Mr. Alfred Speer:—
DEAR SIR:—The visit which I made last year to your Vineyards, wine-presses and vaults at Passaie, N. J., satisfies me thoroughly that the wines manufactured by you are pure and unadulterated, and the very best that can be offered to the public for medicinal uses.

Acting upon my favorable impression at the time, I have since recommended the Port Wine; more particularly in my practice, and an satisfied with marked benefit to my patients.

There can be no better proof to the doubting mind, as to the Wine being made of the finest Oporto Grape, than a visit to the acres of land covered with the vine bearing the luxuriant fruit. Wishing you success in your praise-worthy enterprise,

-Agricultural statistics show that in the last 45 years the production of wheat and barley here has doubled; that of corn, cotton and tobacco more than doubled; potatoes nearly doubled; hay increased more than one-third and oats about 140,000,000 bushels. The vast increase in cereals is mainly due to the rapid development of the Western and Northwestern States. During the present generation the corn center has been transferred from the South to the West, and the wheat center from the Middle States to the Far West. From 1870 to 1878 the production of tobacco increased 100,000,-000 pounds, mainly in the South; while Texas and Arkansas have been he chief contributors to the increase of nearly two and a quarter million pounds of cotton in the same time. In he former 157,000,000 were raised in 1870, and 500,000,000 in 1878; in the latter, 111,000,000 pounds in 1870, and 318,000,000 in 1878.

CANCER. This disease like many others is regarde as incurable. It is not so. If it is taken i time it is as easily cured as a wart or a corr We know very well that it is a fearful disease We know very well that it is a fearful disease and will eat away until it destroys life, that is if it is neglected, but if it is attended to when it first makes its appearance, or soon after, there is no trouble in eradicating it from the system. Persons will have to be here during part of the treatment, consequently there is no use writing to me for information whether it can be cured without my seeing the case. I also treat with success, Rupture, Piles, Fistula, Ulcers, Ulcerated legs, Varicose Veins, Varicosele Tumors, Hydrocele, and every form of Skin Disease.

JACKSON & MITCHELL, Agents, Butler, Pa. a woman's health often break down at an early age? Put a man at the wish-tub, let him get heated from the hot suds until every pore is opened; then let him stand over the filthy steam that comes from scalding and boiling clothes, that are full of sweat and exhalations from the skin, and his health too would break down before long; and yet this most terrible ordeal is what

+>TESTIMONIALS From H. E. Bowles, M. D., Hammonton, N. J., Editor South Jovey Republican.

My attention was called to FRANK SIDDALLS
SOAP from an advertisement in my own paper, and its useln my house for nearly a year, according to the directions, has proved that its remarkable properties have not been overstated. For removing printing ink it is invaluable, while for told in the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions, we find it to do everying the printed directions. From Mrs. H. L. KENYON, Northfield, Vt.
Ido my wash with FRANK SIDDALLS SOAP in
half the time and with no expense for Soap, as the
suring in fuel more than pays for R. I have no steam
or scent from the wash, while the saving in
health, clothes and labor can hardly be estimated. From Manager of Dexter Laundry, 301 Sixth Street, Corner C Street, N.W., Washington, D. C.

From Mis. E. STOCK WELL, Hammonton, N. J.
FRANK SIDDALLS SOAP has been used in
my house for the last seven months, and by follow
ing the printed directions, we find it to do every
thing claimed on the wrappers. We have not
scalded or boiled a single article, and the clothes
are whiter and succeer than when woulded in the
old way. Thy husband, who is a dealer here,
has a steady demand for the Soap from his
customers.

From E. W. Stanton, 1506 N. 20th St., Philada.
We are confident, from a long experience in using and recommending FRANK SIDDALLS SOAP. We follow directions will be recommending FRANK SIDDALLS SOAP. We follow directions and use no other Soap, and have a reputation second to no laundry in Washington for, white sprinted directions, will overcome all prejudices, it is superior work we have been enabled citates; the superior work we have been enabled citates; the superior work we have been enabled to the companion of the superior work where the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the superior work we have been enabled to the control of the superior work we have been enabled to the superior work we have been enabled to the control of the superior work we have been enabled to the control of the superior work we have been enabled to the superior we have the superior with the superi The following are the Directions for Use, so simple that a child can under Dont do anything so ridiculous as to buy the Soap unless you intend follows. \$2-\$100 positively forfeited if it injures the clothes, or will not do everything First, put the white clothes in a tub of water, only made warm enough to be o for the hands. Then take one piece out at a time on the wash-board, rub the Soap lightly over it, roll it up and put it back into the same tub, and so on with each piece until all

have the Soap rubbed on them. Then go away and let them soak at least twenty minutes, without touching them, when the dirt will all be loosened, and a very little rubbing on the wash-board, out of that one suds, will make them perfectly clean, being particular to turn each piece while washing so as to get at the seams. Then wash lightly on the washboard, through a lukewarm rinse-water (without any Soap,) so as to get the dirty suds out. Then put through blue-water, and on the line, without scalding or boiling a single piece. Afterward put fiannels and colored pieces to soak, and wash them exactly the same way. It is important not to heat the wash-water in a tin, brass or copper kettle. A tea-kettle will heat arough water for a large work with this Soap was so copper copper. will heat enough water for a large wash with this Soap. Just Think What You will Save by this Easy Way of Washing!

No Wash-boiler! No Steam! No Smell of Suds through the House! It has the remarkable Property of keeping the Dish-Cloth, Wash-Rag and Sponge always Sweet, and of Washing Freely in Hard Water. Get a Cake and Try it for Yourself next Wash-Day.

To Points where this Soap is not yet Introduced a Trial Cake will be sent by Mail, on receipt of Price, (10 Cents), in Money or Stamps. TO OFFICE OF FRANK SIDDALLS SOAP
