred) in clear glasses, stirring until all is throughly dissolved. The deleterious insoluble matter in the inferior Boda will be shown after settling some twenty minutes or sooner, by the milky appearance of the solution and the quantity officating focky matter according to quality.

Be sure and ask for Church & Co.'s Soda and Saleratus and see that their name is on the package and you will get the purest and whitest made. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost.

See one pound package for valuable information and read carefully.
