-From the Washington correspondence of a New York paper we take the following: 'Concerning the tariff question, it is to be observed that Pennsylvania receives recruits from the agricultural regions, noticeably from grain producing regions in the west. It was here that the free trade heresy was supposed to be taking strongest hold. It is to be remarked, also, that public men who heretofore have dawdled with protection now stand firmly on their feet and declare with emphasis that protection is the thing to pay the national debt and at | the same time insure universal prosperity. Companion to this is the Don neron idea of free tobacco, the diet of the masses, and the product of vast regions, a strip of Pennsylvania included. This is supplemented from the corn-growing region with the progressive uggestion of free whisky. gether.' said a prairie region representative, 'will place the bread of life within the reach of all and give the poor man a chance, while the national debt will be paid with a stiff tariff.'

cuted to the fullest extent of the law.

Note What an old and Reliable House can do Regarding Prices.

All kinds of Sewing Machine Needles at 35 cents per dozen, and No. 1 Sperm Oil at 10 cents per bottle. The only place in Butler where you can find a full and complete stock of KNIVES, FORKS, SPOONS, &c. 1847.—Rogers Bros.—A 1.—none genuine unless stamped ("1847.—Rogers Bros.—A 1.") I also carry a full line of Eye Glasses and Spectacles, suitable for all eyes and mounted in the most elegant and substantial manner, and am offering very superior goods at the most reasonable rates. Repairing of Watches and Clocks receives our very strict attention, and is done promptly and warranted.

Never during our experience as buyers and manufacturers of clothing have we seen the market in so depressed a condition at it has been this season. The stubbourness with which Summer has lingered in the lap of Winter had a very depressing effect upon prices. When our buyer reached New York he did not intend to buy one dollar's worth of Clothing, but the manufacturers accosted him and offered him such inducements which were irresistable. They had the goods, they wanted the money, and therefore named such low prices as even to you will appear ridiculous. The result was that our buyer took the advantage of the flut market and secured Men's, Poys' and Children's Overcoats at 40 per cent. less than they cost to manufacturer. Men's, Boys' and Children's Suits he bought at about one-half the prices these same manufacturers asked for same goods four weeks ago. Hats and Furnishing Goods in proportion. Being bought cheap, we intend to sell them cheap, giving the people of Pittsburgh and vicinity the full benefit of this unprecedented purchase. Never have we at any one time had as large and desirable stock of seasonable goods in our store as at the present time, and it seems a great pity to cut prices so, but we mean shash and slash it shall be. This great loss—and loss it is—falls upon the manufacturers, and were it not for our great enterprise and ability to pay spot cash for those tremendous lots of goods the people of Pittsburgh and vicinity would not have this unheard-of opportunity of securing such excellent Clothing for such insignificant prices. Merchants in the country who are not "filled up" with Winter Goods will do well to come in and assort their stocks at our Retail Prices. They will save morey and get better goods than they usually handle.
