—Peanut festivals! are the latest society craze. The admission fee is usually ten cents, and each person receives a bag of peanuts at the door; every lady discards all jewelry, and wears peanut jewelry, ear-rings, ring-necklets, neck-chains, etc., which are "mod" at the festival.

Mr. Benjamin, the ex-Confederate Secretary of State, disposes of a whole question in a letter to a friend in New York. His opinion that there is not a penny of assets of the defunct Confederacy anywhere in Europe is probably correct.

—The latest marvel of science is instantaneous photography. Allison, of Indiana county, must hang, so must Small, of Allegheny County, Moyer, of Snyder county, Newling, of Clearfield county and the two Rumbergers, of Dauphin county. The next meeting of the Board will be on the third Tuesday of February.

—A dispute from Petrolia to the Titusville Herald, of last Saturday, stated that "Mrs. Shaw, a victim of small-pox, gave birth prematurely last night to a child under most distressing circumstances, without female attendant or physician. Her hour came, and in the presence of two men, the mother's eyes looked upon her first born. Her agony was terrible, but she survived and is better since. The child lives and is cared for by the two men. It is a disgrace to civilization that such things should be."

—One feature of the recent terrible disaster on the Hudson River Railroad has been common to so many accidents on the rail that further neglect to legislate against it will be unpardonable. After the cars had been "telescoped" they caught fire and were burned, with parts of their living contents. It is the rule recognized by every other country, and it is the rule of justice. Every pensioner is a burden upon the rest of the community, either directly or indirectly; and no such burden should be imposed on behalf of men who did their plain duty as citizens and who received no material injury in the performance of it. Any other rule than this is an insult to the armies of the Republic, and, if men sound in life and limb are to be pensioned for taking part in the infamous act of public robbery called the Mexican War, why not include all those who served in the great struggle for the preservation of the national union? That is, why not make one million or so of able-bodied men public pensioners and virtual paupers, at the national expense. A disabled soldier is not a pauper for taking a pension; a well man would be no'ing less if he were to accept one.—*The American*.

—ROBBERIES IN BEAVER.—On Monday night of last week, some thieves broke into Mrs. McKernan's notion, trimming and millinery store on Third street, and stole about \$500 worth of goods. Mrs. McKernan was away at the time, but when she returned on Tuesday forenoon and opened her store, a scene of empty shelves confronted her. The thieves had made nearly a clean sweep and taken everything of much value. No one saw or heard them, timidly to the handsome clerk, she asked for "Swainey's Ointment for skin diseases," and upon receiving it vanished like the morning dews before the summer sun.

—Vanderbilt University, Tenn. As a disinfectant and detergent, Prof. Darby's Prophylactic Fluid is superior to any preparation with which I am acquainted.

H. T. Lupton, Professor Chemistry.

Darby's Prophylactic Fluid purifies a foul atmosphere, destroying the infectious germs, gives relief and comfort to the sick and protection from contagion to those nursing. In all cases of small pox, scarlet fever, diphtheria, typhoid, yellow and relapsing fevers its use will stop the spread of infection.

—**Shorthand in 12 Lessons.** The plan of giving instructions in Phonography through the AMERICAN SHORTHAND WRITER has made a revolution in the study. Several hundred learned through this medium last year, and speak in the highest praise of the publishers and their methods.

The First Lesson, in the January number of Vol. II., occupies three pages, and is so exceedingly comprehensive that any child may learn it. The Reporter's Department contains fac-simile notes of the leading stenographers of Boston, and a frontispiece portrait of Isaac Pitman, the Inventor of Phonography. Business men are furnished with shorthand corresponding clerks on application.

—TRAFFICKING IN VIRTUE.—Legal proceedings have been instituted in this city within the past week, the developments of which promise to unearth some facts that will give gossips of New Castle a morsel of scandal which will stand "chewing" for seven days at least. One of the sensations likely to be produced is the revelation of the horrible truth that a married lady of this city, called by the common herd "respectable," but known by a few to be decidedly "queer" in her social transactions, has been for some time past serving in the capacity of procurer for a Cleveland bagnio. The modus operandi adopted by the shameless siren which they carried away. They also took two blankets and some few other articles of trifling value. On the same night, Mr. Wilson's store opposite the U. P. Church, was entered and the two blankets and some above were fastened to the windows of the store, facing Mr. Wilson's house, and the safe was blown open. As no money was in the safe the thieves got nothing for their pains. Mrs. Wilson heard the report of the explosion, but could not make out what noise it was. Mr. Wilson believed that it was anything unusual, who attributed it to the noise of a passing train. Constable Ike Lazarus with a search warrant, on Monday went to the house of Wm. Schell in Bridgewater, and was rewarded by finding concealed there some of the stolen goods from Mrs. McKernan's store. James Noss was also suspected of being implicated in the robbery. Accordingly Constable Lazarus arrested the two chaps and marched them to jail to await a hearing to-day (Wednesday). Wm. Schell has been in the penitentiary and is considered a hard case. James Noss is but a youth. If they are found guilty of these robberies, Judge Hice will undoubtedly give them the full benefit of the law.—*Argus and Daily Democrat*.

—**Much on Raisins.** The thing desired found at last. Ask Druggists for "Rough on Raisins." It clears out rats, mice, roaches, flies, bed-bugs, lice, boxes.

Growing Musk Melons for Seed.

In his new Catalogue of 1882, Mr. Joseph Harris, Moreton Farm, Rochester, N. Y., says he grew six acres of Christine Musk Melons last year, seed in a field adjoining the highway, and that hundreds of people for miles around, can testify to the superior excellence of this variety. He adds:

The Prolific Nutmeg is also a great favorite on my farm and was extensively grown, but being farther from the road than the melons, did not receive the same attention. The melons were very good, and the fruit was excellent.

—**Two Bottles.**

Messrs. Johnson, Holloway & Co., Philadelphia, druggists of Philadelphia, Pa., report that some time ago a gentleman handed them a dollar, with a request to send a good castor cure to two army officers in Arizona. Recently the same gentleman told them that both the officers and the wife of Gen. John C. Fremont, of New Mexico, had been cured of "Ely's Cream Balsam."

Messrs. Eliz. Bros., Druggists, Oswego, N. Y.—A few days ago I saw a lady who had cured your "Ely's Cream Balsam" for Catarrh and had found more relief

from it than from any other remedy.

Those who try it will be surprised to find how quickly it cures the disease.

—Carpets, a fine stock, at low prices, at Heck & Patterson's.

—Mr. Senator Sherman's bill for funding two hundred millions of the continued bonds at three per cent, for five years, seems to be a godsend to all those Senators who have speeches to make on the financial question, or any other. It does not matter whether their speeches have or have not anything to do with the measure in question. They speak their piece all the same. One labors the Arcane of Pensions Law; another abuses Mr. Hayes; a third has a good word to say for silver; a fourth has an ill word for the national banks; a fifth demands the Treasury reserves. But, with the exception of Mr. Sherman himself, and those who oppose him, the bill is a good one to be introduced, with the exception of Mr. Windom, who opposes the bill, rot a single Senator thinks it worth while to discuss the measure on its merits. We have no rule of order in the Senate to compel gentlemen to speak to the point, their own self respect should restrain them from such displays of logical incapacity as make up these speeches. The only question for the Senate to settle is the comparative wisdom of funding two hundred millions in this way, or keeping the whole amount within Government reach for redemption. For the former policy there is to be alleged the prospect of a great reduction in our national income, which will make the redemption of more than eighty millions a year impossible.—*The American*.

—This pension business will be

overdone very badly, if Congress

should pass a bill.

—It is the time to make it public.

The legislative sub-committee, appointed to investigate the management of this institution, adjourned last Wednesday evening after adopting a resolution requesting all persons who have a grievance or evidence of mismanagement to communicate with the chairman, Senator Myrin, on or before March 21st, when another session will be held in Harrisburg. The design is to investigate as fully as possible, and the management itself is desirous of having any specific charges against it brought to light. The committee will be, to recognize his widow or his heirs as inheriting his claims to what he would have received. It is plain common sense that no one is entitled to war pensions except soldiers who received disabling wounds or injuries during the war, and the widows and minor orphans of those who were killed in the war. This is the rule recognized by every other country, and it is the rule of justice. Every pensioner is a burden upon the rest of the community, either directly or indirectly; and no such burden should be imposed on behalf of men who did their plain duty as citizens and who received no material injury in the performance of it. Any other rule than this is an insult to the armies of the Republic, and, if men sound in life and limb are to be pensioned for taking part in the infamous act of public robbery called the Mexican War, why not include all those who served in the great struggle for the preservation of the national union?
