—The International Review for September is a very good number. Mr. Alexander Bliss, of Washington, D. C., contributes a valuable article on "Naturalization," and in view of the fact that one-fourth of our entire population is of foreign birth, the question of citizenship is a very important one for this Nation. Mr. Bliss points out some very grave defects in our present national naturalization laws, defects that may lead to inter-national complications. Mr. John Codman contributes an interesting article entitled "Mormonism," in which he gives a short history of the rise of the Mormon sect, and states that the polygamy part of the Mormon faith is dying a natural death, partly on account of the introduction of the fashions of the east into Utah. The young men of Salt Lake City find it impossible to support more than one wife and dress her as the Gentile women dress.

FIRE AND ACCIDENT.—Mr. Casper Wise, of this place, was awakened by a crackling noise last Sunday morning about 2 o'clock, and going out discovered that his bake-oven was in flames. With a few buckets of water he and his neighbors soon put out the fire. The hose companies were on bands soon after but fortunately their services were not needed. The bake-oven stands near the house and it was a narrow escape for a whole block of frame buildings. The fire caught from a small furnace built in front of the oven and used as a summer stove, in which fire had been left standing. The children of Mr. Harper McQuistion, who lives next door to Mr. Wise, were awakened by the fire, and upon going down stairs found their father lying in a pool of blood at the foot of the stairs. He had evidently fallen down stairs, had badly injured himself and had bled profusely from the mouth and nose. Medical assistance was summoned and he is doing well.

-Probably very few people have any idea that under the laws of Connecticut no Englishman can hold real estate in that Commonwealth. Neither can a Russian, a Greek or Turk or Prussian, but a Frenchman can. It is easy to conclude that the origin of this law must have been in the feeling growing out of the aid which France gave to us in the Revolution. Connecticut was a profoundly patriotic Commonwealth, and her law-makers set aside Frenchmen as a peculiar people, apart from all other foreigners, and gave them the right to hold, innerit and transmit real estate within her borders. This curious provision of law came up the other day in the case of a woman who lately died in the State leaving real estate. She had one brother living in the United States and another living in Great Britain. A question was raised about the property and the law was looked up, and the fact was ascertained that the brother in this country is entitled to all of the property. If the other brother had en a Frenchman he could have claimed an equal share; but if in spite of all temptations to belong to other nations he remains an Englishman, then he is

AN ONLY DAUGHTER CUR-ED OF CONSUMPTION. When death was hourly expected, all remedies having failed, and Dr. H. James was experimenting with the many herbs of Calcutta, he accidentially made a preparation which cured his only child of CONSUMPTION. His child is now in this country, and enjoying the best of health. He has proved to the world that CONSUMPTION can be positively and permanently cured. The now gives this Recipe free, only asking two three-cent stamps to pay expenses, This Herb also cures Night Sweats, Nausea at the Stomach, and will break up a fresh cold in twenty-four hours. Address Craddock & Co., 1632 Race Street, Philadelphia, naming this paper.
