

BUTLER CITIZEN

JOHN H. & W. C. NEALEY PROP'RS. Entered at the Postoffice at Butler as second-class matter.

COURT IN SESSION, trying civil cases. FOURTEEN ballots and no United States Senator.

YESTERDAY, February 1st, opened with a severe "North Easter," and continued stormy weather.

In the joint sessions of the Legislature on Saturday and Monday last there was no quorum present on either day.—Ez.

The Receipts and Expenditures of the county for the past year, as made out by the County Auditors, appear this week. Their publication prevents the appearance of much other matter.

S. C. T. DODD, Esq., one of the leading attorneys of the Venango county Bar, is about to remove to New York City, to act as attorney of the Standard Oil Company. His salary is to be \$12,000 a year, for at least six years.

The names of Thompson of Armstrong county, of the House, and Greer of the Senate, appeared the side of Cameron for the United States Senatorship, or what is commonly called the Pennsylvania ring. Make a note of it.—Parker Phoenix, Jan. 21.

BOSS CAMERON has been and is now daily overshadowed and humiliated in the Senate by the presence of Mr. Wallace, who is a man of ability. Boss Cameron wants a colleague as ignorant, as unfit as himself, and looking over the field of aspirants for such a one he selected "Harry" Oliver.—Evening Telegraph, Rep.

A CORRESPONDENT complains of the harsh remarks of the Herald of this place towards Gen. R. K. Scott, late Governor of South Carolina, and who has been very unfortunate at Napoleon, Ohio. The ex-Governor has friends in this and Armstrong counties who feel aggrieved at such treatment. Want of space prevents the articles sent by our friend from appearing.

As to what will be the outcome and influence of this independent movement we will not discuss at this time. We believe it will result in placing our party politics upon a higher plane and in developing and bringing out talent in our ranks worthy of the second State in the Union, which the present management has effectually contented out and suppressed.—Scranton Republican, Rep.

We hope the Grow men who have refused to fall into the caucus trap set by Cameron will decline any compromise that will look toward the continuance of the Cameron dictatorship. If the Republicans of a great State like this cannot organize without the leadership of Don Cameron, who has insulted the voters of the party and is wholly and only a selfish and tyrannical autocrat, they had better disband.—Easton Free Press, Rep.

MA. BELL of this county continues to vote in the Legislature for the machine candidate for United States Senator, notwithstanding the declarations he made to several of his constituents that he would not so vote, and notwithstanding the nearly unanimous opinion of the Republicans of the county that he should not so vote. That Mr. Graham, our other member, represents the general sentiment of the county on the pending Senator election there is not the shadow of a doubt. As between Mr. Grow and Mr. Oliver for Senator, from all we hear, nine-tenths of our Republicans are in favor of Mr. Grow.

REV. BITTINGER'S lecture in the Court House on Monday evening last was full of interest on the subject of early child training. The "Kindergarten" as established and used in Germany and proposed to be introduced in this country, has for its object, as explained by Rev. BITTINGER, the proper employment of the minds of children while of too tender years to be sent to school. It is based on a system of object teaching and if practiced in every home would certainly be productive of good results. While it is difficult to see how the Kindergarten, or child's garden, could be successfully operated in schools with children so young as three or four years of age, yet it could be by parents at their homes, and it seems to us therefore a step in education in the right direction for young children.

NO SENATOR YET.

Up to yesterday fourteen ballots were taken in the Legislature for United States Senator without a choice being made. Mr. Grow not only holds his first vote but has increased on the same. In the vote of last Saturday there were but six of a difference between him and Oliver. Oliver's vote has fallen off considerably from that first received by him. The only thing that seems certain is that he cannot be elected. The Democrats so far hold off and vote for their own man. If they continue to do so the Republicans will have to unite on a compromise man or there will be no election in this session. It is rumored the machine men will endeavor to have an adjournment of the Legislature before the 4th of March, so as to give the Governor the power to appoint a Senator when they hope to get Oliver appointed. But this is not likely to succeed. It is more likely a new man will be settled upon by the Republicans, and the hope of all is that he may be a good and a

S RING ELECTIONS.

As the spring elections in the various towns and townships of this county are soon to take place, we would direct the attention of all tax payers to the wisdom of having good officers elected as a general thing, and particularly the necessity of good assessors being chosen. The assessments made by the different assessors are really the foundation of all our taxation and if carefully and correctly made will save us all trouble in the future. In view of past experience in this matter we have no doubt great care will be taken this year in the selection and election of the different assessors throughout the county.

POWER OF THE MACHINE.

A most striking example of the power of the machine at Harrisburg was witnessed in our Court last week. The Hon. John M. Greer, State Senator for this and Armstrong counties, not finding enough to engage his time and attention at the seat of government, in maturing laws and looking after the interests of his constituents, came home here to take part in the trial of cases. He had just got fairly into a case when a dispatch came to him from the "boss" of the machine at Harrisburg, commanding him to return immediately. There was a scare among the Oliver patriots, and he was needed. He left on the first train in obedience to the order. No magic could have worked more mysteriously. The machine says to one, as to his slave, "go and he goeth and to another come and he cometh." Its subjects can have no release from it when once in its power.

But there is another view of this matter. A Senator and Representative receive ten dollars a day for each and every day of a session. For what? For attending to their duties as members, of course. How can a member attend to them and be at home half his time attending to his private business? He cannot do so only by neglecting the public business he was elected to, and is paid for and was sworn to attend to. If there was any scarcity of attorneys at our Bar there might be some excuse for Mr. Greer neglecting his duties and attending to his private interest. But, as we all know, the Bar of this county is well stocked with attorneys just now, who are able and willing to attend to all business in that line. The fact of a legislator taking the public money, and not attending to the public interest in the highest degree dishonorable and is creating much comment in our community. We refer to the case here at the request of many citizens. The practice should be put an end to at once.

LET THE PEOPLE ELECT.

Hon. Harry White, in Congress, deserves the thanks of all people and parties for introducing the subject of a change in the United States Constitution, so that United States Senators shall be elected by the people. The time is ripe for this change. The people of Pennsylvania will hail it as a great deliverance. This high office, equal only to the Presidency in our opinion, is, we can almost say, now bought and sold in nearly every State of the Union. This results from the fact that they are elected by a few men, the members of the Legislature, and the temptation is great to make money or procure places for themselves or friends for their votes. Many of them are unacquainted with the candidates and care but little who is chosen. Hence, when it becomes known that a candidate is rich and is willing to spend money, he will always have followers and votes. Indeed, it is often the case that rich men are purposely selected to become candidates for that high office in order that they may be plucked of some of their feathers. There have been cases in Pennsylvania of this kind, and it is insisted by many that that is what brought on and is keeping Mr. Oliver, of Pittsburgh, in the field now. Were he not a wealthy man his name probably would never have been thought of, neither by himself or his friends. We presume this will be admitted. The principal claim made for him is that of spending freely and giving liberally to campaign funds at the last election. And it is possible that those who at Harrisburg are now running the "machine" for him are doing so for their own gain and his certain loss. One thing is certain, money now overtops ability in the selection of United States Senators. All this will be remedied if the people have the electing of them. We hope Gen. White will press on his resolution with all possible speed. The Legislatures of the States are now generally in session and now would be a most favorable time for Congress to pass and send the proposed change to them for their approval. And we have no doubt the proposed change would be approved. No honest member of the Legislature would think of opposing the change, but on the contrary would gladly be relieved of that duty. The dishonest member and the ring men who run the machine to run out the man for United States Senator who gives them the most money, they of course would oppose the change. Will Congress act on this important matter by passing the resolution providing for a change in the Constitution and giving the election of said Senators to the people? Sooner or later it must come to that. The following is the amendment proposed by Gen. White's resolution:

Resolved,

By the Senate and House of Representatives of the United States of America in Congress assembled,

That the Constitution of the United States be amended so that the United States Senators shall be elected by the people.

Honored and Blest. When a board of eminent physicians and chemists announced the discovery that by cooking some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were skeptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Her Bitters, are honored and blessed by all as benefactors.—Democrat.

—The appointment of ex-Senator Mattews to the Supreme Bench will please some prominent Ohio Republicans, who will see one lion less in the path to public greatness. There is a Washington word, "wanted genuine," offered for \$10,000, a Madison manuscript on logic, for \$5,000; a set of Benjamin Franklin papers, for \$25,000. Possibly it may be necessary to add to the standing committees of the Senate a committee for buying historical curiosities.

—An Ohio paper proposes to number the hours of the day and night consecutively from one to twenty-four, or from midnight to midnight, thus doing away with A. M. and P. M. in railway time tables and elsewhere. The advocate of the proposed new method says that there is no more reason for having two 12 o'clocks in one day than there is for two twelve-mile posts on a twenty-four-mile railroad.

License Court. The Court held Wednesday the 9th day of March, A. D. 1881, for the hearing of applications for license to sell intoxicating liquors, and direct notice thereof to be given by publication in the Daily Courier.

At Harrisburg our members, after careful inquiry and examination, have unanimously decided that they can buy Dry Goods, Carpets and Millinery cheaper at Ritter & Ralston's than in the Capital.

—The cat, which never otherwise distinguished, has always been ahead in the popular estimation, on the number of lives at its disposal. "Victorio," the Indian cat, was, at last accounts, far ahead of the cat. We have had the pleasure of thirteen times announcing his death and have thirteen times ignominiously backed down from that position. The latest advices place the chief at Black Ridge, New Mexico, killing miners.

Messrs. Ely Bros., Druggists, Oswego N. Y.—Your "Cream Balm" differs from all other preparations, as it does all you claim for. I have been cured of Catarrh of many years' standing by its use, and my sense of smell has been restored. For colds in the head it works like magic. E. H. Shero, National State Bank, Elizabeth, N. J. Aug. 13, 1879.—See Adv't.

Ely's Cream Balm for the cure of Catarrh and Hay Fever is having large sales with me. I pronounce it the best article I have ever used in the treatment of these diseases, and take pleasure in recommending it to my patrons, as I am from day to day hearing the most favorable reports of its beneficial effects. Henry B. Sempie, Druggist, Easton, Pa.

—Major James G. McQuaid, died at his home, last week, in Norristown, Pa. He was engaged in the oil business in Venango and Butler counties for several years, and also a partner in the Banking firm of Ralston & McQuaid. His place was taken by Mr. McQuaid, who is a gentleman in every respect and was held in high esteem by all who knew him.—Karns City Telephone.

—The leisurely manner in which legislative bodies sometimes move is illustrated by the fact that the Elections Committee of the House of Representatives have apparently just discovered that Noble A. Hull was not elected to Congress in 1878 from Florida, but that Colonel Bishop was. Of course Mr. Hull has had a place in the House meantime, and has enjoyed the privilege of voting with the majority there for nearly the full term covered by a regular salary, though no more a Representative than any other private legislator of Florida. After taking so long to find out so simple a thing, the wonder is that the committee thought it was worth so much to know.

Farm for Sale. One of the best farms in Penn township, containing 8½ acres, and situate 4 miles from Butler, is for sale. Improvements good; orchard of 200 bearing trees. Inquire of Geo. Walter, Butler, Pa. Jan. 5, '81, it.

—Indiana is going to figure conspicuously in the journey of General Garfield to Washington when he goes to be inaugurated. The car in which the Presidential party will ride is being built at Jeffersonville, at a cost of \$17,000, and only Indiana mechanical skill is being utilized in its construction, everything in the car except carpets and some mahogany, holly and cherry, and the decorations being the product of that State.

Worth Remembering. Now that good times are again upon us, before indulging in extravagant show, it is worth remembering that no one can enjoy the pleasantest surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomachs, liver or kidneys, or a dry, hacking cough, and one foot in the grave, when a 50¢ bottle of Parker's Ginger Tonic would do them more good than all the expensive doctors and quack medicines they have ever tried. It always makes the blood pure and rich, and will build you up and give you good health at little cost. Read of it in another column.

—The personal property belonging to the estate of the late Jas. E. Brown, which has been undergoing appraisal for the last week or two amounts to the sum of \$765,000. At large amount of this consists of doubtful and worthless accounts, judgments, etc., which will reduce the personal estate perhaps one-third. Messrs. Simon Taylor and Samuel Crawford, of this borough, were the appraisers.—Kittanning Sentinel.

—Speaking of the clause in our State Constitution forbidding the consolidation of telegraph companies, the Hon. J. Sun "thinks it would be strange indeed if Mr. Guild and Mr. Vanderbilt should not discover the means of protection in a State where the Pennsylvania Railroad, with its charter at the mercy of the sovereign who gave it, has calmly treated the Constitution as a dead letter, and persistently refused to be restrained or controlled by it."

A Fool Once More. For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humbuggery. Six months ago I saw a U. S. flag with Hop Bitters on it, and I thought I would be a fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays.—H. W. Detroit, Mich.—Free Press.

—The persistency of Skobelev has been rewarded. The fortified town of Geok-Tepe which has resisted for so many months the advance of the Russian arms has been carried by siege, mining, and assault. The importance of Geok-Tepe is purely strategic, as being the first point of general resistance to the Russian march on the Caspian Sea to Merv. An English officer selected the site for the fort, and laid out the earthworks which have proved almost another Plevna to its Russian assailants.

—By an examination of the County Auditor's report published this week, our readers will see that if the amounts due the county from different electors were paid the county could pay off all its indebtedness and have over \$25,000 remaining in its treasury. This state of affairs is very creditable to the present board of Commissioners, the Hon. Auditors they deserve credit for their fair and complete report, the preparation of which took double the time usually spent upon it.

—The tendency of the people to congregate in cities is shown by the fact that since 1870 the number of cities with population of ten thousand and over has increased from 184 to 245, or with a total population of 11,100,201 as against 7,672,233 in 1870. The increase in the cities is estimated at fully one-third of the whole increase of population in the country, and has been the expense of the country generally. We believe this tendency is contrary to the best interest of the people, both morally and materially, but the evil is one that will fight itself through natural causes.

—Mr. Burdette in a letter at Harrisburg said: "This is Hartford—you can get insured here in any way and for anything you wish—mutual, endowment, tontine, accident, intentional, non-life, differential, protoplasmic, Baptist, Old School Presbyterian, Catechism, National, Bohemian, Roman Catholic, Gothic, Byzantine, greenback, composite, Corinthian, Scotch, chevion, gossamer, seamless, new Wheeler & Wilson, barbed wire, liver pad, and hard finish. It is the central and distributing point for the entire insurance business of America. No insurance company is genuine unless Hartford is blown upon the bottle."

—Another Enoch Arden has turned up in Michigan. Hiram N. Potts, with his wife and four little children, lived in Battle Creek twenty-one years ago. The family exchequer running low and California gold excitement going high, it was determined that Hiram should seek his fortune beyond the plains. After many tears and misgivings came the parting. Mails were not too rapidly or regularly in those days, and long intervals grew still longer. Then the letters stopped altogether. Two of the children died, and the mother and her two remaining little ones found it difficult to procure the necessary of life. She remoted to Galesburg, where she wrote to her husband informing him of her new address, but the message never reached its destination. The husband's letters were addressed to Battle Creek, and of course were never called for. He was thought by his family to be dead. In time the widow married again to a thriving merchant, by whom she became the mother of several children. The first husband's children grew to maturity, the daughter marrying and removing to another city and the son becoming a school teacher. On Saturday of week before last the long-lost husband and father reappeared upon the scene, grizzled with age, but as healthy as the result of the misadventure. On the following day
