Many persons complain of not feel-ing well; and though not absolutely sick or in pain, are perpetually in a state of discomfort caused by the disgestive organs not properly performing their work. To correct the disordered condition of the stomach and restore health, take a half-tablespoonful of Simmons Liver Regulator after each meal. Try this purely vegetable cathartic, tonic and alterative and it will convince you that no one can take it and remain long unwell.

A Maine paper prints a laconic cor-respondence between two personal friends. One wrote to the other; 'Do me the favor to lend me a dollar, to get my cow out of the pound.' The other wrote back I would, but I paid my last dollar to the boys to take the cow to the pound.'

A lecturer was once in a dilemma which he will probably never forget.

And she goes to bed say-ing: "There, I have been on the move all day, and haven't done anything!"

That was a good specimen of American wit in the reply made by an old settler who had lived in his city since it was a log cabin or two, to the young man who was putting him through a course of interrogatories. 'You must have lived here a long time?" 'Young man,' said the old settler, seizing the questioner by the coat lappel. 'do you see that hill across the river? pointing to a lofty peak. A minister with a rather florid complexion, went into the shop of a barber, one of his parishioners, to be shaved. The barber was addicted to heavy bouts of drinking, after which his hand was, in consequence unsteady at his work In shaving the minister he inflicted a cut sufficiently deep to cover the lower part of his face with blood. The min-ister turned to the baber, and said, in a tone of solemn severity, 'You see, Thomas, what comes from taking too much drink." "Aye," replied Thomas, with the utmost composure: 'it makes the skin very tender."

This anecdote must be old, but it is good and not common. A devoted Methodist, it is said, asked John Wesley what he thought as to his marrying certain woman well known to both. Wesley advised him not to think of it "Why," said the other, "she is a mem-ber of your church, isn't she?' 'Yes,' was the reply. 'And you think she is truly a Christian woman?' 'Yes,' said Wesley, 'I believe she is.' 'Well, then, why not marry her?' 'Because,' replied Wesley,' 'because, my friend, the Lord can live with a great many people that you and I can't."

The Cyclopaedia War.

The month of July; 1881, witnesses the completion of the largest and most important literary work this country and the century have seen. It is the Library of Universal Knowledge, large type edition, in 15 large octavo volumes, containing 10 per cent more matter than Appleton's Cyclopædia, at less than one-fifth its cost, and 20 per cent more than Johnson's Cyclopædia, which forms the basis of the Library of Universal Knowledge (the last London edition of 1880 being reprinted verbatim as a portion of its contents), is the laborious product pean scholarship. It has devel-clopædia making; its various revised, in successive years, till it has come to be universally recognized, by those competent to judge, as standing at the very front of great aggregations of knowledge, and better adapted than any other Cyclopædia for popular use. It contains such full and important information as the ordinary reader, or the careful student, is likely to seek, upon about 25,000 subjects in every department of human knowledge. Chambers's Encyclopædia, however, is a foreign production, edited and published for a foreign market, and could not be exence to American topics as sire. To supply these and of American editors and writers have added important articles upon about 15,000 topics, covering the entire field of human knowledge, bringing the whole number of titles under one alphabetical arrangement to about 40,000. Thus the work is thoroughly Americanized, and the Library of Universal Knowledge becomes at once the latest and most complete Encyclopædia in the field, at a mere fraction of the cost of any similar work which has preceded it.

Price Russia, sprinkled edges, \$25.00.

The superlative value and importance of this great Encyclopædia lies especially in the fact that it is brought within the reach of every one who aspires after knowledge and culture. It is really a libraded, and the schildren that such a Cyclopædia shall henceforward form a part of the outfit of his home. To the professional man, and eve

outh to his home. To the professional man, and every person of intelligence in every walk of life, a Cyclopædia is a necessity.

Of course the old and wealthy publishers who have grown rich (it is said that the Appletons have made a profit of nearly two million dollars on their Cyclopædia) from the sale of their high-priced publications are not pleased that their monopolies are broken and their power overthrown. Of course the book agents and booksellers who have been used to getting from 40 to 60 per cent commission for selling these high-priced books are not so well pleased to sell the Library of Universal Knowledge on 15 per cent commission, though those who are not short-sighted discover that their own interests, after all, are identical with the interests of the people, and their real profits, in the end, are increased, by the immense, sales which result from meeting the people's wants. The majority of booksellers, however, are better pleased to slander than to sell this and our numerous other standard and incomparably low-priced publications. But the Literary Revolution has always looked to the people, in whose interests it is, for its patronage, and it has never looked in vain, as our more than one million volumes printed last year (this year being increased to probably more than two millions) abundantly prove. You can order the Cyclopædia directly from us, and by uniting with your neighbors and friends you can secure club rates as follows:

A discount of 10 per cent will be allowed to any one ordering at one time three or more sets of the Cyclopædia; and a discount of 15 per cent will be allowed to any one ordering five or more sets at one

From II. E. Bowles, M. D., Hammonton, N. J.,
Editor South Iersey Republican.
My attention was called to FRANK SIDDALLS
SOAP from an advertisement in my own paper,
and its use in my house for nearly a year, according
to the directions, has proved that its remarkable
properties have not been overstated. For removing printing ink it is invaluable, while for toiler
and shaving it is the best Soap I have ever seen.

From Miss. H. L. KENYON, Northfield, VI.
Ido my wash with FRANK SIDDALLS SOAP in
built the time and with no expense for Soap, as the
acting by the more than pays for R. I have no steam
or seent from the wash, while the saving in
tradit, clothes and tabor can hardly be estimated. From E. W. STANTON, 1506 N. 20th St., Philada. We are confident, from a long experience by sing and recommending FRANK SIDDALLS 0.1? that ene trial, according to the very easy rinted directions, will overcome all prejudices. It so really nas wonderful merit for shaving, toilet,

From Mrs. E. Stockwell, Hammonton, N. J. Frank Siddalls SoAP has been used in my house for the last seven months, and by following the printed directions, we find it to do everything claimed on the wrappers. We have not scalded or boiled a single article, and the cother are whiter and sweeter than when weathed in the old weay. My husband, who is a dealer here, has a steady demand for the Soap from his customers.

From Manager of Dexter Laundry, 301 Sixth Street, Corner C Street, N.W., Washington, D. C. sireet, corner C Street, N.W., Washington, D. C.
No laundry of family can afford to be without
FRANK SIDDALLS SOAP. We follow directions and use noother Soap, and have a reputation
second to no laundry in Washington for white
clothes; the superior work we have been enabled
to turn out having secured us the trade of some of
the best gentlemen's furnishing stores in the city.

The following are the Directions for Use, so simple that a child can understand them.

Do at do anything so ridiculous as to buy the Soap unless you intend following them. \$190 positively forfeited if it injures the clothes, or will not do everything claimed. First, put the white clothes in a tub of water, only made warm enough to be comfortable the hands. Then take one piece out at a time on the wash-board, rub the Soap lightly over it, roll it up and put it back into the same tub, and so on with each piece until all have the Soap rubbed on them. Then go away and let them soak at least twenty minutes, without touching them, when the dirt will all be loosened, and a very little rubbing on the wash-board, out of that one suds, will make them perfectly clean, being particular to turn each piece while washing so as to get at the seams. Then wash lightly on the washboard, through a lukewarm rinse-water (without any Soap,) so as to get the dirty suds ou. Then put through blue-water, and on the line, without scalding or boiling a single piece Afterward put flannels and colored pieces to soak, and wash them exactly the same was It is important not to heat the wash-water in a tin, brass or copper kettle.
