It is estimated that there will be loss this year of 40,000,000 bushels of corn in Ohio and 60,000,000 bushels in Illinois on account of bad seed. There's a very suggestive lesson in that item.

The Utah Methodist Annual Conference, under the Presidency of Bishop Wiley, has passed a series of burning resolutions on polygamy, declaring that it is spreading rapidly and threatens to possess itself of other Territories besides Utah.

Gen. Hancock has refused all invi tations to public dinners since the 2d of July, when the President was shot, on the ground that it would not be proper while the President, his ex-of-ficio commander-in-chief, is hovering

Messrs. Smiths and Powell, of Syr acuse, N. Y. have just imported 127 head of fine selected Holland cattle. Among them is the three-year-old bull "Prince of Edam," winner of the first prize at the great cattle-show at Ley-den, which was open to all the Nether-

A committee of the Oxford Farmers' Club in Ohio, who visited a wheat field to which a commercial fertilizer was applied, estimated that the use of 15 pounds of bonedust per acre promised to increase the crop to the extent of four bushels per acre, and 200 puonds nine bushels per acre.

One year ago there were but sixteen creameries in Bucks County, Pa., now there are thirty-four. All but four are incorporated and managed on the joint-stock principle, the farmers supplying the milk being the stockholders. They produce about 10,000 pounds of butter and 25,000 pounds of cheese daily.

Sweet apples (says an Evening Post Household Hint') make delicious pickles. Peel and quarter them, boil them until tender in vinegar and water; to one quart of vinegar add two ds of sugar; heat the vinegar, and pounds of sugar; heat the vinegar, and dissolve the sugar in it; add cloves and cinnamon, and pour over the ap-ples while hot.

A recent writer declares that beef A recent writer declares that beer costs 20 per cent. more delivered in Liverpool than it should in consequence of the injuries to cattle in transport caused by useless horns. Carrying deadly weapons, he adds, is no more necessary for our cattle than for ourselves. It leads to as bad passions and injuries better. and injurious habits among cattle a among men.

[New Albany Ledger-Standard.] peaking of Governors suggests the tion of an item we received from Mr. Henry A. Knight, Foreman at Chas. Waters & Co.'s Governor and Valve Works, Boston, Mass: I have used St Jacob's Oil among our employ-ees and find that it never fails to cure. The men are delighted with the won-derful effects of the Oil, as it has cured them of bruises, burns, etc.

Sweet-corn that is a little past its ime may still be eaten from the cob prime may still be eaten from the cob with satisfaction by cutting through the centre of each row of kernels with a sharp knife. This frees the milky pulp, leaving the tough husk adhering to the cob. By scraping with a knife after cutting in this way, the inside of the kernel may be removed easily, and when cooked in milk is as soft and digestible as the young corn.

An excellent plan for testing varie-ties of small fruits is that of Mr. E P Roe, of Corn-wall-on-the-Hudson. has what he calls "exhibition plats," where, side by side, in short rows, old and new varieties are grown and fruited, and having the same culture, the test is as fair a one as can be made in any single locality. Of course allow-ance must be made for the fact that varieties that do well there might not succeed at all under different conditions. But Mr. Roe's experiments are, never-theless, most interesting and instruc-

Speaking of the use of special fertilizers, Mr. Peter Henderson said: "If our law-makers at Washington had given that attention to agriculture that its importance deserves, we would long ago have had suitable grounds there to test such questions, on a scale large enough and broad enough to determine whether or not the manure suitable for a potato was equal suitable for a cabbage." Perhaps Commissioner Loring may be moved to use a part of the appropriation for his department, foolishly squandered on "tea culture" and similar absurdities by the late Com-

issioner, for this practical purpose. Woman's heart is the same everywhere in its response to sorrow and sympathy with those in trouble. Crowned Victoria of England, a widow who has never thrown off her weeds, still mourning her dead hus-band, turns tenderly to the most prom-inent lady in the Republic of the Great West, who sits in sorrow by the bedside of her afflicted husband, and says: 'Sister, my heart yearns for you—I sympathize with you—be of good cheer, God is just, loving and able to help to the uttermost." Such at least is the spirit in which the Queen of England communicates with wife of the President of the United States. It is one woman sympathizing in the troubles of another. The wife and the mother speaks loudly in the incident, and when these assert themselves, as God and nature have endowed them to do, the response will always be the same, regardless of station, race, or condition, because it is God in us who thus speaks.

A Great Cause of Human Misery On the Loss of

MANHOOD

A Lecture on the Nature, Treatment and Radical cure of Seminal Weakness, or Spermatorrhea, induced by Self-Abuse, Involuntary Emissions. Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilessy and Fits; Mental and Physical Incapacity, &c.—By ROBELT J. CULYERWELL, M. D., author of the "Green Book" &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without dangerous surgical operations, bougies, instruments, rings, or cordials; pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

**EThis Lecture will prove a boon to thousands and thousands.
