

BUTLER CITIZEN

OWNED BY W. C. NEBLEY PROP'RS.

Published at the Postoffice at Butler as a second-class matter.

Accepted for mailing at special rate of postage provided for in Act of October 3, 1917, authorized on July 16, 1918.

The present County Superintendent of schools of Armstrong county, declines to be a candidate for re-election.

Mr. Ziegler, of the Herald, has the confidence of ourselves and all connected with this office in his sad bereavement.

Mr. J. G. VORLEY, son of Mr. George Vogeley, of this place, and who has been living in San Francisco, California, for some years past, is at present on a visit to his relatives and friends here. He will return to the Pacific slope next week.

Judge J. W. McDILL, of Union county, Iowa, one of the Railway Commissioners, has been appointed by Governor Gear, of that State, to fill the vacancy caused by the resignation of United States Senator Kirkwood.

Judge McDILL was a member of the Forty-third and Forty-fourth Congresses, and also of the Electoral Commission.

LAND IN MICHIGAN.—There is a family in Brady township, this county, who own 120 acres of land in the State of Michigan, that can be bought very cheap at present. To any person in this county thinking of going west, or to that State, we would advise them to inquire about this land. Further information can be obtained at the CITIZEN office.

REV. WILLIAM A. PASSEYANT, of the English Lutheran Church, has started a new paper in Pittsburgh, called the Workman, in the interest of the church. It is a sixteen page paper published twice a month and for the small sum of \$1.25 per year. Its object is the dissemination of good church literature and it supplies a want felt in the western part of the State.

HON. JAMES T. LANE, formerly of this place, and now of Iowa, paid his friends here a visit this week. His many old acquaintances were really glad to see him. Mr. Lane was married to a daughter of Gen. George W. Reed, of this place, and shortly afterwards removed to Davenport, Iowa, where he has achieved eminence in the practice of his profession of the law. He is looking well and hearty at present.

The first act of Mr. Mitchell, Pennsylvania's new Senator, after taking the oath of office, was in opposition to Senator Cameron, to delay the confirmation of the President's nominees for his Cabinet. Senator Mitchell was in favor of immediate confirmation, and the majority coinciding with him, the confirmation was soon concluded. Senator Mitchell may be a Cameron man, but he don't start out as if he was.—Crawford Journal.

At the Argument Court, New Castle, lately, Judge McJunkin, in the case of Walter S. Crawford et al., vs. the New Castle & Franklin Railroad Receiver, A. Vandivort, to sell the road with all its rights and appurtenances. The decree is quite lengthy. Among the points are these: Five per cent. of the purchase money to be paid at time of sale; if the price exceeds \$200,000, then \$10,000 to be paid at the time of sale, and balance on confirmation of sale and delivery of deed.

The Honorable John M. Greer has not accepted our offer made in the interest of the depositors in the late National Bank of this place, who are likely to suffer so largely. We had hoped he would, and our offer will remain open to him. But as he gives evidence that he desires no further allusion to that subject, and seems to be mending his ways, and as the ring has been defeated in all quarters, we feel disposed to drop that, and kindred subjects, in the interest of the Republican party of this county.

The Inaugural Address of President Garfield will be found in full on the first page of the CITIZEN this week. Every one will be better informed after reading it. It treats of every living question that concerns the welfare of this Nation at present, or in the near future, and treats of them in a manner and eloquently in style. And there is scarcely a word, a sentence or a sentiment, that fault can be found with. It is the most learned and interesting paper of the kind since the days of President Washington. Let all read it and feel better for the growth, the grandeur and the future greatness of their country.

CANDLE COAL. Mr. John P. Thompson, of Brady township, brought to our office, last week, some lumps of a candle coal which has been found on one of his farms, the one known as the Turk farm on Muddy creek, on which it exists in large deposits. This coal is likely to become very valuable. It is called candle, or candle, because it burns with a clear yellow flame and has been used as a substitute for candles, and hence its name. It is supposed to be a fossil or petrified formation, and although hard, can be cut and polished. Containing a good deal of oil or bitumen, it burns readily, making a cheerful fire. It is known to exist in other parts of Butler county, but the specimens shown us by Mr. Thompson are the most interesting we have seen, and if it exists in large quantities, as is supposed it does, the farm of Mr. Thompson is a very valuable one.

The selection of Mr. Wayne MacVeagh for the Cabinet position assigned to this State is generally understood to signify that Senator Cameron is not going to "run" the present administration. Office-seekers who betrayed their trusts in the Legislature during the first six weeks of the present session will glean what comfort they can from this state of facts. Office-seekers who were not members of the Legislature, but who, either by means of public meetings, as members of committees, or as editors or controllers of newspapers, backed up the Machine and denounced the Independents, have also something in this cold cut at Cameronism to reflect upon. After all it pays best, in the long run, to adhere steadfastly to principle, and to be true to public sentiment.—Crawford Journal.

Overthrow of the Ring. PENN TOWNSHIP, March 4, 1881. EDITOR CITIZEN.—I notice in the Eagle of the 2nd, some one attempting to answer an article published in the CITIZEN of February the 9th, on the Senatorial dead lock, which was lately unlocked by the smash of the ring, which meets with the approbation of every intelligent Republican of Penn township. We were brought to exclaim when we read this article, since, where did such a man as that come from. But without much search we found it in the shape of a Sea Man. For our part we don't see where Mr. S. has placed one single truth before the readers of the Eagle in his reply, for we have read it carefully and don't find one single sentence in it which the shadow of truth exists, except the one, where he says, that the Republicans of this and every township expected our Representatives to vote for the best interest of the party that elected them to their seats. This is the only clause in his reply that is true. We certainly do expect them to represent the will of the people. That is why the majority of the Republicans of Penn denounce the course of Messrs. Greer and Bell. They have deceived the people. But we rejoice to know that we did elect one that did represent and vote for the best interest of the Republican party that elected him, and his course at Harrisburg is applauded by all true Republicans in this part of the county. They feel proud that they have elected one man, W. P. Brahm, in whom they can put trust and confidence. We would be very glad to have the Republicans of Penn township take a vote on the course of our representatives as Harrisburg, and by so doing Mr. S. would certainly find out whether he is a truthful writer or a falsifier of the truth. There was a deep feeling manifested among us to make their influence felt in New York by not buying of those wholesale houses, jobbers and manufacturers who continue selling to periodical bankrupts, or who compromise with such bankrupt firms.

At the late meeting of dry goods men at Corry caused by the disastrous failure of DeForest Weld, of Jamestown, Meadville, Titusville, Warren and Bradford. A series of resolutions were unanimously passed by sections of the community, and a meeting was held to make their influence felt in New York by not buying of those wholesale houses, jobbers and manufacturers who continue selling to periodical bankrupts, or who compromise with such bankrupt firms.

It will ever be remembered of the Hayes administration that it paid off \$508,820,730, 27 of the public debt and reduced the annual interest charges on the remainder no less than \$11,557,708. Besides, it saw the return to specie payments, whereby the credit of the nation was so greatly strengthened, that has been rendered possible at greatly reduced rates of interest. No previous administration has been a greater success financially, and if his successor can manage to keep the new administration up to some high financial standard of success, the highest wishes of the people in this particular will be satisfied.

A good point made by the Philadelphia Press in noting the fact that the newspapers generally speak of Mr. Wayne MacVeagh, with the title of "Hon." as implies that he needs no display of titles to proclaim his merits or his pretensions. The liberty loving world will ever speak of "Mr. Lincoln," because to speak of "President Lincoln" implies that the title is his fame.—Philadelphia Times.

The Legislature. HARRISBURG, March 10.—In the Senate the House bills to prohibit the proprietors of places of amusement from obtaining license for selling intoxicating drinks; to punish minors for obtaining intoxicating liquors, and to punish the playing of pool and other games of chance were favorably reported with amendments.

The Senate will pay six thousand dollars for the payment of the expenses incident to the suppression of bogus diploma institutions, and the bill to regulate the practice of medicine, and to establish a State Board of Health, alleged by the author to be intended to prevent the establishment of bogus diploma shops, were reported favorably.

A joint resolution to create a commission to inquire into the effects of the liquor traffic was negatively reported.

Among the bills introduced was one by Mr. Lantz, of Lebanon, to punish persons for securing a life insurance policy or a certificate of membership in any fraternal organization, the fine shall not exceed one thousand dollars, and punishment one year's imprisonment.

Current resolutions were adopted giving as the sense of the Legislature that the trustees of the State Lunatic Hospital have the authority in cases of the destruction of hospitals to remove them to others at the expense of the counties from which the patients were originally sent.

The charitable mortgage bill elicited much discussion on third reading. Hall of Elk, Craig of Carbon, Cox of Luzerne, Jones of Philadelphia, Emery of McKean, favored its passage, and Newmyer and Greer opposed it. The bill was passed at second reading. The bill which provided that the vote by which the bill passed third reading be reconsidered, with a view of submitting an amendment that the act expire in six years. The motion was agreed to and the bill amended accordingly and laid over for printing.

The Pittsburgh six million dollar bond bill was passed at second reading. Upperman having called it up.

In the House today the bill to indemnify Allegheny county for riot losses paid was negatively reported.

The following bills were affirmative, ly reported:

Making appropriation to Pittsburgh

Five dispensary; for better protection of lives in cases of fire in hotels and public buildings; Senate bill fixing the number of Councilmen in Allegheny; fixing number of representatives in General Assembly.

Among the bills introduced is one by Mr. Slack to provide for the incorporation, government and regulation of the various ways in cities of the second and third classes. The bill covers eighteen closely written pages. Among the numerous bills passed second reading was the following: To authorize county commissioners, except in counties in which there are cities of the first class, to refund any indebtedness at a class, or rate of interest. The senate concurrent resolution relative to the transfer of patients was concurred in.

cultural lady and finished scholar, and the academy a faithful and efficient teacher, whose loss is regretted by all, and whom we follow with our best wishes; also,

Resolved, That we hereby express our hearty appreciation of the energy and ability displayed by Prof. Crawford in establishing our flourishing academy on its present promising basis; and while we congratulate him on his success, we desire to assure him of our continued confidence and support, and trust that the future of the academy under his management, shall meet his, as well as our most sanguine expectations.

Friends, remember the meeting on Saturday evening

THE CZAR MURDERED.

The Emperor of all the Russias Assassinated.—A Bomb Accomplished the Work.

St. Petersburg, March 13.—As the Emperor was returning from the parade in Michel Maneg, about two o'clock this afternoon, a bomb was thrown and exploded under the Emperor's carriage, doing considerable damage to the carriage. The Emperor was unhurt, but a second bomb exploded at his feet, shattering both legs below the knees and inflicting other terrible injuries. The Emperor was immediately conveyed in an unconscious state to the Winter Palace, where he died at 3:25 this afternoon. Two persons were connected in the murder of the Emperor, who were seized immediately. The explosion also killed an officer and two Cossacks. Many policemen and other persons were injured.

THE OFFICIAL ANNOUNCEMENT.

The official messenger made the following announcement: "God's will has been done. At 3:25 o'clock this (Sunday) afternoon the Almighty called the Emperor to himself. A few minutes before his death the Emperor received the Sacrament."

DETAILS OF THE CALAMITY.

The Imperial carriage was attacked on the Ekaterinsky canal opposite the Imperial stables, where the Emperor was returning with the Grand Duke Michael from the Michael palace in a closed carriage, escorted by eight Cossacks. The first bomb fell near the carriage, destroying the back part. The Emperor and his brother alighted uninjured. The assassin, on being seized by the Colonel of Police, drew a revolver, but was prevented from firing it. The Emperor's carriage was thrown by another person and fell close to the Emperor's feet, his explosion shattering both legs. The Emperor fell, crying for help. Colonel Dorjkiy, though himself much injured, raised the Emperor, who was conveyed to the Winter Palace in Colonel Dorjkiy's sleigh. Large crowds assembled before the Palace, but were kept back by a line of Cossacks. The Imperial family were all assembled at the deathbed. The Council of State was immediately convened. All places of public resort are closed.

THE ASSASSINS ARRESTED.

The two assassins of the Emperor were immediately arrested. The gas lamps in Michael garden, beside the canal, were broken in pieces by the concussion. A cordon of guards was drawn around the scene of the murder. The streets are densely thronged with excited people. The Emperor, who was conveyed to the Winter Palace in Colonel Dorjkiy's sleigh. Large crowds assembled before the Palace, but were kept back by a line of Cossacks. The Imperial family were all assembled at the deathbed. The Council of State was immediately convened. All places of public resort are closed.
