The people reiterate our saying—"Deeds not Words"—when you ask your neighbor who uses the unexcelled Oriental Flour and hear: "Best I have ever used, can't see how it is sold so cheap. It cost me just 35c less than last sack I bought eisewhere and is far better." Another says: "Everything is wrong when the b-ead is bad, but there is no discount on the Oriental Flour, and my wife says it takes much less flour to make a baking. Will use no other flour but the Oriental.

the Oriental.

Such are the reports coming in from all quarters, showing that our new enterprize is an undoubted success. One hundred bbls. of flour made every day. Away goes the flour as fast manufactured. Every household reached by it is made happy. The husband coming home with a sack of Oriental flour jingles some of the money in his pocket he expected to spend for the flour. The housewife meets him in the evening with a smile on her face, for she has nice, white, spongy, fresh-baked bread on the table. Thrift, comfort and extreme satisfaction inevitably follow in the train of the Oriental flour.

readers of the Argue have no doubt seen the advertisement of Ely's Cream Balm in another
column. An article like "Cream Balm" has
long been desired, and now that it is within the
reach of sufferers from Catarrh, Hay Fever, etc., there is every reason to believe they will make the most of it. Dr. W. E. Buckman, W. E. Hamman, Druggist, and other Eastonians have given it a trial, and all recommend it in the highest terms.—Easton (Pa.) Daily Argus, Oct.

-We direct attention to the price —We direct attention to the price list of G. W. Miller & Bro., grocers, printed in another place. Wherever they have introduced the Red Ball flour, it holds its own. Out of seventy odd orders from the oil country for groceries, to be delivered this week, over forty of them included orders, ranging from a sack to a barrel, of this flour. Since last April this firm has sold Red Ball and other brands of door from the same mills, at the rate of a car load a month, each car load consisted of 125 barrels or 500 sacks, divided into five different grades.

The Age of Miracles

The Age of Miracles is past, and Dr. Pierce's Golden Medical Discovery will not raise the dead, will not cure you if your lungs are not half wasted by consumption, or your system sinking under cancerous disease. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe disease of the throat and lungs, coughs and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, thus curing pimples, blotches, and eruptions, and causing even great eating ulcers to heal. Sold by druggists.

-With the excellent buckwheat —With the excellent buckwheat flour now manufactured in this county, we think every body in it should have an opportunity of enjoying that celebrated Butler county luxury a good buckwheat cake. We publish in another place a receipt for making the batter, which we know to be good. Some house-keepers mix their flour with butternilk and lighten the batter with soda, and many are in the habit of sweetening sour batter with soda. This is a great mistake, the continual use of soda, which is a mineral, is injurious to the digestive organs.

The latest turn in Ireland's curious affairs is the organization of a fund and party for the relief—not of starving peasants or evicted tenants, but of a landlord who could not gather his crops because he could get no laborers to work for him, nor buy food because no-body would sell to him. He was under the ban of the terrible League, and in a fair way to starve under it, when a London newspaper started a subscription for his relief, and an expedition was made up of determined men who agreed to carry the relief to him and help him out with his crops. The expedition was armed and equipped as for war, and with good reason; for the last time this landlord went to market it took a whole English regiment to guard him from the mob. -The latest turn in Ireland's curious

#### THE WHITE IS KING.

TUNE-MY GRANDFATHER'S CLOCK.

As composed and sung by William Gregg, of orleans, La.

Transfather Howe, thirty-five years ago dreaming at midnight in bed, morning he told to a wondering world all that passed through his head. his was the song that he sung to his chums they chucklingly formed in a ring: Yeeler & Wilson and Singer went in a greed to a very wicked thing.

Thirty years of monopoly, Ring, Ring, Ring, Millions put in our treasury, Sing, Sing, Sing!

But they stopped short, never to go again,
When the "White" became king.

The next thing they did was our Congress to bribe
The extension of patents renew,
Thus millions of money were wrung from the poor
By these tyrants, the privileged few.
But there came a glad day when our we were made right,
Our nation as one man arose,
And said to Congress, our servants ye are,
So down the monopoly goes.

CHORUS-Thirty years, etc. As the day of our freedom has come to us now,
We're allowed all the patents to use,
So old Mr. Singer just take a back seat,
For all your bad points we refuse.
And now let us shout of a perfect machine,
Self-threading and quiet and light;
So friends all unite in the chorus we sing,
As we tell of the beautiful "White."

The "White" sewing machine is for sale by Yon Johnston, Butler, Pa. The "Union" Woolen Mill. Among the industries of this town, that are well worthy of note, is the Union Woolen Mill

CHORUS-Thirty years, etc.

Among the industries of this town, that are well worthy of note, is the Union Woolen Mill or as it is commonly called Fullerton's Woolen Mill. When Mr. Fullerton purchased the mill some twenty years it was a mere shell containing some old and worthese machinery. Since that time he has been putting in new machinery and making improvements, at the rate of about a thousand dollars worth a year and he now has a complete and valuable mill, capable of doing the best of work and making anything that any other woolen mill can make. With his mill as it now stands he can manufacture daily some five hundred yards of flannel, a dozen pairs of blankets and three hundred pounds of yarns, and he is now making improvements that will enable him to hereafter make the finest cloths, if he sees fit to do so. In the manufacture of these articles he uses large quantities of woot, the most of which is grown in this county, and he uses nothing but wool, using no shoddy whatever. There has been some talk of late of the injurious effects of wearing colored wool next to the skin, but Mr. Fullerton thinks that this is a mistake and that the skin poisoning comes from flannel and yarns made entirely or partly of shoddy. This shoddy is made from woolen rags gathered chiefly in cities, and often in districts or wards where small-pox, itch or other infectious discesses are prevalent. The rays are not washed emefly in cities, and often in districts or wards where small-pox, itch or other infectious diseases are prevalent. The rags are not washed and if they have been worn by diseased persons the disease is likely to cling to them and to the shoddy. Mr. Fullerton manufactures flannels and yarns of all colors and his customers need have no fears of being injured by them.

-The student of European affairs —The student of European affairs cannot fail to be impressed with the war footing of the Christian nations over there. In Russia the "peace establishment" is 590,000 fighting men; France, 475,000; Germany, 418,000; Austria. 292,000; Italy, 220,000; Gerat Britain, 198,000; Spain, 100,000; Turkey, 141,000; little Greece, 40,000. The outbreak of war would double these forces, and with the reserves would put nearly ten million men under arms in Europe. What wonder there is constant danger of losing the peace where it takes so many soldiers to keep it. What wonder that the taxation consequent on these establishments is destructive of national welfare. How happy we should be to look at our own handful of soldiers in contrast, and to reflect on what the difference means. The European position savors neither of the gospel of peace nor of the grounds of prosperity.
