It is to be fondly hoped that the State may come by its own from this particular corporation.

All the pending treaties were ratified by the Senate in a single session, last Thursday. The vote on the Chinese immigration treaty was almost unanimous, although the debate occupied three hours. A vigorous question is thus taken out of the politics of the Pacific Coast. A religious excitement has broken out among the mountains of South western Kentucky. A new Messiah has made his appearance among the moonshiners and rough mountaineers, and at his preachings their hearts are stirred as the trees are stirred by the storm. Miracles are wrought, the sick are healed by anointing and prayer, and their wondrous attend the preaching and ministrations of the Kentucky evangelist, Rev. Geo. O. Barnes.

Eighty-Five Dollars Lost. You do not tell me that your husband is up and about again, and entirely cured by so simple a medicine as Parker's Ginger Tonic? Yes, indeed, I do, said Mrs. Benjamin to her inquiring neighbor, and that too when we had nearly paid eighty-five dollars in doctor's bills and prescriptions, and after he had been given up by his physicians to die. Now my husband feels as well as ever, entirely cured by this excellent Tonic. And may a sick man might be well in a week if they would only try it.

Ladies and Misses' Gossamer Ulsters, at RITTER & RALSTON'S. The Mormon question affords a good illustration of the difference between talking and doing. While the Government is calling attention to the necessity of crushing out Mormonism, the Mormons are sending out missionaries to foreign lands to convert and convey hither more disciples. The departure of a large company of Mormon missionaries from, and the arrival of two hundred Mormon proselytes at the port of New York in the same week, is in telling contrast to the long-continued and unrelenting policy of the Government. Mormonism has already been scotched several times, it ought now to be finished for good and all.

A Louisiana jury that has just been trying a man for killing his daughter's seducer has convicted the prisoner on a charge of manslaughter, but asked the only lightest legal punishment be inflicted. Such a verdict is creditable alike to the heads and hearts of the jury. The general expectation of an acquittal has been disappointed; but this is all the more to the jury's honor for the average jurymen intensely dislikes to oppose public opinion. Man-slaughter is the least offense, technically, of which a man can be guilty, and the least of manslaughter, but asked by which some juries dodge their duty, is not believed by half the men who make it the excuse for a verdict of acquittal. If a man chooses to avenge his private wrongs by taking the life of a fellow man he should be man enough to take the consequences; if public opinion supports him in his illegality and claiming consideration for it, and the only honorable course for a sympathetic jury is that embodied in the Louisiana verdict just alluded to.

People are Always Satisfied with the Goods they buy at RITTER & RALSTON'S, because the Firm do not allow any of their employees to misrepresent goods. Messrs. S. G. Parvis & Co., of this place, now have for their machinery for the manufacture of doors, sash and blinds in place and have orders in for all they can manufacture for some time. To a person interested in machinery their catalogue is well worth a visit. They can now make and finish about a hundred doors per day and a comparatively large number of sash and blinds. The movable blinds receive a great deal of labor in the putting of them together. To guard against fire, they have a night watching man and a Babcock extinguisher. Most of the goods they manufacture are shipped to Pittsburgh and the surrounding towns.

One of the most effective movements toward reform of late has been the effort to improve the character of literature sold on railway trains. In years past most of the reading matter offered for sale by the train vendors has been of a highly sensational character, and of a low and vulgar quality. Large profits were realized. The dealers, however, felt themselves justified in selling what would yield the best returns on account of the large amount they were charged by the railway companies for the privilege of selling their wares upon their respective lines. One of the first to inaugurate the reform was General Superintendent Paine of the Lake Shore & Michigan Southern Road. By him all obscene publications, or those having a tendency to produce immorality were banished from the company's trains. Gradually the same rule was introduced upon other roads, and much that was formerly objectionable in the books and periodicals sold has disappeared entirely.

A Louisiana jury that has just been trying a man for killing his daughter's seducer has convicted the prisoner on a charge of manslaughter, but asked the only lightest legal punishment be inflicted. Such a verdict is creditable alike to the heads and hearts of the jury. The general expectation of an acquittal has been disappointed; but this is all the more to the jury's honor for the average jurymen intensely dislikes to oppose public opinion. Man-slaughter is the least offense, technically, of which a man can be guilty, and the least of manslaughter, but asked by which some juries dodge their duty, is not believed by half the men who make it the excuse for a verdict of acquittal. If a man chooses to avenge his private wrongs by taking the life of a fellow man he should be man enough to take the consequences; if public opinion supports him in his illegality and claiming consideration for it, and the only honorable course for a sympathetic jury is that embodied in the Louisiana verdict just alluded to.
