THE DEAD PRESIDENT.

HE FINAL SCENE AT ELBERON-RELIGIOUS SERVICES IN THE COTTAGE-DEPARTURE OF THE CORTEGE FOR WASHINGTON.

CIF THE CONTENT. SAL.—The slow, solemn ELEENS, Sept. 21, 1881.—The slow, solemn tolling of a village church bell this morning was the only sound that broke the hush that had fallen upon Elberon when the heart of the chief stopped beating. There was no military ceremony, no dirge save that of the breakers hard by, no pomp, no display of any kind, and the monosyllabic clanging of the bell scemed like a mournful repetition of the one word, "Dead." All was as plain as befitted the char-acter of the man and the office he had held. Early in the twilight the military guard was was doubled around the cottage where lay all that was mortal of the late President. An of-ficial notice had been issued that night that the people would be admitted to see the body at an early hour and the notice not only brought hundreds from the immediate vicinity, but many from considerable distances. The lawn around the cottage was thronged as early as seven o'clock and by half-past eight there were probably three thousand persons standing look-ELBERON, Sept. 21. 1881 .- The slow, solem

At hafr past eight the word was given, and from the crowd which had been kept at a distance to the steps of the house a line was formed between sentrics.

VIEWING THE PRESIDENT'S REMAINS.

One by one the people entered and pass nto the roon on the southwest corner on the round floor. In the centre of the room stood he coffin in which the body had been placed The casket was a perfootly plain one, covered with blach cloth, the only ornaments being the heavy silver bars that run along the sides and silver plate having the following inscription:—

JAMES ABRAM GARFIELD : Born November, 9, 1831. Died, Presi-dent of the United States, Sept, 19,1881.

The face of the President was exposed by the turning down of the upper part of the coffin lid. It was terribly changed from its appear ance before his illness, so much so that very many who had known him in life said in hushed tones: --'' would not reacognize him.'' Not oally was the emaciation appalling, but the lines drawn by suffering were graven in his face until it was haggared beyond description. It is said that he had fallen away almost two-fifths of his trom the appearance of the face. No sign was visible of the affection of the parotid gland, the beard being so aranged as to cover the scar. There was some dicoloration noticable on the face, but this was not altogether the mark of death. A plaster cast of his face had been tak-en, and the oil applied to the skin had slightly stained it. His left hand lay across his breast in a position that was said to be habitual with him in life. His right hand lay down at his side. He was dressed in the sui of clothes which he we're when he was inaugurated as President last March. The clothes had fitted him then, and not all the art of the un-dertaker could make then look to-day as if they had been made for him. The face of the President was exposed by th

At half-past nine o'clock Chief Justice Waite, Secretary and Mrs. Blaine, Scoretary and Mrs. Windom, Secretary and Mrs. Hunt, Postmaster General and Mrs. James, Secretaries Lincoln and Kirkwood and Attor-ney General MacVeagh arrived at the Frank-lyn cottage, and the doors were closed. We were agreeably surprised with a genial serenade on last Thursday night by the above band. The performers seemed to be in the freshest mood pos-

On the 21st of June last, Mr. R. B. Fowzer of this place, obtained a patent for a self-shutting hinge for doors and gates. He entered it at the late State Fair at Pittsburgh and took the first premium there, although he had to compete with self-shutting hinges brought all the way from Connecticut. He also had it on exhibition at the Fair here, where he was awarded first premium. His invention consists of a common knuckle hinge, over which is
