He was lifted from the bulance and tenderly carried to a sleep ing chamber in the northeastern corne the building. He then passed into

the hands of his surgeons.

At 3 o'clock in the afternoon he said: 'Blaine, what motive do you think that man could have had in trying to assassinate me?' Mr. Blaine replied: 'I do not know, Mr. President. He says he had no motive. He must be insane.' To this the President said - 'I suppose he thought it would be a glorious thing to emulate the pirate chief.' Shortly afterwards he said to one of his sons: 'Don't you be alarmed, Jimmy; the upper story is all right; it is only the hull that is a little damaged.' He still carried his pistol in his hand. It was a California revolver, of large calibre, with a bone handle. The ball that entered the Presidents body was known as calibre 44.
