Orders by mail, addressed to his name will receive prompt attention. july20m1 —Mr. Benjamin Birch, formerly of this place, was badly injured in a Pittsburgh iron mill, last Thursday, but at last accounts is

Last year the amount paid for jute mported into the United States was valued a 7,000,000. For the year ending June 30, 1881 he amount is estimated at \$10,000,000.

—No more Jury Commissioners.
The law was repealed last winter and after the expiration of the terms of Messrs, Monks and McCrea, the duty will devolve upon the County Commissioners and Sheriff.

—Articles of incorporation of the Oriental Interoceanic and International railroad have been approved by Gov. Cornell, of New York, and filed by the Secretary of State. The capital of the company is \$25,000,000.

—Can I give my son a college edu-ion at home? asked a proud, anxious father. ertainly," replied an expert, who knows all ut it. "All you want is a base ball guide, a ing shell and a few packages of cigarettes." -Each Senator of this State has

as grown a tail, a forked one at that, and is ming, head on, for the earth, will add to pub-interest in this new messenger of the skies, ich may yet carry off the honors as the great net of 1881.

The Salt Lake Tribune suggests the Mormons should consider the proposi-to purchase the Sandwich Islands. It would ire only seven years tithing to foot the bill ,000,000, and they would have a kingdom) themselves.

—A peculiar type of diphtheria, pro-med by physicians to be wholly a nasal able, has presented itself among the children Hazleton, Pa. It is said to be something e membraneous croup, and yet a disease ich results in the child's death in nine out

—A Steubenville (O.) dispatch says at a man named Elias Smith, of Harrisburg, a recently married to a widow named Ald-ige. When the two reached the home of Mrs. dridge's parents in Steubenville they were

By the advertisement in another on it will be seen that another dividend has medelared to the creditors of the First Nasal Bank, of this place. This is the third idend that has been ordered and with it the ditors will have received 40 per cent. of their ims on the Bank.

—A Connecticut man lost papers epresenting \$8,000 while at a picnic. That tight he dreamed three or four times where the apers were, and next morning he went to the pot and recovered them. He is now trying to ream the whereabouts of ten dollars he loaned man two years ago.

"Fence-board advertisements," observed a practical old farmer, "are well enough
as landscape adornment, but if you are desirous of purchasing an article it is easier and
more convenient to lock through the columns
of a newspaper to see who has it for sale than
it is to "hook up" a team and drive around the
country reading fences."

country reading fences."

— The most important industry in New York city is the manufacture of men's clothing, a branch of business which has grown wonderfully since the introduction of power for cutting as well as sewing. The yearly production in this line is valued at \$59,798,697, employing 64,066 hands, while women's clothing figures for \$18,599,487, employing 17,267 hands.

— One of the President's physicians expressed the opinion the other day to a personal friend that the President would certainly recover, but that it would be a tedious operation, necessitating perhaps several months of close attention. He did not think he would be up and about in a few weeks, as many persons supposed, but must exercise a vast amount of patience and submit to a slow healing of his wound.

—At the last regular meeting of the "Germania Orchestra" the following officers were elected and constitute the Board of Management for the ensuing year: President and Manager, E. W. Vogeley; Secretary and Treasurer, M. A. Lowman; Librarian, Geo. C. Pillow. E. D. Colbert and Jas. Vogeley were elected members of Board of Management. The Board of Management elected Mr. William S. Ziegler, Leader.

region of the west are not encouraging. They come just when this staple cereal is in a critical condition, just when it is ripe for the chinch condition, just the rain, and the tornado, but not quite ripe for the harvest. The central cereal region will apparently have a small crop but in the northwest the prospects are better—in some regions even brilliant.

The address of ex-Chief Justice —The address of ex-Chief Justice Agnew, of this State, on the "dangers of Republican government in the United States, delivered before the graduating class and faculty of Roanoke College, Salem, Va., at the late commencement at the college, is one of the best things we have ever read. A copy of the address will be sent free to any address by applying to the Secretary of the Faculty, Roanoke College, Salem, Va.

-A mine of Antimony, a valuable

-Economists in Berlin are divided the question of emigration, some holding it feeting other peoples than its own. -Economists in Berlin are divided on the question of emigration, some holding it to be a purifying stream giving relief to an over-populated country, others looking upon it as a disastrous drain of capital and muscle. One authority has reckoned a loss to Germany by emigration to America of not less than 12,300,000,000 marks in capital. There certainly is no division of opinion in this country about giving welcome to all who come.

Mr. James Bown, of Pittsburgh, —Mr. James Bown, of l'Ittsburgh, member of the firm of James Bown & Co., dealers in guns, etc., and Mr. Thompson, President of the Allemania Fire Insurance Co., of same city, made our town a visit last week and while here were the guests of Sheriff Hoffman. Mr. Thompson is quite a noted shot, but at a little match gotten up for the visitors, our townsman John N. Muntz tied Mr. Thompson three times. They shot at glass balls thrown from a trap.

-Leo Hartmann, the most noted, —Leo Hartmann, the most noted, perhaps, of all the Nihilist leaders, arrived in this country last Friday. Since his attempt, which came so very near being successful, eighteen months ago, to blow up the Moscow train, and with it the late Czar and his imperial retinue, a price has been on his head. There is, perhaps, no man in the world to-day more obnoxious to the Russian government than this latest political refugee, from the old to the new hemisphere.

_A Charleston (Va.) paper tells —A Charleston (Va.) paper tells this story: "A bass weighing one pound in 1880 was returned to the Potomac with a small sleigh-bell attached to its tail with a wire. A few days ago it was caught with the bell still attached, the fish weighing six pounds." This may sound like a fish story, but some of our readers will remember that a one pound bass caught in the Schuylkill five years ago was returned to the water with a penny tin-whistle attached to its tail. Three years later the bass was caught near the same spot. It still weighed a pound, but the whistle had grown into a fog horn.—Norristown Heradd.

-During General Grant's occupan-—During General Grant's occupancy of the Presidential office it was a frequent subject of remark that he had an unusually large number of relations. The descendants of the Palmer family, to the number of 2,000, are to hold a reunion this month in Connecticut. A shrewd genealogist has traced General Grant's pedigree back to old man Palmer, who came over in the Mayflower or about that time, and the ex-President accepts the connection with his usual readiness to take whateyer comes to hand. The third term is more objectionable now than ever. An addition of this couple of thousand new relations of General Grant to the civil list would be more than the country could well stand.

-On the 27th of June, Mr. L. Pala few feet apart was the dead and mangled body of Mr. Palmiter and that of a large cata-mount. It was evident from the surroundings that the struggle for life had been severe, as the ground where the fatal encounter took place was covered with blood. The animal was a very large one, measuring five feet and six inches in length, and twenty inches in heigth.

-In no one of our thousand indus-—In no one of our thousand industries, perhaps, has greater progress been made during the past fifteen or twenty years than in the manufacture of silk and the products of silk. Beginning in a small way in Jersey city the gentlemen who engaged in this new and untried experiment have steadily persevered until to-day the looms of Paterson are as renowned as those of Lyons and the fabrics they send forth are equal if not superior to anything that comes to us from the Old World, which it was supposed enjoyed a monopoly that could not be overthrown in this fine and costly line of manufacture. The result is another and not the least of the triumphs of American courage, skill, energy and enterprise.

—A remarkable man hunt is going on in the wilds of Wisconsin. On the 10th of last month two brothers, named Coleman, officers of the law, who were endeavoring to arrest two horse thieves, Lon and Edward Williams, were murdered by the mei they were pursuing, in the village of Durand. A posse of citizeus and officials at once set out in pursuit and chased them into the Big Woods of Wisconsin. There are outlaws now hiding, and have thus far eluded their pursuers. Late dispatches say that eight Indian scouts, headed by Buffalo Charlie and Yellowstone Kelly, and accompanied by thirty bloodhounds, have arrived to aid in the chase, and the big woods will see such a terrible hunt as they never saw before. -A remarkable man hunt is going

—A mine of Antimony, a valuable mineral used in medicine, and also in the manufacture of type, has been discovered in Utah territory. All autimony heretofore came from Great Britain and the island of Borneo, and paid an import duty of 10 per cent ad valorem, and there is also some from Sonors. It is believed that with proper rail facilities to the mines of the west there will be no need of importations.

—No clue to the perpetrators of the outrage of March 25th last, upon John Connor and his wife of Catfish Station, Clarion conjuty, on the A. V. R. R., was discovered until Thursday of last week, when some parties negotiated through a firm of Pittsburgh land brokers for the Bridge Co. Bonds that had been taken from Mr. Connor. A comparison of the numbers of the bonds showed that they were part of the Connor plunder, and the parties who had them and laso the brokers were arrested.

at Great Belt, a few years ago.

—The discovery of several infernal machines to have caused to have caused the machines to have caused to have caused the found will pass two all that two discoveries to have caused the machines. Sir William Vernom, which if true would show to that they were the work of Fenians. Sir William Vernom Harcourt, the Home Secretary, stated that the discoveries were the result of information ever presses doubts of the truth of the proport built to bluff, three hundred feature to discoveries were the result of information ever presses doubts of the truth of the proport built to bluff, three hundred feature the discoveries were the result of information ever presses doubts of the truth of the report, but the discoveries were the result of information ever presses doubts of the truth of the report, but the discoveries were the result of information ever presses doubts of the truth of the report, but the discoveries were the result of information ever presses doubts of the truth of the report, but the discoveries were the result of information ever presses doubts of the truth of the report, but the discoveries were

-There is something in codfish —There is something in codfish which seems peculiarly provocative of international disputes. It is not long ago that the United States paid Canada a fish bill of \$5,500,000, and Mr. Walter Blaine, aided by legal counsel, lately, divided among the Gloucester people the proceeds of a \$75,000 fish bill which had just been collected from the Dominion. Now Commissioners are sitting in London in regard to a fish quarrel between England and France; and the action of the French commandant on the Newfoundland coast is one of the subjects of discussion between the two Governments. The St. George's Bay trouble involves a question of disputed rights of French fishermen to catch and cure fish on a certain portion of the west coast of Newfoundland. In the treaties which confirmed British sovereign-

conceded, but also as to the manner of enjoying them.

There is, perhaps, no man in the world to-day more ohonxious to the Russian government than this latest political refugee, from the old to the new hemisphere.

—One of the main witnesses against John D. Lee and the Mormon miscreants who were responsible for the Mountain Meadow massacre has perished mysteriously. The body and following Findley's run have been surveying a man so for the foulest chapters of Mormon history, which marks of violence. It is a startling sequel to one of the foulest chapters of Mormon history, which makes the fate of the witness terribly significant is his own prediction: "The Church will kill me sooner or later."

—Among the other great improvements of the time pieces of a whole city can be regulated. This is done by means of compressed and madrid are soon to have such an arrangement and Madrid are soon to have such an arrangement and Madrid are soon to have such an arrangement and the pneumatic clock is to be introduced in to England also. The probabilities are that its use will very soon become extended to all of the large cities of the world.

—A Blair county woman was lately stung on the wrist by a weak feat.

the large cities of the world.

—A Blair county woman was lately stung on the wrist by a "snake feeder." The wound gave great pain and caused the arm to swell up, and in a short time the whole body became swollen and raised up in spots like the welts left by a cowhide. Remedies were administered, and on the following morning the swelling had gone down considerably. The insect stung the woman on an artery, and the poisonous blood passed through the entire system. They are generally cowardly and are more apt to retreat than to attack individuals.

—BARN BURNED.—The barn of Mr. Andrew Heagel, of East Jackson township, this county, was struck by lightning on last Thursday and with all its contents burned up. Mr. H. had just finished filling it with his harvest, of wheat, hay, etc., and his loss is a very serious one. The barn was a new one just built for him by Mr. Elias R. Boyer, who was farming the place and who. also lost about \$100 in hay etc. Mr. Heagel is an old man, crippled up, and his saged wife blind. There was no insurance and his case, we are informed, is one that should commend itself to the charitable action of all his neighbors.

—A Charleston (Va.) paper tells

—A very large proportion of the immense number of immigrants arriving in this country are going west with the intention of 'homesteading'' so soon as they can legally do so. Besides a fair opportunity to win a livelihood or a fortune, the United States offers to every adult among them who "declares his intention" of becoming a citizen, 160 acres of uncocupied public land in any State or Territory possessed of land subject to entry, on condition of actual settlement—dwelling upon and cultivating the soil embraced in the entry. At the end of five years of continuous residence on, and improvement of, the land, he can receive a patent for it, though the final title will not be issued until full citizenship is obtained. The only payment for such a bountiful grant is a petty fee amounting to \$34 on the Pacific Coast and to \$24 in any other part of the country. Moreover, if the "locator" wishes to purchase his homestead outright, he can do so at the end of six months, paying for his land at the rate of \$1.25 or \$2.50 per acre, according to the provision of the law on the commutation of homesteads. The homestead act has been in operation 18 years, though much the same system of disposing of the public lands has existed for nearly 80 years, and up to the end of the last fiscal year—June 30—the United States has donated to immigrants and others 19,265,337 acres.

Among millers especially in the

The ground was a very stiff sod, not having been plowed for thirteen years. The judges closed their report as follows: We report the

A Farmer's Folly.

Uniontown, Pa., July 19.-Last Thursday Robinson's circus exhibited in this place. Michael Crow, brother of Judge Crow, of Nicholson township, having obtained a complimentary ticket from some one who had exhibit ted one of the lithographic pictures in his store window, concluded to visit it. He felt in a good humor, and displayed himself conspicuously to three individ-uals inside the canvas, who finally proposed to show him how he might louble any sum of money he would show them. Michael thought this an opportunity for "raising the wind" not to be neglected, so he left the show, went to the People's Bank and borrow-ed \$1,150, which he carried back to the show and exhibited to the "doubters.' While the money was being handled by one of the party, anothe snatched it and hastily disappeared in

children in an unbroken line of decent —On the 27th of June, Mr. L. Palmiter, a resident of Hamilton township, McKean county, went into the woods to watch a deer lick and not returning, his brother went in search, thinking perhaps some misfortune might have befallen him. Arriving at the lick a most horrible sight met his gaze. Lying a few feet apart was the dead and mangled load of Lost Nation because they had resolved to grind no wheat so soft. The flour from Minneapolis and other milling points in Minnesota has obtained its superior reputation principally because it is made of such very hard wheats as Fife. While this and other very Lard wheats will not yield so much per acre as soft varieties, mill-men can make a higher grade of flour from them by the "new process" and are therefore willing to pay a better figure for them. Quite a considerable number of mills in Western wheat, because it is deemed too soft, preferring to send grain buyers into Minnesota for their state have been tempted to grow soft wheats more extensively than formerly, and consequently the Minneapolis and other "high grade" mills in the northwest have lately been buying heavily in Dakota where a new grade, "Hard No. 1," gives great satisfaction, while the soft grain is being shipped in bulk to the eastern markets, mostly for export. It would seem that if the miller cannot ordain what sort of wheat the farmer shall grow in any other way, he will, wherever he can affort to do so, go so far as to refuse to buy soft wheat.

—It is announced that Postmaster-—A remarkable man hunt is going on in the wilds of Wisconsin. On the folth of last month two brothers, named Coleman, officers of the law, who were endeavoring to arrest two horse thieves, Lon and Edward Williams, were murdered by the mei they were pursuing, in the village of Durand. A posse of citizens and officials at once set out in pursuit and chased them into the Big Woods of Wisconsin. There are outlaws now hiding, and have thus far efficient either the coleman and red will be such a terrible hunt as they never saw before.

—The New York Legislature before adjourning, voted to send down to the people a Constitutional amendment providing for the abolition of all toils on the State's canais. These canals have played a very important part in the elevation of New York City to its of the Atlantic seaboard; and even the recent development of transportation by rail, while diminishing, has not destroyed, their importance, But they are now threatened by the completion of the canal system of Canada. Sea-going ships of small size will soon be able to start from the wharves of Chicago, Milwaukee and Detroit, and to reach those of Eurepool or Antwerp via the Welland Canal and the St. Lawrence river, without a single interruption or change of cargo. Hence the anxiety felt as to the future of New York City sa to see the content of the canal system of Canada. Sea-going ships of small size will soon be able to start from the wharves of Chicago, Milwaukee and Detroit, and to reach those of Eurepool or Antwerp via the Welland Canal and the St. Lawrence river, without a single interruption or change of cargo. Hence the anxiety felt as to the future of New York City as a beginning the content of the canal system of Canada. Sea-going ships of small size will soon be able to start from the wharves of Chicago, Milwaukee and Detroit, and to reach those of Eurepool or Antwerp via the Welland Canal and the St. Lawrence river, without a single interruption or change of cargo. Hence the anxiety felt as to the future of New York City chard, near the house, the table was The Continental R. R. Co., last that another such union will ever be

RICHARDS—On July 25, 1881, in Centre township, this county, Mrs. Nancy Richards, wife of Mr. Thos, Richards, aged 42 years, 3 months and 10 days. CORNELIUS—At Brunswick, Georgia, July 21, 1881, Col. James E. Cornelius, in 48th year of her age.

Col. Cornelius was a brother to J. Murray

County Superintendent. je22-3t County Superinte

Dissolution Notice. Notice is hereby given that the firm of Walter & Boos, of Butler, was dissolved by mutual consent on July 5th, 1881. Parties owing the late firm will please call at the Mill, in Butler, where the books are in the hands of Walter, and settle, as the accounts of the firm must be settled immediately.

WALTER & BOOS.

NOTICE—I would say to my patrons that I am now running the Mill myself and will be thankful for their patronage as heretofore. We have the mill in first class running order and are able to do as good work as any. Orders through town will be attended to punetually and goods delivered. Orders for Flour and Feed can be left at Vogeley's Tobacco Store on Main street, and they will be promptly attended to.
