THIRD ANNUAL FAIR Butler County

Agricultural Association WESTERN PENNSYLVANIA,

TO BE HELD ON THEIR GROUNDS,
AT BUTLER. PENNA, Tuesday, Wednesday and Thursday. September 21st, 22nd and 23rd, 1880.

LIBERAL PREMIUMS TO BE GIVEN. TO THE PUBLIC:

We take pleasure in presenting to the people of our County the Premium List of the Third Annual Fair of the Butler County Agricultural

Annual Fair of the Butler County Agricultural Association.

Our prospects for a successful meeting are very flattering indeed. We have secured the cooperation of representative farmers in different sections of the county, whose names guarantee the success of any enterprise with which they may be identified.

The management are determined that the Association shall be devoted exclusively to the advancement of the Agricultural, Mechanical and other domestic interests of the county, and will spare no means to make the coming meeting all that could be desired by both exhibitors and visitors. And we earnestly ask the co-operation of the citizens of our county, especially the farmers, in making the coming Fair a success, and in doing so, would say that we are fully alive to the fact that without the co-operation of the farmers, no Agricultural Fair can be made a success. And believing, as we do, that the interests of agriculture are best advanced by these annual meetings, we hope the citizens of the County will look on it as a matter in which we all have a common interest; and let it be remembered that the management cannot make an Agricultural Fair a success without the co-operation of those most interested in Agriculture.

If you have any article of merit on the farm, in the shop, or in the house, bring it along and put it on exhibition, and if you don't get a premium you will at least have the satisfaction of knowing that you have contributed to the enjoyment of others, and of helping to make our Fair a success.

A new feature of our Association is, that it is

except for speed, horses and cattle, and everybody is invited to compete.

Another new feature of our coming exhibition
is, that there will be only three days of the Fair,
the first to be devoted to making entries, and
arrangement of articles and animals on the
ground, and the two other days to exhibition.

WHY DOES

a woman's health often break down at an early age? Put a man at the wesh-tub, let him get heated from the hot suds until every pore is opened; then let him stand over the filthy steam that comes from scalding and boiling clothes, that are full of sweat and exhalations from the skin, and his health too would break down before long; and yet this most terrible ordeal is what health too would break down before long; and yet this most terrible ordeal is what health too so through with a sum of the second standard or the second

LOOK OLD

SOONER THAN by the old way, by using FRANK SIDDALLS SOAP,—a Soap so purifying and cleaning that the dirtiest clothing can be washed in lukewarm water with very little rubbing, and clothes, bedding and utensits used by the sick disinfected and cleanace without either scalding or boiling, while the work is so light that a girl twelve or thirteen years of age can do a large wash without being tired; and yet so mild and healing is this Soap that for toilet and shaving it has no equal, and physicians advise its use in preference to imported Castile Soap on wounds and sores, and to wash the youngest infants, as well as for persons with delicate skin.

Now that there is a remedy for this, so conomical that the poorest can use it, there is not a woman or

+>TESTIMONIALS

From H. E. Bowles, M. D., Hammonton, N. J., Editor South Jersey Espublican. My attention was called to FRANK SIDDALLS SOAP from an advertisement in my own paper, and its used in my house for nearly a year, according to the directions, has proved for nearly a year, according to the directions, has proved that the properties in the list invaluable, while for toilet and shaving it is the best Soap I have ever seen. From Mrs. H. L. KENYON, Northfield, VL.
Ido my wash with FRANK SIDDALLS SOAP in
half the time and with no expense for Soap, as the
soving in fuel more than pages for K. I have no steam
or scent from the wash, while the saving in
health, clothes and labor can hardly be estimated.

From Mrs. E. Stockwell, Hammonton, N. J.
FRANK SIDDALLS SOAP has been used in my house for the last seven months, and by following the printed directions, we find it to do everything claimed on the wrappers. We have not scaled or boiled a single article, and the clothes are whiter and neceter than when washed in the lot vay. My husband, who is a dealer here, has a steady demand for the Soap from his customers. From Manager of Dexter Laundry, 301 Sixth Street, Corner C Street, N.W., Washington, D. C.

No laundry or family can afford to be without
FRANK SIDDALLS SOAP. We follow directions and use no other Soap, and have a reputation
second to no laundry in Washington for; white
clothes; the superior work we have been enabled
to turn out having secured us the trade of some of
the best gentlemen's furnishing stores in the city. From E. W. STANTON, 1506 N. 20th St., Philada.
We are confident, from a long experience in using and recommending FRANK SIDDALLS SOAP, that one trial, according to the very easy printed directions, will overcome all prejudices. It also really has wonderful merit for shaving, toilet, \$3 100 positively forfeited if it injures the clothes, or will not do everything claimed.

for the hands. Then take one piece out at a time on the wash-board, rub the Soap lightly over it, roll it up and put it back into the same tub, and so on with each piece until all over it, roll it up and put it back into the same tub, and so on with each piece until all have the Soap rubbed on them. Then go away and let them soak at least twenty minutes, without touching them, when the dirt will all be loosened, and a very little rubbing on the wash-board, out of that one suds, will make them perfectly clean, being particular to turn each piece while washing so as to get at the seams. Then wash lightly on the wash-board, through a lukewarm rinse-water (without any Soap,) so as to get the dirty suds out. Then put through blue-water, and on the line, without ecalding or boiling a single piece. Afterward put flannels and colored pieces to soak, and wash them exactly the same way. It is important not to heat the wash-water in a tin, brass or copper kettle. A tea-kettle will heat enough water for a large wash with this Soap.
