MISCELLANEOUS A MINISTER'S ESCAPE.

From the Asylum to the Bosom of His Home—How it was Done. A prominent minister residing at the east has just made the following state-ment, which is herewith reprinted en-

To the Editor of the Herald : I have always shrunk from appearing I rominently before the public, but a sense of the duty I owe humanity and the world prompts me to ask this opportunity for making a brief stateent in your paper.
Whether it be true with others I can-

not say, but during my entire life I have frequently been conscious that something was slowly and silently working to undermine my health and life. What it was I could not tell, but that some enemy of my being was devouring me within I was certain. At times I would seem comparatively well and then I would be attacked with the most distressing symptoms. I would feel peculiar pains in various parts of my body, my head would seem heavy; my respiration labored; my appetite would be ravenous one day and I would loathe food the day following. Then again I would lose all interest in life; would feel weary without exer-

tion; would become sleepy at mid-day and res: less at night - Occasionally my breathing would be labored and my neart almost motionless, while at other times it would palpitate violently. I thought these troubles were the result of malaria, and I treated them accordof malaria, and I treated them accordingly, but I got no better. Shortly a terward my stomach became deranged, my food failed to digest, and the fluids I passed were of a peculiar odor and color. And yet I did not realize that these things meant anything serious. Finally I consulted a number of eminent physicians, each one of whom took a different view as to the cause of my troubles. One said I was whom took a different view as to the cause of my troubles. One said I was suffering from brain disease; another spinal difficulty; others heart affection, kidney disease, etc. My symptoms were terrible, and in the hope of relief I was cauterized, cupped, blistered and subjected to almost every known form of treatment. During one of these attacks, while at Red Bank, N. J., a physician was called, and left a prescription. After he had gone, I requested a friend to go and ask him what he thought of my trouble. The

says: "Brown's Iron Bitters has entirely cured me of heartburn." what he thought of my trouble. The reply was: "Oh, he will be all right who shall be a companion of my heart, my head, my lot." A candidate for the situation wrote: "I don't care to in a few days; it is only an attack of lelirium tremens." He was at once in-ormed that this was impossible, as I know anything about your heart and head; but how big is your lot?" had never used any kind of intoxicating drinks; whereupon he returned, made inquiries, and changed his prescription. But all the care of my friends and physicians availed nothing. I grew worse constantly, and what is most terrible to think of, I did not know what ailed me, nor could I find any one who did.

My son tried Elys' Cream Balm for cold in the head, after using it twice he felt no more distress or trouble in breathing. I recommend it above all other Catarrh remedies. C. C. Hag-ENBUCH, Druggist, Mahany City, Pa. "What a man your father is!" exclaimed Mrs. Homespun, looking up from the letter she held in her hand. He says he has bought a French clock, and shall bring it home with him.
What will it be good for except as an ornament? None of us can tell the time by it unless you can, Edith. You

know something about French, don't you?" A Varied Performance. Many wonder how Parker's Ginger Tonic can perform such varied cures, thinking it essence of ginger, when in fact it is made from many valuable medicines which act beneficially on

every diseased organ. The London Times prints the following palpably imaginary story of "a certain Irish M. P.," who had been describing his travels in the far West, and the "virgin forests" there. "What is a virgin forest?" asked an auditor.

A High Opinion. Capt. John W. Dawson, late of the British Army, residing on Love street, between Mandeville and Spain, this city, Says he used St. Jacobs Oil with the greatest possible advantage when afficted with rheumatism.—New Or-

A REMARKABLE CURE IN A SHORT TIME.

A TRUE CONFESSION.

I suffered for years with Indigestion, and lately had a feeling as of some hard substance in my stomach. I could not eat, sieep or work. I was under the care of a regular physician for three months without relief. I then employed two physicians in Philadelphia. To the one I paid \$15 for advice and medicine; to the other I paid at different times the amount of \$84 without any benefit whatever.

Some friend recommended Aromanna I tried it, and after taking two bottles, I was greatly relieved, the pain in my stomach ceased, my appetite and sleep came back and I could work. This was a year ago last October. Since that time I am taking every week a tablesp-onful of the Aromanna. I am hardy and healthy and as strong as ever. My wife and daughter, who were suffering with Dyspepsia, used the same medicine, and were entirely cured.

I have made this statement for the benefit of many sufferers. I am living on Mr. Wm. Rnight's farm near Woodbury, where I can be found at any time.

any one who did. During the summer and fall of last During the summer and fall of last year my pulse ranged from 120 to 130 per minute; I had no relish for food, and was indeed a most pitiable object. I continued in this state until last December, when I became unconscious and lost my reason, though I had two physicians in whom myself and friends placed implicit confidence. In this conby my faithful wife who never left me and believed that some disease and not insanity was the cause of all my but a sure remedy for Catarrh, Colds

taken home. The physicians advised that I remain, but I insisted upon been gently. leaving, and we began the journey, traveling slowly. I was met at the dock by a friend whom I recognized and then I became again unconscious and remained so for over a week.

By a through use for six months of and remained so for over a week.

Elys' Cream Balm I have entirely Elys' Cream Balm I have entirely J. B. Case, friend and knew my surroundings I determined to try, as a last resort, a treatment of which I had heard much but knew nothing. Neither myself and St., N. Y.

knew nothing. Neither myself nor friends bad much faith that it or anything could help me, but we resolved to try. We accordingly dismissed the physicians, gave up all other remedies, and I rejoice to say that with the blessing of Him who guided us, I am to-day a well man, having not been so vigor-ous for many years, and I owe it all to the wonderful, almost miraculous, power of Warner's Safe Kidney Cure, the remedy which I used.
You can well imagine how grateful
I must feel under the circumstances, and, like the new convert, I earnestly desire that all who are suffering should know and avail themselves of this means of recovery. Had it not been for the remedy above named I should doubtless now be within the walls of an asylum or in my grave. The great trouble with my case was that no one seemed to know what

I was afflicted with, and I am posi-tive that thousands of people in Amerca to-day are in the same or similar condition, and do not know its cause. Kidney troubles are the most decepive of all diseases. They have no symptoms of their own, but often show he symptoms of nearly every known complaint. I know that people are dying every day from supposed consumption, apoplexy, heart disease, spinal complaint, and many other diseases, when could the real cause be the could be found to crients. known, it would be found to originate in the kidneys. In their advanced stages kidney troubles are the most terrible of all known maladies, as my

own experience can fully verify. That I had Bright's disease of the kidneys there can be no doubt. That the symptoms were those of many other dis-eases is equally certain, and that I was doomed to a terrible death had I not been saved as I was, I am positive. One day toward night, and in upcertian light, a man bought an over-coat of pretended plumb-color. The next morning it proved to be of a quite too unmistakable green. Returning it to the shop-keeper, that worthy regarded the buyer calmly, and then equainted with my highly valued said: "You must have a little patience

One of the toughest old adversaries of human comfort, and most difficult to exterminate, is rheumatism. Many middle-aged people suffer torture with it, and the old folks who have it find it the pest of their lives. The case of a venerable lady of Lewistown, Mass., is of great interest to the victims of this tough old enemy. Mrs. Swett says: "I have been using Perry Davis's Pain Killer for about eight years. As soon as I apply Pain Killer I have

He coughed! he coughed! His eyes ran; he looked redder in the face than a lobster. But "Sellers' Cough Syrup" NEW YORK, 1883. The Atlanta Constitution notes the sale of four hundred acres of mining lands in Northern Georgia to an English company for the round sum of

purposes to serve, save the information of its readers and the furtherance or the common good.

Because it is everybody's newspaper. No man is so humble that The Sun is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular vendet against Robesonism and for honest government. No matter what party is in power, The Sun stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our iriends. One man holds that The Sun is the best religious newspaper ever published because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of The Sun discovers one of its many sides that appeals with particular force to his individual liking.

If you alreads know The Sun, you will observe that in 1883 it is a little better than ever before. If you do not already know The Sun, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourage for wickedness of every species, and an uncommonly good investment for the coming year. husband, in Oregon, on the ground of cruelty.
