Apple jack is made by the distillation of cider, and it is said to be a liquor that must be used moderately. A more innocent looking beverage does not exist, and its name sometimes deceives the ignorant into thinking it only a mildly exhilarating fluid, whereas, in truth, the strongest head cannot long stand outagainstit. A distinguished Eng-lish ecclesiastic, when on a visit to the United States, several years ago, had a great curiosity to taste our famous apple jack. He was much pleased with it, and praised its crystal clearness and its peculiar flavor as he refilled his glass several times at a feast given in his honor; but before the evening was over, the faculty of arguaranteed. ats a specialty. Such is the effect of too much apple jack. -The production of sufficient sugar -The production of sufficient sugar for the wants of the people of the United States if not for export, now seems to be a fact to be a fact to be counted upon at no distant day. One of the greatest drains of wealth from this coun-try for the past half century has been to pur-chase sugar, at one time as much as \$100,000,-000 going abroad annually for that purpose, and there was on our part at one time a serious consideration of purchasing Cuba to save that outgo. But in the sugar cane, sorghum and beet root there are now probabilities that the crassus will show a beginning which will war-rant the hope of the production of all our own sugar at no distant day. Besides, the patron-age of Cuban sugar growing is one of the great-est aids to keeping slavery alive in that island, and America has now grown past that relie of barbarism, and it is with great pleasure that the efforts to produce our own sugar will be commended. **HOSIERY** and **GLOVES**.  All these guns have raised level ribs, and the 10 bores are made extra heavy and wide at breech, ranging in weight from 9 to 10 bs., making an admirable gun for dack and trap shooting where heavy charges are necessary. Any of these guns will be sent C. O. D., with privilege of examination and trial on receipt of a remittance sufficient to cover express charges to your place and return. No deviation will be made from these prices under any circumstances.
