—A report of the fatal burning of three small children near Little Rock, Ark., is a repetition of the old, old story of a thoughtless mother who went off visiting and left the little ones unattended at home. They began playing with matches, and before help could arrive, were burned to death.

—Emlenton Academy opens April 17th. Rev. J. B. Fox, Principal. Send for circular. m27t.

—A leading Philadelphia business house was closed the other day, the heavy draping of crapes on the doors indicating that some one connected with the establishment had died. Inquiry developed the fact that the deceased was not a member of the firm, nor a clerk, nor yet a trusted errand-boy, but a huge Thomas cat that had for years been a favorite with everyone about the place.

—WANTED.—To buy 3,000 cords of chestnut oak bark. Call and get prices, at Reosing's tannery. apr19t.

—Poligamy received another blow last Wednesday in the vote taken in Congress which leaves Mr. Cannon out in the cold. Cannon has long figured as "the brains of the Mormon Church." But it is sad for the brains of the Mormon Church when, as in this instance, they come into collision with the conscience of the American people.

—Men's, Boys' and Children's overcoats, at less than cost, at Heck & Patterson's.

—As the wool buying season is nearing, recent sales of the staple may be regarded as straws. In Tuscarawas county, Ohio, last week, 125,000 pounds sold at 40 cents. Seventy thousand lbs. in Hancock county, West Va., were purchased at 42 1/2 cents. The opinion prevails that the prospect looks favorable for good figures the coming season.

—Carpets, oil cloths and matting, cheapest in Butler county, at Heck & Patterson's.

—Barnum and Forepaugh, the monster circus men, are at loggerheads concerning the respective avowals of their big elephants. Mr. Forepaugh has deposited the sum of \$5,000 as a forfeit if any one can produce a heavier elephant than his Bolivar. Mr. Barnum thinks Jumbo can win this money for him, and a wager between the two may be expected.

—Old Gold, Tan, and all new Spring Colors in Kid, Silk and Lile Gloves at L. Stein & Son's.

—U. S. special tax payers will bear in mind that all taxes for the present tax year, beginning May 1st, are due and payable on or before the 30th proximo. Send in your applications to the collector at once, as no legislation affecting the revenue for this year is likely to pass Congress in time to release the taxpayers for the present year.

—Heck & Patterson are closing overcoats out, at less than cost to manufacture.

—One of the wonders in the world of Art and Progress of this age, in the book line, is Hubbard's Newspaper and Book Directory of the World. It contains the names and circulation of all the newspapers published in the world, and also a list of all the banking institutions in the world. These with maps and descriptions of every country on earth, statistics of population, portraits of prominent men, a history of the Art of Printing, descriptions of modern printing machinery and many other things comprise two of as valuable volumes can be found in the library of any printing office.

—Oil men and all others, and especially farmers in town on business wanting good meals at any hour of the day, can be accommodated at the Restaurant of Geo. J. Smith, Jefferson street, Butler, Pa.

—Gents' fine white and colored shirts, low prices, at Heck & Patterson's.

—Fire seems to be making about the most effective war on whisky ever in these days of active liquor legislation. Another large distillery, located near Peoria, Ill., was destroyed the other night entailing a loss of \$350,000.

—The Pearl shirt, the finest dress shirt in the market, only \$1, at Heck & Patterson's.

—While Nick Sailer was loading a sack of flour on his wagon, standing in front of Reibers' grocery, last Friday afternoon, two ten dollar bills dropped from his vest pocket. One of them was picked up in front of Stehle's store by Mr. Jones.

—Fine Accordians at J. F. T. Stehle's.

—A new dance which promises to fill a long-felt want at summer resorts, during warm evenings, has just been invented. The couples have nothing to do but to stand up and hug while the band plays a funeral dirge.—Harrisburgh Telegraph.

—Some of our exchanges are taking very special pains to criticize harshly the action of Governor Crittenden, of Missouri, for authorizing the killing of Jesse James, and write as if that official had deliberately sanctioned and encouraged a cold blooded murder. This is wrong. James was the avowed enemy of his race, and lived upon his fellow men, regarding their lives and property as his legitimate prey. Governor Crittenden is no more to be censured for trying to have him removed from earth than had he ordered the destruction of some venomous reptile.

—Detective Peter Kramer made a successful arrest last Friday at the West Penn Railroad junction near Freeport. It is not perhaps generally known that a small part of the railroad there passes through Butler county, and on this small part the arrest was made. He had a capias for one August Winters and arranged to arrest him as he was passing through on a train, and succeeding in so doing. It was a very narrow margin to work upon but detective Kramer was equal to the emergency and brought his man to Butler.

—A dispatch from Harmony, dated last Saturday says: "The proposition made by the Pittsburgh and Western company to the stockholders of the old Pittsburgh, New Castle & Lake Erie road, to pay them the sum of \$10,000 was not accepted. The said stockholders say that they will not accept anything less than the original amount of stock, about \$60,000. The attorneys for the original holders of stock are working for a percentage, and will, of course, endeavor to get all they can. They claim that their clients have a good case, and that the proposition made by the P. & W. folks shows that there is just grounds for the suit."

—Something of an idea of the magnitude of the graveyard insurance business in this State may be gleaned from the fact that the Attorney General, upon information made by Insurance Commissioner Forster, recently returned to the Dauphin county Court a list of 213 of these companies doing business in Pennsylvania. At the same time he made an application for a rule compelling these same companies to show cause why their charters should not be forfeited, and they be prevented from hereafter doing business in this State. The rule was granted and made returnable on the 11th of May. The business of these companies has been pretty nearly wound up by the exposures of the press, and this action of the State authorities will put an end to the swindles.

—Last Thursday was pay day for the R. R. hands and on Friday and Saturday, there were many drunken men on our streets. Some of these were arrested for being drunk and disorderly, and fined five dollars each and costs and one or two of them preferred going to jail for 48 hours rather than pay the fine. In these cases the borough had to pay the costs. The borough ordinance says they shall be fined not less than five or more than ten dollars. If the "not less than five" were dropped from the ordinance, the Justice would be enabled to impose such fines as could be paid and the borough would not be put to any expense.

—While speaking of ordinances we would like to call our attention to all the property of giving new ordinances a more thorough publicity. During the first part of this month the council passed an ordinance relating to the firing of guns, pistols, etc., and regulating the sale and use of fire works in the borough. This was published in two papers and we will venture to say that not more than one-third of the voters of the borough, read it or know anything about it.

—Professor Langley, of the Allegheny observatory thinks that the remarkable spot on the sun, now visible with the aid of a smoked glass, was the cause of the recent auroral display. On the 1st of September, 1859, when two English astronomers were independently examining and measuring the spots on the sun, a bright outbreak in the fiery orb was noticed—the whole time of the observation not exceeding five minutes. But subsequently they found that simultaneously with this solar eruption the magnetic needles at New Observatory had been strongly jerked; the magnetic currents passing through our atmosphere at that moment set up such strong electric currents in the telegraph wires of this country that the operators at Washington and Philadelphia received sharp shocks. In Norway some telegraph machinery was set on fire, and it was reported that magnetic storms synchronously prevailed in the West Indies, South America and Australia. These and other coincidences in the dates of remarkable auroral displays in the Northern and Southern Hemispheres are so marked that they justify the conclusion of eminent physicists that a great exhibition of auroral light at one of the earth's magnetic poles generally occurs at the same time at the opposite pole. We may therefore expect to hear that such an exhibition, or of a magnetic storm, has recently been observed at widely remote points on the globe. mar23,3m

—Farmers who leased their coal lands in the northern part of Butler county in the years 1863 and 1864 to Messrs. Kyle, Niblock and Breun, will find it to their interest to confer with J. C. Vanderlin, attorney at Butler, in regard to their leases. There is a covenant in these leases to pay yearly rentals, so many years after a railroad was built on or near the lands leased, one year after a demand. Failing to make these payments as stipulated within the year was to be considered an abandonment of the lease. There are now several year's rental due on these leases and farmers wishing to get rid of the lease must make a demand on the company. Mercer mining and manufacturing, now owning the leases, by himself or his attorney. The party of the 2nd part in the lease failing to pay within the year, is a breach of covenant, which taken advantage of, the Court on proper application will strike off the lease. Mr. Vanderlin has been employed by quite a number of the farmers to examine their leases, make this demand—and if possible have them stricken from the record, and if there are others who have not yet taken action in the matter either to secure the payment of the money due or to have their leases given forfeited, they should apply to Mr. Vanderlin at once. apr26-t.

COURT PROCEEDINGS.

On Monday a special term of Court convened, Judge McJunkin and Associates McCandless and Weir on the bench.

It the forenoon several petitions were presented, among them one for the appointment of viewers to assess damages to land, etc., caused by the construction of the Pittsburgh and Western railroad.

Mr. Cunningham, District Attorney, presented a petition on behalf of the Commonwealth, asking that the whole panel of jurors as in the wheel for this year, be declared irregularly selected and drawn and that the Jury Commissioners and Sheriff be directed to empty said wheel and fill the same in the new and according to law. The Court intimated that owing to the irregularity existing as to the selection of the present jurors it would be necessary to select the same in the new.

COURT HOUSE NOTES.

Mr. O. C. Bolinger, in right of his wife, nee Smith has brought suit vs. the county for costs in the case of the Commonwealth vs. Mrs. Bolinger. A rule to show cause why order should not be made on the county was granted. The same plaintiff has brought suit vs. Robert S. Hindman for slander.

Wm. McGeary has brought suit vs. W. B. and Albert L. Shrader, Wm. McCormick and Wm. Kenney for trespass.

Sarah Allen has brought suit vs. August Winter for breach of promise of marriage. Bail in \$500 given.

Mary Blatt brought suit vs. A. J. McAllister for breach of promise of marriage, but withdrew it upon the promise being fulfilled.

Wm. W. Patton and T. H. Loyd have brought suit in ejectment vs. the Bald Ridge Oil and Transportation Co., for fifty acres of ground.

Geo. A. Morland, Administrator of Jas. L. Morland, dec'd, has brought suit vs. E. H. Adams, H. E. Wick and Allen McCall for debt, interest and cost.

To the Patrons of the Silver Foam Hungarian Patent Flour.

And to all customers using flour manufactured by the Oriental Roller Mills, Butler, Pa.:

As in a great many cases the undersigned failed, when soliciting orders, to give instructions how to bake the Klingler Roller Flour, I would take this opportunity to do so, and give the reasons why this flour must have a treatment different from any other flour in the market. The Hungarian system of milling, proceeding as it does, in a manner so gradual and consistent with the nature and construction of the wheat, produces a flour which in life, strength and color is of the highest standard that can be attained. For this reason the Silver Foam Flour and all other of Mr. Klingler's flours will yield much more bread and a supremely superior article than any flour made on mill-stones. The dough can be made as soft as it is possible to handle it, and in this way more moisture and not so much flour is used, and at the same time the bread will be more spongy, whiter and more palatable than could be obtained out of any other flour. All grocers and millers instruct their trade to make a stiff dough, knead in all the flour they can, because the flour is deficient in life and strength, and will neither rise nor bake white and spongy unless the directions are complied with. For Mr. Klingler's flour is not the very contrary, a soft dough, small loaves and pastries, to give the flour a chance to assert itself, for it will come up and hold its own in every case where sufficient moisture is used and not so much flour. Those using the Klingler Roller flour and finding that the bread cracks, have indeed made the mistake of working their dough too stiff. Make your dough as soft as you can, and work out your loaves without additional flour, and I will guarantee bread that will astonish every member of the household. Into every house where the writer has been called to see the bread of Silver Foam flour, it has met with the most hearty approval, and the universal commendation was, "we have never had such bread in our house." If you had according to my instructions, the Silver Foam flour has no peer in economy, beauty and satisfactory results, and I augur for it a future that is well worth the envy of its opponents.

Respectfully,  
JOHN L. JONES,  
Butler, Pa., April 25th, 1882.
